

Apéndice 5

Plantas hospederas de cercopoideos seleccionados de Monteverde

Daniel C. Peck

Las plantas fueron identificadas por William A. Haber.

Species = Especie; **Nymph** = Ninfa; **Adult** = Adulto; **Host Family** = Familia hospedera;
Host Species = Especie hospedera

| Species | Nymph | Adult | Host Family | Host Species |
|--|-------|-------|---------------|--------------------------------|
| Clastopteridae | | | | |
| <i>Glastoptera</i> sp. | x | | Rubiaceae | <i>Spermacoce assurgens</i> |
| | | x | Verbenaceae | <i>Verbena litoralis</i> |
| Aphrophoridae | | | | |
| <i>Cephisus siccifolius</i> | x | x | Euphorbiaceae | <i>Croton</i> sp. |
| | x | x | Rutaceae | <i>Zanthoxylum insulare</i> |
| | x | | Solanaceae | <i>Acnistus arborescens</i> |
| Cercopidae | | | | |
| <i>Mahanarva costaricensis</i> | x | x | Heliconiaceae | <i>Heliconia tortuosa</i> |
| | | x | Marantaceae | <i>Calathea</i> sp. |
| <i>Iphirhina quota</i> | x | x | Acanthaceae | <i>Justicia oerstedii</i> |
| | | x | Boraginaceae | <i>Bourreria costaricensis</i> |
| | x | | Piperaceae | <i>Piper amalago</i> |
| | x | x | Piperaceae | <i>Piper auritum</i> |
| | x | x | Piperaceae | <i>Piper</i> sp. |
| | x | x | Piperaceae | <i>Pothomorphe umbellata</i> |
| <i>Prosapia</i> sp. near <i>bicincta</i> | | x | Aquifoliaceae | <i>Ilex haberi</i> |
| | x | | Cyperaceae | <i>Kyllinga brevifolia</i> |
| | x | | Cyperaceae | <i>Kyllinga</i> sp. |
| | x | x | Poaceae | <i>Cynodon nlemfuensis</i> |
| | x | x | Poaceae | <i>Digitaria abyssinica</i> |
| | | x | Poaceae | <i>Ichnathus nemorosus</i> |
| | | x | Poaceae | <i>Lasiacis</i> sp. |
| | x | | Poaceae | <i>Paspalum conjugatum</i> |
| | x | x | Poaceae | <i>Pennisetum clandestinum</i> |
| | x | x | Poaceae | <i>Pennisetum purpureum</i> |
| | x | x | Poaceae | <i>Sporobolus</i> spp. |
