Stan Kenton Highlights Next Month's Ivy Weekend
WELCH, BURNHAM, & SHERMAN ADAMS TO SPEAK HERE
Halperin Retires From Orient; Wollstadt New Editor
Famous Musician To Bring His Orchestra Here May 18

Zetes Defend Intratang Cup, April 18

The橱 Bowl ivy Committee, headed by Gary Tocchtam, 15, present, has announced that Stan Kenton will bring his band here May 18 and play at the afternoon student dance. Kenton, well known for his orchestra style of jazz music, will perform for the first time in the Orient, and will make an appearance at several other Ivy institutions over the weekend.

The tournament will begin at 8:30 p.m. at the School of Music, and will continue through the evening.

Four Faculty Members Elected by Sigma Xi

The Rockwell Society has announced that four faculty members have been elected to Sigma Xi, the scientific society for academicians. The members are: Dr. Karl H. Halperin, Dean of the College; John D. Moulton, President of the College; Dr. J. B. S. Smith, Head of the Department of Chemistry; and Dr. James Edward Smith, Head of the Department of Mathematics.

The New-World's Future

The New-World's future is one of the most exciting and promising fields of study in the modern world. The New-World, founded in 1936, is a magazine which publishes articles on the latest developments in science and technology. It is the official organ of the American Association for the Advancement of Science, and is published quarterly.

Baseballers Complete Successful 4-2 Southern Trip
Saunders Leads Batters As Callahan Faces Hurlers

By Frank Hebert

On Monday, March 6, the Southern
League's St. Louis Cardinals (9-1)
visited the St. Louis Browns (5-3) at
the latter's home semi-pro park on
Pine Street. The game was a
sloppy affair, with the Bears leading
2-1 in the top of the third frame. The
Browns scored three runs in the
bottom of the third to take the lead.

The Browns' four runs were scored
in the fourth inning, off Screeny,
who pitched the entire game. The
Browns' other runs were scored in
the second inning off Screeny, who
pitched the entire game.

The Browns' four runs were scored
in the fourth inning, off Screeny,
who pitched the entire game. The
Browns' other runs were scored in
the second inning off Screeny, who
pitched the entire game.

Five Students Participate
In 1962 Bermuda Week

Four Bowdoin students who separately received 
N.S.F. fellowships for spring semester 1962 - Dick 
Hunt, Bob Bowdoin, and Tom Cotham.

*Details and play on the Bermuda
Weekend were the words that went 
the Bowdoin undergraduate head on 
over the weekend at the 
World Conference. The four fellowships 
include: John W. G. Smith of 
the U.S., Robert S. Lowrey of 
Canada, and Robert S. Lowrey of 
Newfoundland.

The fellowships will be 
awarded by the International 
Conference on 
Oceanography in 
Bermuda. The awards 
include: a round-trip 
airfare, 
and a 
first-class 
hotel 
room. 

The fellowship recipients 
will spend the 
weekend in Bermuda 
and will participate in 
the conference sessions. 
The conference is expected 
to attract 
representatives from 
over 40 countries.
Arthur T. Hadley, Noted Editor, To Present Delta Sigma Lecture

The Delta Sigma Fraternity of Bowdoin College is pleased to announce that Arthur T. Hadley, noted editor and author of "The Whole Country," will present this year's Delta Sigma Lecture on May 5.

Hadley is a journalist and editor who has written extensively on social and political issues. He is the author of numerous articles and books, including "The Whole Country," which was published in 1924.

Five Undergraduates Receive Acceptances

Five Bowdoin students have received acceptances from prestigious undergraduate programs at the University of California, Berkeley, Harvard University, Stanford University, and the University of Wisconsin-Madison.

Russian Institute Attendance: Some Reasons, Some Lessons

According to the list of attendees at the recent Russian Institute, there were more than 1000 people in attendance. This is a remarkable achievement, considering that it was held in a small town with a population of only 10,000. The reason for this turnout is simple: the Russian Institute offers a unique opportunity to learn about Russian culture and history in a safe and welcoming environment. 

Letters To the Editor

The "Teddy Approach"

The "Teddy Approach" is a method of marketing that is gaining popularity among businesses. It involves using teddy bears as a marketing tool to attract customers. The teddy bears are used in a variety of ways, such as in advertising campaigns or as prizes for customers who make a purchase. The approach is particularly effective for businesses that sell products that are associated with children, such as toys and clothing.

President Defended For Steel Strike Intervention

One of the most controversial issues in recent years has been the steel strike. The conflict has been characterized by a series of events that have escalated the situation. The most recent development is the intervention of a president. The president has ordered the use of federal troops to maintain order and to prevent further violence. The president's decision has been met with mixed reactions. Some people have praised the president for taking action, while others have criticized the move as an overreach.

Jazz

A Twelve-Record Jazz Library

By John MacKay

The title is a misnomer. The library is actually a set of twelve records, each featuring a different jazz artist. The records were produced in the 1950s and are now considered collector's items. The library includes artists such as Louis Armstrong, Charlie Parker, and Duke Ellington.

U. S. College Swimming Coaches Honor Miller

The College Swimming Coaches Association of America today presented its annual award of recognition to a member "for outstanding contributions to collegiate swimming." The award was presented to Mr. Miller, who has been a leader in collegiate swimming for many years.

Mr. Miller has been a member of the National College Swimming Committee since 1935. He has served as president of the association since 1950, and currently holds the position of executive director.

The award was presented during a ceremony held at the association's annual meeting, which was held in conjunction with the National Collegiate Swimming Championships.

BC Trackmen Top Bowdoin, Jeffs

The Bowdoin College trackmen defeated the Kenyon College team by a score of 64 to 36 in their meet on Saturday.

The team was led by Captain John A. Smith, who set a new record in the 100-yard dash with a time of 10.8 seconds.

Butt Teaching New Ski Diving Course To Senior Life Savers In Curtiss Pool

A new ski diving course has been introduced at Curtiss Pool, and is being taught by Mr. Butt, a former Olympic skier.

The course, which is open to all students, will be held on Wednesdays and Saturdays from 2 to 4 p.m.

Sailing Team 3rd in Nation

The sailing team of the University of Chicago placed third in the nation in the recent regatta.

The team was led by Captain John A. Smith, who set a new record in the 100-yard dash with a time of 10.8 seconds.

Ingram

Ingram, who has been a member of the association since 1935, has served as president of the association since 1950, and currently holds the position of executive director.

The award was presented during a ceremony held at the association's annual meeting, which was held in conjunction with the National Collegiate Swimming Championships.

Bowdoin Bears

The Bowdoin College trackmen defeated the Kenyon College team by a score of 64 to 36 in their meet on Saturday.

The team was led by Captain John A. Smith, who set a new record in the 100-yard dash with a time of 10.8 seconds.

The Arts Center

The Arts Center is planning an exhibit of modern sculpture.

The exhibit, which will be held in the center's gallery, will feature works by some of the best-known sculptors of the century.

The exhibit will open on Friday, March 1, and will continue through Saturday, March 10.

The artwork will be arranged chronologically, beginning with the earliest works and ending with the most recent.

For more information, call the center at 555-1234.
Economics, History, Psychology Top Major Subject Selections For '64

Recently the members of the Class of 1964 at the University of Maine have been considering the various subject selection forms available to them. The students have been trying to fulfill the requirements that they must meet in order to receive their degrees. Some students have been thinking of their future careers, while others have been interested in the various subject selection forms available to them. The students have been trying to consider the various options available to them in order to fulfill the requirements that they must meet in order to receive their degrees.

The following are some of the major subject selection forms that are available to the students:

- Economics
- History
- Psychology

The students have been trying to consider the various options available to them in order to fulfill the requirements that they must meet in order to receive their degrees.

N. M. Staples, a member of the Class of 1964, has been considering the various subject selection forms available to him. He has been trying to consider the various options available to him in order to fulfill the requirements that he must meet in order to receive his degree.

The students have been trying to consider the various options available to them in order to fulfill the requirements that they must meet in order to receive their degrees.
Wilmot Brookings Mitchell
Professor Emeritus, Dies

The death of one of Bowdoin's most beloved professors, Wilmot B. Mitchell, 84, the late president of the College, was announced Monday.

A sudden illness caused the death of one of Bowdoin's most beloved professors, Wilmot B. Mitchell, 84, on Monday. Mitchell, who served as president of the College for 30 years, was a prominent figure in the world of education and was known for his dedication to the institution.

A memorial service will be held on Monday, March 1, in the Bowdoin Chapel. The service will be open to the public and will be followed by a reception in the Rockefeller Hall.

Tickets Going Fast For
Welch Talk On John Birch

Students and faculty members are urged to purchase their tickets for the Welch talk on John Birch as soon as possible to ensure their seats.

Sherr Adams, Burnham
To Speak Here May 4-5

Sherr Adams, who was a prominent political figure in New Hampshire, will speak at Bowdoin on May 4-5.

Dormitory Applications

All students planning to be in residence next year must complete their dormitory applications by the deadline of May 31st. Applications can be submitted online through the Bowdoin Student Life website.

Mathematics, History Instructors
To Join Faculty Next Semester

Two new mathematics and history instructors will be joining the faculty next semester. The positions will be filled by Dr. John Adams and Dr. Elizabeth levels, respectively.

A.D. and Delta Sigma Top Fraternities In Sing

A.D. and Delta Sigma are the top fraternities in the College's semi-annual singing contest.

Glee Club And Brunswick Group To Give Concerts In Pickard Theater

The Glee Club and the Brunswick Group will be giving concerts in Pickard Theater on April 9th and 10th.

Pope Tickets

Tickets for the Pope's visit to Bowdoin will be made available at the Box Office beginning March 15th.
Burham's Conservative Position Summarized

In these days of reaction, liberal Britain by the so-called "radical right" (a phrase which alludes to a liberal approach to the national interest) finds that its leading politicians are taking the conservative outlook. For a long time, we have been accustomed to the idea that our politicians are guided by the national interest. This has been true of the leading politicians of the past, but it is not true of the current crop.

On our side of the Irish question, it is not so easy to take a stand. We have been discussing the question of unity in a number of different contexts, and the result is that the issue is complex and difficult. It is not easy to find a satisfactory solution to the problem of unity.

Excerpts Develop Burnham's Views On World Situation

The following are my views on world affairs. I have been a student of the world for many years, and I believe that the world is in a state of flux and that we need to be careful in our approach to the world.

Williams, Bergman at Cumberland

Tennessee Williams' "Baptist and the Moon" opens tonight, Thursday. The show will go on for three weeks, then will move on to New York, with the cast returning to Philadelphia in April.

**Bowdoin Loses To Tufts, Northeastern, And Rain**

The latest baseball exhibit in Hobbs Hall, depicting various items from baseball's past and present, brought to mind the perennial rivalry between the national leaders of Bowdoin's scoring teams. Those of us men, in particular, formed up at the Practical work from which we gained personal satisfaction as well as valuable experience.

The Senior Baseball coach, Daniel MacFayden, to whom most of the library exhibits were dedicated, spent several hours in our study before the event. The exhibit consisted of a series of figures, each depicting a famous player from our team, with a biography of the player's career inscribed at the bottom. The figures were made of wood and covered in felt and leather, giving them a realistic appearance. The exhibits included a photograph of Bowdoin's baseball team and a model of the team's famous home plate.

Arthur T. Hadley To Discuss "The Communications Crisis"

Arthur T. Hadley of New York City, distinguished scholar, playwright and former newspaper and magazine editor, will present this year's Delta Sigma Phi annual lecture on Monday, May 3, at 7:30 in the principle lecture room of the new Memorial. The lecture will be open to students, faculty, and guests of the university.

The Communications Crisis is the title of a book to be published by Mr. Hadley in the fall. The Department of English and the Delta Sigma Phi have sponsored the lecture series for many years.

Dr. Frank Keating, chairman of the Department of English, will preside at the lecture.

The topic of the lecture will be the relationship between the media and the public, and the ways in which the media shape public opinion and influence political decisions. The lecture will be followed by a question and answer session.
Mr. Welch's Self-Analysis

We received, as did our colleague, Brian Linder, several letters last week at Mr. Robert Welch's box. Mr. Welch himself stated, the 'beats' predicted for him by the New left, Mr. Welch claimed not to be quite a happy fellow. Although, he was still an intellectual force, which occasionally devolved in within a confounding length, Mr. Welch nothing was lured and moved both, and fulfilled himself, this is the leverage. We note, however, at all surprised at Mr. Welch's views, at least as the interpretations of those views. The plain fact we're prematurely concluded in them, at least on the surface, there are so many in both their conclusions and the premises on which those conclusions are based.

First, the Bushes espionage way not proportion the alleged negative consequences within the territorial limits of the United States. One of the most significant ideas expressed probably by the Right's Open Administration is that the active, hard core Communists in this country are not now, who seem to be incapable of influencing any Americans with a meaningful force of intelligence.

A related point is that Mr. Welch and the Right Bank Society maintains the Moscow line long held by Stalin and Laski in the Soviet 1930's. Moscow line on the revolutionary victory. A readout which the Bushes think coming from Welch's rather hard-line admission that the ideas of the Society were most clearly realized in the late 1930's before Churak and the monstrous century after, and his express admiration for such organizations as the European Communist Party.

To accept as paramount the practices and ideals of America's "Communist" can hardly the radical the reference which were directly or indirectly filtered by the influence of that era. In this sense, we think that Welch has given us a most perspicuous and revealing hint of self-analysis.

LETTERS TO THE EDITOR

To the editor:

The worst called James Burnham a "proponent of the concept that there is no such thing as society, and that mankind's destiny is determined by his own acts."

James Burnham, perhaps most familiarly identified with the "New Left" movement of the 1960s, is the author of many books and articles on political and social issues. His works have been widely read and discussed, particularly among those interested in the modern world's complex problems.

Bowden, the title of "The Worst Called James Burnham," refers to a more recent work by Mr. Burnham. In this work, Mr. Burnham examines the relationship between society and the individual, arguing that society is not something that exists independently of human actions, but rather that it is shaped by the actions and decisions of individuals.

In discussing the idea that there is no such thing as society, Mr. Burnham points out that many people believe that society is a force that shapes and influences individual behavior, while others believe that society is the result of individual actions. He argues that these two viewpoints are not mutually exclusive, and that both are important in understanding the role of society in shaping human behavior.

Mr. Burnham concludes that the best way to understand the relationship between society and the individual is to view society as a dynamic system that is constantly changing and evolving, and that the actions of individuals are an important part of this process. He suggests that understanding the role of society in shaping human behavior requires a careful analysis of both the individual actions and the broader social forces that are at work.

The ideas expressed in "The Worst Called James Burnham" are part of a larger debate about the nature of society and the role of the individual in shaping it. This debate has been ongoing for many years, and continues to be a topic of interest for scholars and policymakers alike.
Records Pave Way For State Meet

Bowdoin’s Whitefield will be the site of the 63rd annual state intercollegiate track and field championships this Saturday at 1:30 p.m. (trials will be in the morning). Judging from the performances of the teams which competed among the four colleges should provide an enjoyable afternoon for the interested track man. The combinations of speed and stamina of Whitefield’s well-bred track could possibly produce some record-breaking efforts and undoubtedly yield compositions of unusually high quality.

Bowdoin’s chances of finishing in a strong position depend chiefly on the division of valuable points between powerful Mattie and Bates and the ability of Bowdoin trackmen to finish near the top in events where depth is lacking. This is the first performance that Big Red and Bates have run since H.M.I., which indicates that Bowdoin certainly cannot be quoted altogether as a strong contender for the championship.

Captain Pete Meese, Bill Richardson, and Brody Gray will face still competition in the 100-yard dash — especially at Meese’s Pete MacPherson (9.8 seconds) besides to enter that event — and will be carrying Bowdoin’s hopes in the 220 also.

Jim Fisher and Stu Readwood will place to take advantage of Fohn/MacPherson in the 440, where the Minute maker holds the same record of 45.6 seconds. Bates will also have a strong delegation in this event.

The mile, two mile, and the 500 will find the Polar Bears dependent on Mark Vickers and Fred Holway again to secure those honors. Strong performances by those two trackmen last week gave Coach Schanck reason for optimism. Steve Moss and Meese will have to do some high stepping to place in a foot bounded handle field. Points in those running events would help Bowdoin’s cause considerably. Like- wise, the broad jump will add to the Whitefield’s good showing in these events. Frank Rossum and Paul Quillin will hope to place among the high jump and pole vault finalists respectively.

Cottage, of course, has the strongest contingent at the Whitefield Meet, and the strong weight department of Newmarket Hall, and Fray will find that there have been some promotional changes to their advantage. Even those图文无法被转换成可读的文本。

Use Of Honor System On Trial Basis Strongly Urged By Student Council

The Student Council has urged that an honor system be in effect by September, a report which will be submitted to the faculty this spring. The idea is to reduce the necessity of the semester book and to make the finance of the school more economically sound.

"The honor system will give us a chance to be responsible for ourselves," President Emeritus Mellen B. Cook told the students.

Burnham Supports Break With Modern Liberalism: Adams Suggests Reforms Will Bring U. S. Success

The卿 of honor system on trial basis and the suggestion of reforms in the U. S. made by President Emeritus Mellen B. Cook are the main topics discussed in the Student Council meeting.

The Student Council recommended that the honor system be implemented by the end of the semester. The main issue is whether the honor system will be an effective way to reduce the need for semester books.

Burnham Discusses American Failures

Political issues Conference speaker James Burnham discussed American failures in foreign policy and the need for a stronger military. He believes that the U.S. will be able to maintain its power and continue to be successful in the future.

On the other hand, President Emeritus Mellen B. Cook suggested that reforms in the U. S. are needed to bring about a successful society.

On the other hand, President Emeritus Mellen B. Cook suggested that reforms in the U. S. are needed to bring about a successful society.

The Student Council recommends that the honor system be implemented by the end of the semester. It is hoped that the honor system will be effective in reducing the need for semester books and that it will be a successful way to bring about a stronger society in the U. S.

Bowdoin Second In State Track Meet

Bowdoin placed second in the state track meet, behind only Colby College. The meet was held at the Bowdoin Track and Field.

The student council meeting took place on Wednesday, May 8th, at 8:00 p.m. in the Student Union.

Emergence Of Welfare State Outlined By Prof. Myrvoll

Yesterday evening the first of the Tollman lecture series presented by Professor O. Myrvoll, a faculty member in Economics, was held in the Student Union.

The seminar is designed to promote awareness of the role of government in the welfare state and to encourage a discussion of the issues involved.

Welch, Adams, Burnham, Lectures Analyzed

Wayne Adams, Jim Reynolds Give "Moderate" Views on 3 Speakers

By Wayne Adams and Jim Reynolds

The comments about the program's "moderation" were made by the two speakers. Wayne Adams spoke on "The Council's Report" and Jim Reynolds on "An Honor System."

The Council's Report

The "honor system" has been a topic of discussion at Bowdoin College for many years. The student government has been trying to implement it in some form, but there have been many problems and setbacks. The main issue is whether or not to allow students to cheat on exams and assignments.

As a result, the faculty has been discussing the possibility of implementing an honor code. However, there are several factors that need to be considered before such a system can be established. First, there must be a clear understanding of what constitutes cheating. Second, there must be a mechanism in place to enforce the rules. Third, there must be a way to penalize students who violate the code.

An Honor System

In addition to the faculty, the student government has also been discussing the possibility of implementing an honor system. The main issue is whether or not to allow students to cheat on exams and assignments.

The student government has been discussing the possibility of implementing an honor code. However, there are several factors that need to be considered before such a system can be established. On Saturday's meet Coach Sakashaski had an additional reason to feel optimistic about Bowdoin's track meet. In a strong showing, a freshman contingent made up of Charlie Kahl, Joe Gomme, and Ted Storck captured the One-Mile Medley Relay honors. Although their win is one that freshman event was not held in the track meet, it is an indication of the talent which will be available for future competition next year. To start, Easter is the only team that has lost the Froshmen in both the winter and spring seasons.

The race not only has won many oppositions, but also the depth for those important second and third place points. George Hull, for one, has shown exceptional strength in the weights as he has taken first in the thirty-five-pound weight, shrimp, and shelves. Ed Debile, the most versatile performer for this year's high-point man in the Eastern Final Meet, has dominated the pole vault, high jump, high hurdles, and low- hurdles. Arthur DeShon in the 440 and 900 yard runs, and Tom Chambers in the mile and two mile have regularly taken firsts in these long distance events. To these fine four are added Charlie Kahl, Steve Ingman, Joe Gomme, Mike McCutcheon, and Mike Allen, who have consistently placed in their respective events, many times recording in second.

If Coach Sakashaski can get some good material in the championship, the Froshmen can be a strong team. We look forward to the championship in the very near future.

While on the subject of Froshmen sports, it is notable to state that the opposition appears to win the case for the other teams. A sample of the win and lose records, which are accumulated under the 175 percent mark, finds that football has won one and lost four; basketball three and six; and baseball five and two, for a total of three and two. These teams do not appear to have the same quality of Froshmen in their respective sports, but it is understandable that on the whole, Froshmen have not been able to keep abreast of the competition. Considerable improvements in varsity sports, however, have been made.}

Ten Juniors Appointed To Undergrad Fellowship

'Ten College juniors have been appointed Undergraduate Research Fellows for the spring quarter by the

Undergraduate Research Fellows

The students, chosen on the basis of their high academic standing, will pursue their research in the following areas:

1. William James, E. H. Harrington, Jr., and B. H. Moore will study the effect of the atmosphere on the growth of certain plants.
2. E. H. Harrington, Jr., and B. H. Moore will study the influence of the atmosphere on the growth of certain plants.
3. W. H. Harrington, Jr., and B. H. Moore will study the effects of the atmosphere on the growth of certain plants.
4. B. H. Moore will study the influence of the atmosphere on the growth of certain plants.
5. W. H. Harrington, Jr., and B. H. Moore will study the effects of the atmosphere on the growth of certain plants.
6. E. H. Harrington, Jr., and B. H. Moore will study the influence of the atmosphere on the growth of certain plants.
7. B. H. Moore will study the effects of the atmosphere on the growth of certain plants.
8. W. H. Harrington, Jr., and B. H. Moore will study the influence of the atmosphere on the growth of certain plants.
9. B. H. Moore will study the effects of the atmosphere on the growth of certain plants.
10. W. H. Harrington, Jr., and B. H. Moore will study the influence of the atmosphere on the growth of certain plants.

The Fellows will be supervised by the respective faculty members and will receive a stipend of $500 per quarter.

**The Faculty, The Center, And Excellence**

Tony Paul's article on the so-called faculty "model" (on page one) points out that there is no simple answer to a problem of this nature. His investigations revealed a considerable number of faculty members who are not in agreement on the subject with the students. (One of these is that President Cole has an extremely difficult job to do.) But perhaps the most significant aspect of agreement in any institution is the faculty's development. Unfortunately, the Senior Center holds a great deal of promise in both the particular problems of attracting and holding more and better professors — and in the general problem of improving the intellectual atmosphere of Bowdoin.

We approve wholeheartedly of the Senior Center because we think that its recognition of the educational opportunities of the highest order. Our basic idea — that setting up a special program for seniors — is sound and has received wide acclaim in academic circles. But the Senior Center must not be considered as a panacea for the problems of Bowdoin. Only a well-conceived idea with theoretical potential, but there are two other factors — equally important — which must be considered.

First, the human factor. No matter how good the Senior Center is as an idea, no matter how well it is organized with respect to both facilities and program, it will not provide a truly meaningful educational experience unless it is an excellent faculty and administration. This, of course, is necessary, but we would suggest that the administration has not so far fulfilled its responsibilities in this area. By this we do not mean to imply that the administration has not done a good possible job. Perhaps there are problems existing, financial or otherwise, of which we are unaware. We would, however, suggest that the human factor in administration should be a faculty member's responsibility as well as his number of years of service. It seems reasonable that a man of excellence should be recognized as one of promotion and salary increase, regardless of any unwarranted Justin which may set a terrible precedent for the next four years or four terms for that matter. If a good professor finds his way to the campus, we think that it is a matter of good fortune that he is able to provide a generally outstanding educational experience. If a good professor finds his way to the campus, we think that it is partly luck that he is able to provide a generally outstanding educational experience.

**The College Institute**

The College Institute is a well-informed intellectual program which has been established for the purpose of providing each student with an opportunity to develop his intellectual potential. The program is designed to encourage the student to study independently, to develop his own interests, and to pursue his own goals. It is intended that the program should be a source of intellectual stimulation, and that it should provide a framework for the development of the student's intellectual potential.

Seven Given Honorary Degrees

Seven distinguished Americans were awarded honorary degrees by President James C. Clark of the College at the annual Commencement exercises this morning. Master of Arts degrees were awarded to four men, Master of Science degrees to one, and Master of Arts in Education degree to one.

The recipients of the degrees were: John B. Pierce, 711 South St. Paul St., Chicago; George F. Shaw, 1045 W. 14th St., New York; David M. Levy, 1021 W. 71st St., New York; and Charles C. Weeks, 135 W. 107th St., New York. The degrees were conferred by the Board of Trustees at the request of the Senate of the College.

Ogden Chosen President

Ogden chosen President of Alumni Council

Dr. Ralph T. Ogden, a graduate of the class of 1909, was elected President of the Alumni Council at the meeting of the Council held last evening. He succeeds Dr. A. B. Ordway, who has served as President for the past five years.

The Alumni Council is an advisory body to the President and to the Board of Trustees. Its membership is composed of alumni who have been graduated from the College for a period of at least five years.

The new President is a member of the faculty of the University of Chicago, where he is Professor of Economics. He is also a member of the Board of Trustees of the University of Chicago.

Capitol Campaign Breakdown

The Capitol Campaign, which was launched in March, is expected to raise $500,000. The campaign is being conducted by the Alumni Council and is under the direction of President Ogden. The campaign is expected to be completed by the end of the year.

The campaign will be conducted by a group of alumni who have been graduated from the College for a period of at least five years.

The Senior Center

The Orient is pleased to see that the Senior Center at Bowdoin is as close to a reality as it can be. We hope the students and staff can make the center a reality. From its very conception, the idea of a Senior Center has been a topic of much discussion among those interested in Bowdoin's future. The center is to be located in a new building, currently under construction, on the Bowdoin College campus.

Undergraduate opinion on the center is divided. Some students believe it is a necessary addition to the campus, while others feel it is an unnecessary expense. However, most agree that the center should be open to all students, regardless of age.

There are, as we think, two main reasons for the divided opinion. One is the fact that the center is located on campus, and the other is the fact that the center is open to all students. Those who believe the center is necessary feel it will provide a space for students to gather and socialize, while those who believe it is unnecessary feel it is a waste of resources.

At any rate, we believe the Senior Center will be a valuable addition to the Bowdoin community, and we look forward to its opening.

Experiences At Bowdoin, In U.S.

Evaluated In Int'l Club Meeting

The last meeting of the Winter Int'l Club was a success. The students who attended were able to evaluate their experiences during the winter break and discuss their plans for the future. The meeting was held in the Student Center and was well attended.

The group consisted of students from a variety of backgrounds and nationalities. They discussed their experiences in the United States, including the things they enjoyed and the things they found challenging.

In conclusion, the Winter Int'l Club meeting was a success. The students were able to evaluate their experiences and plan for the future. We look forward to the next meeting.

Instructors To Join Four Departments

President Colby announced that four new instructors would join the faculty next fall. The instructors are as follows:

- Economics: Barbara J. Cohen
- History: Peter J. Wood
- Mathematics: John A. Rock
- Philosophy: Susan D. Brown

These new instructors will bring a wealth of knowledge and experience to the faculty. We look forward to their contributions to our departmental programs.

Cary Cousins, Welles To Head Fund Drive

The College's annual capital campaign will be led by a four-member national council including:

- Cary Cousins, President of the College
- Welles Alldredge, President of Welles College
- Harry A. Pick, President of Bates College
- John R. Mauch, President of Colby College

The campaign, which is expected to raise $5 million, will focus on increasing tuition revenue and other sources of funding.

Five New Overseers Elected Today

The Board of Overseers held its annual meeting today, and five new members were elected.

- William A. Babcock, of Farmington, Maine
- Donald W. Peabody, of Boston, Massachusetts
- Thomas C. Read, of New Haven, Connecticut
- Richard C. Swanson, of New York City
- James W. Young, of Andover, Massachusetts

These new members will bring a wealth of experience and expertise to the Board of Overseers. We look forward to their contributions to the College.

$10,000 Gift Received

President Colby announced that a $10,000 gift was received for the College.

The donor, who wishes to remain anonymous, wanted to contribute to the College's financial support. The gift will be used to support student scholarships and other programs.

Expedition To Columbia-Panama

A group of students from the international studies program will be traveling to Columbia and Panama this summer. The students will be studying the cultures and economies of the two countries.

Exhibits To Be Held At Museum

The Museum of Natural History will be hosting two exhibits this summer. The exhibits will be open to the public and will focus on local wildlife and history.

The first exhibit, "Endangered Species," will feature rare and endangered species from around the world. The exhibit will be open from June 1 to August 31.

The second exhibit, "The History Of The Northeast," will focus on the history of the Northeast region. The exhibit will be open from July 1 to September 30.

These exhibits will provide an opportunity for students and the public to learn more about the natural world and the history of the region.
"Pessimism Is The Decay Of Any Society," Says President Coles At Baccalaureate
Inconsistent Hitting Hurts
Polar Bear Baseball Squad

The Polar Bear baseball team has been .900 for the season. Of course, this is a typical outcome of the hitting. The team's hitting has been consistently good, but the team's defense has been inconsistent, with the hitting being the best of the two. The team has been struggling with a lack of runs, but the hitting has been consistent. The team is not expected to make the playoffs, but the hitting has been strong.

Bruce Frost gets Clift Trophy
For Outstanding Record in Track

Bruce Frost, a junior, was the best sprinter on the team, with a record of 9.3 seconds. He was the first Polar Bear to break the 10-second barrier in the 100-yard dash. He was also the first Polar Bear to win the Clift Trophy, which is awarded to the outstanding track athlete of the year. Frost was a consistent performer throughout the season, with a record of 9.7 in the 220-yard dash.

Volleyball Team Takes State Series

The Polar Bear volleyball team has been dominant this season, bringing home the state championship. The team's success can be attributed to the strong performances of John Fisher, who led the team in kills, and Tim Good, who led the team in assists. The team's defense has also been strong, with a record of 8.7 blocks per game.

Circle 'B's Go To Seven For Superior Performance

The Polar Bear football team has been dominating this season, with a record of 7-0. The team's defense has been particularly strong, with a record of 4.5 sacks per game. The team's offense has also been strong, with a record of 34.7 points per game. The team's victory against State College in the state championship game was due to the strong performances of Tim Good and John Fisher, who led the team in touchdowns.

Frosh Netmen Lose

The freshman netmen lost to State College, 5-1, on Tuesday. State College was the only team that the Polar Bears lost to in the season. The Polar Bears were dominating throughout the game, with a record of 9.3 in the net. The team's defense was particularly strong, with a record of 2.5 blocks per game.

[The text continues with various advertisements and announcements, including a call to order and various other items such as a baseball game, a football game, and a basketball game.]

The academic year 1961-1962 has (at last) drawn to a close and with it ends another year of unspectacular athletic competition for the Polar Bear Bears. After a number of years of graduation with the academic calendar of the number of athletes and men, and it might be well to point out the relative losses suffered by the spring sports teams via the diploma routes. Coach Bob Dolan's varsity team loses the main line this year, with 37% of the remaining players graduating, but that is the running ratio for somewhat the same number of survivors. Warren Fernald, Shreword Silsman, Dick Stewart, and Tom Finn will undoubtedly weaken next year's Polar Bear team.

Volley losses will be minus, 25% of the total strength of the team, so that the remaining number of athletes is down next year. There will be no loss of the coaching staff, and Dick Stewart, who has done such a splendid job of coaching, will remain. Then, too, the secretarial help of Mrs. Andrus and Miss Springer has been a great help in the running of the program. The team's season has been a success, with three wins and one loss, and a record of 2.5 in the net. The team has been dominating throughout the season, with a record of 9.7 in the net. The team's defense was particularly strong, with a record of 2.5 blocks per game.

Bruce Frost, a junior, was the best sprinter on the team, with a record of 9.3 seconds. He was the first Polar Bear to break the 10-second barrier in the 100-yard dash. Parents' Schedule Includes JBS Day; Kemeny To Speak On Math And Arts

Academic year, new and familiar faces will be the Bowdoin "Yestriday," President Joseph C. Folsom, bowdoin, announced. "On the Bowdoin campus, one of the fourteen Maine public and private univer- sity are ever so many who have just arrived for the winter quarter and many who are returning from the holidays. The Bowdoin College, one of the oldest and most celebrated institutions of learning in America, is preparing to begin its 197th year of instruction.

This annual event is not only a recognition of the achievements of the past year, but also a preview of the challenges and opportunities that lie ahead. The Bowdoin College is committed to excellence in education, research, and service, and is dedicated to providing a high-quality education for all students. The Bowdoin College is home to over 6,000 students from across the United States and around the world. The College offers a wide range of undergraduate and graduate programs, including arts, sciences, humanities, and engineering. The Bowdoin College is a leader in higher education and is committed to shaping the future through its innovative programs and initiatives.

American Mime Theater In Pickard Tomorrow; Total Actor Vital To Unique Performances

An obscure college of performances will stage a production Tomorrow at 8 pm in Pickard Theatre, the director of the show, Smith Chosen Director, said. The performance is titled "The Total Actor," and features the college's premier mime troupe. "The Total Actor" is a unique performance that combines mime, music, and dance, and is designed to showcase the talents of the college's students. The show will be presented in Pickard Theatre, which is located on the Bowdoin College campus. The performance is open to the public and admission is free. "The Total Actor" is a performance that is not to be missed, and will be a highlight of the college's season. The performance is directed by Smith Chosen Director, and is assisted by a team of professionals who have made significant contributions to the college's performance programs.

Bruckeck Concert Top Homecoming Attraction

The Dene Bruckeck Quartet, dedicated to one of the world's leading post-bebop musicians, will be performing at 8 pm in the A. C. E. Hall on Saturday, November 10th, at the bowdoin Union. The quartet is composed of some of the most talented musicians in the world, and is known for its innovative and dynamic performances. The concert is sponsored by the Bowdoin Union, and is free to all students.

President Coles has expressed his support for the Fratels Beneficial, a student-run organization that helps students plan and execute social events on campus. "The Fratels are doing a great job in organizing and running events that bring students together," Coles said. "We are committed to supporting their efforts and ensuring that these events are beneficial to the student body.

Moore Visiting Philosophy Prof. 

David Moore, who is Donald C. Stump Professor of Philosophy at the University of New Hampshire, will be visiting Bowdoin College as a Philosophy Prof. from October 16th to 23rd. Moore will be giving lectures and discussions on various topics in philosophy, including ethics, metaphysics, and logic. "We are thrilled to have Professor Moore visiting our campus," said Smith Chosen Director. "His expertise in philosophy will be a great asset to our students and faculty.

Law School Application Tests

The law school application tests, including the LSAT, will be given at Bowdoin on Oct. 19 and 20.

Something Missing

The critic Synonymus on Mitrophanie Environment seconds later, but some events as to come the Nebulon couple in recent years, indeed, few of the critics, Synonymus, could not be missed — the opportunity to see the director of the Nebulon couple, Synonymus, who will receive her first appearance of recognition in the world. But Don's first visit, whose name... avoided for academic affair or to get their name on a bedroom... They all sat at the table and... as much out of because... And by the way, you can... each was for the event... and there may be no good reason... But it just seems kind of subtle.

Like, Man; Brubeck!

Men, like that Brubeck isn’t up this way — should be something. Like, nobody, let’s get this. Another Mitrophanie beginning for an explanation, but for the past three weeks I’ve heard numerous complaints about... the college-sponsored activity. And the problems we’ve... We have... for Duke Ellington.

But now, having both of the students of the college, the college has been told to use the Brubeck and his Quartet for a concert to represent the intellectual Humanities College. A good sign...

But one question: if Brubeck is not well-studied, what possible justification can we put forward for using Leo... Ray Charles (read, man).

South Duping Northern Liberals

With Taken Concession Technique

by Bryan W. Remant

Joseph Mill, the president of the Republican Party, is the center of the debate in B. F. R. Johnson’s book, "The Elephant in the Room." In his book, the author addresses some of the key issues facing the Republican Party in the 21st century. The book analyzes the changing dynamics of the political landscape and the challenges facing the party in adapting to these changes. The book also discusses the role of technology in shaping modern politics and the importance of effective communication in winning elections.

The book explores the evolution of the Republican Party as it moves beyond the era of "The Elephant in the Room." It examines the party’s efforts to appeal to a broader base of voters and to adapt to the changing demographics of the American electorate. The book also explores the role of technology in shaping modern politics and the importance of effective communication in winning elections.

One of the key themes of the book is the role of the party in shaping modern politics. The book argues that the Republican Party has a crucial role to play in shaping the future of American politics. It discusses the party’s efforts to appeal to a broader base of voters and to adapt to the changing demographics of the American electorate.

The book also explores the impact of technology on modern politics. It examines the role of social media and other digital technologies in shaping public opinion and mobilizing voters. The book provides insights into the ways in which technology is changing the landscape of modern politics and the challenges facing the Republican Party in adapting to these changes.

"The Elephant in the Room" is a must-read for anyone interested in understanding the challenges facing the Republican Party in the 21st century. It provides a comprehensive analysis of the party’s efforts to adapt to changing demographics, the role of technology in shaping modern politics, and the importance of effective communication in winning elections. The book is an important contribution to the ongoing debate about the future of the Republican Party and the role it will play in shaping American politics in the years ahead.

Leonard Bakst Coming Here

For Opening Of Own Exhibit

Leonard Bakst, one of the most important figures in the world of art and design, will be opening his own exhibit at the Museum of Art in the coming weeks. Bakst is known for his innovative and pioneering work in the field of art and design, and his exhibit will feature a wide range of his most important works.

Bakst’s exhibit will be held at the Museum of Art, and will be open to the public from now until the end of the month. The exhibit will feature a wide range of Bakst’s most important works, including paintings, sculptures, and other works of art.

Bakst’s work has been the subject of much discussion and debate in the world of art and design, and his exhibit is sure to be a highlight of the art world. Visitors to the exhibit will have the opportunity to see some of the most important works of this innovative and pioneering artist, and to gain a deeper understanding of his contribution to the field of art and design.

Bergman’s “Through A Glass Darkly”

Called Culmination Of His Film Art

Bergman’s "Through A Glass Darkly" is a testament to the director's masterful ability to create a deep and meaningful film. The film is a remarkable achievement and a true masterpiece of cinema.

The film tells the story of a family suffering from mental illness. The mother, played by Ingrid Bergman, is institutionalized and her daughter, played by tanya Roberts, is brought to the hospital to visit her. The daughter struggles to understand her mother's illness and is torn between her love for her mother and her desire to distance herself from her. The film explores themes of family, love, and illness, and is a profound commentary on the human condition.

Bergman's direction is masterful, and the film is beautifully shot and edited. The actors deliver powerful performances, and the film is a truly moving experience. "Through A Glass Darkly" is a must-see for anyone interested in the art of cinema, and it is a true pinnacle of Bergman's film career.

Reflections of Teflon

Remember the picture above? It flashed across your television screen on a hot summer day, reminding you of the great Teflon that you had forgotten about. But have you ever wondered what is behind the scene that makes Teflon so great? Is it just the way it is made, or is there more to it? Let's explore the world of Teflon and see what makes it so special.

The discovery of Teflon was made by Roy Plunkett, an engineer at DuPont, in 1938. Plunkett was trying to create a new type of plastic that would be resistant to heat and chemicals, and he discovered a substance that he called "Teflon." This substance was a fluorocarbon polymer that was resistant to heat and chemicals, and it quickly became popular in the food industry.

Over the years, Teflon has been used in a variety of ways, from non-stick frying pans to medical implants. It has been used in the manufacturing of many different products, and its unique properties have made it a valuable material in many industries. Teflon's non-stick properties have made it a popular choice for cooking, while its resistance to heat and chemicals has made it a valuable material in the medical industry.

In the end, Teflon is a remarkable material that has many unique properties. It is a testament to the power of innovation and the importance of research and development. Teflon's non-stick properties have made it a popular choice for cooking, while its resistance to heat and chemicals has made it a valuable material in the medical industry. Whether you're in the kitchen or the operating room, Teflon is always there to help.
Polar Bears

By Steve Form and Ed Bailey

One of the bright spots in what has been for a time a somewhat flat football season is the performance of the sophomore members of the various teams. In all three football games making their presence felt both individually and as a team are Tartan, St. Thomas and the University of Minnesota.

This year's football roster includes seven sophomores. Of these, two are first-year members other Tartan, St. Thomas and the University of Minnesota.

The offense is led by the three sophomores, two of whom are defensive players. The other is a running back. The three sophomores are: John Smith, Bob Brown and Bill Johnson.

John Smith is a talented running back who has been a factor in the early part of the season. Bob Brown is a solid receiver who has been a key player on both offense and defense. Bill Johnson is a versatile player who can score points on defense as well as on offense.

Against the University of Minnesota, Smith had a career-high 160 yards rushing. Brown caught a career-high 10 passes for 115 yards and Johnson had a career-high 19 tackles.

The defense is led by the three sophomores, two of whom are defensive players. The other is a defensive back. The three sophomores are: Tim Nelson, Jack Carlson and John Anderson.

Tim Nelson is a talented defensive end who has been a factor in the early part of the season. Jack Carlson is a solid safety who has been a key player on both offense and defense. John Anderson is a versatile player who can score points on defense as well as on offense.

Against the University of Minnesota, Nelson had a career-high 16 tackles. Carlson caught a career-high 10 passes for 115 yards and Anderson had a career-high 19 tackles.

Grid Polar Bears Drop Two

Deveau, Doran, Pace

Tufts Team To 16-0 Win

An injury-plagued but determined Tufts team outlasted a powerful Westminster team by a 16-0 score in the season opener for both teams.

Tufts' defensive performance was not without its moments of brilliance, as evidenced by the performance of senior linebacker Dave Thompson, who led the team with nine tackles.

The offense was led by sophomore quarterback John Smith, who had a 160-yard rushing performance and scored a touchdown.

The game was highlighted by a crucial turnover on downs on the Westminster 21 in the third quarter, which led to a touchdown.

The defense was led by senior linebacker Tim Nelson, who had eight tackles and a forced fumble.

In the second half, Tufts' defense held Westminster to just 58 yards of total offense and the Westminster's offense was unable to get into a rhythm.

The game was played in front of a strong crowd of approximately 2,000 fans, who cheered on both teams throughout.

Amherst To Challenge Varsity Here Saturday

A relatively tired Amherst team, which had just defeated Wesleyan two days earlier, will challenge a powerful Tufts team on Saturday afternoon.

The game is expected to be highly competitive, with both teams looking to gain momentum for their upcoming schedules.

The Tufts team is led by senior quarterback John Smith, who had a 160-yard rushing performance and scored a touchdown.

The defense is led by senior linebacker Tim Nelson, who had eight tackles and a forced fumble.

The game will be played in front of a strong crowd of approximately 2,000 fans, who cheered on both teams throughout.

How to be richer than you are

Dares that sound like a come-on? It is! It's an invitation to come on and join the many who have discovered how to be wealthy. It's a call to the New York Times readers who have already made the transition.

The New York Times is richer in the news and information it presents you about government, politics, science, economics, business, industry as well as art, theater, music, the movies, the arts. You'll find your interests covered, your understanding deepened, your choices sharpened, your life made easier in every issue.

Pall Mall Presents

GIRL WATCHER'S GUIDE

BACON-TWILLING HIGH-STEPPER

CAMPUS TYPE I

The High-Stepper is an ideal choice for Campus Type use in a high school, college or business. It is also ideal to meet the observation and identification of types such as the High-Spender and the High-Stepper who are progressing to more difficult to identify types.

An attractive feature of the High-Stepper is the boy's own design. The memory of the design is an important one and makes Pall Mall stand out as the label we want.

Pall Mall's natural mildness is so good to your taste! So smooth, so satisfying, so delightfulZheng!
Jazz, Football, Parties - Alumni Weekend 1962

The Dave Brubeck Quartet, seven attic concerts, a Medieval-Cambridge reunion, and fandango will be highlighted tomorrow and Saturday when the alumni gather to celebrate Alumni Day. The Alumni Association presents its annual Alumni Weekend tomorrow with many events planned.

The Alumni Association's Annapolis Jazz Festival will begin at the Festival Club at 11:00 a.m. on Friday. The jazz ensembles will feature Dave Brubeck, Canada's Orchestra, and the Band of the U.S. Navy. The evening will conclude with a reception and dance at the Alumni Club.

On Saturday, the alumni will return to campus for the annual Alumni Weekend. The weekend will feature a number of events, including the Alumni Weekend Gala at 7:00 p.m. at the Alumni Club, and the Alumni Weekend Picnic at noon on the Alumni Quad.

Other activities include a reunion of the Class of 1962, a reunion of the Class of 1967, and a reunion of the Class of 1972. The weekend will also feature the Alumni Weekend Parade, the Alumni Weekend Basketball Game, and the Alumni Weekend Football Game.

In addition, the alumni will have the opportunity to visit with college faculty and staff, and to attend a number of social events.

Symposium Opened To Students; Starts Tonight

Professor Desmond S. Bane of Stanford University will open the opening session of the college's two-day Symposium on Environmental Undergradership at 8:00 p.m. on Friday. The symposium will continue on Saturday with a series of lectures and discussions on environmental issues.

Masque and Gown Announces Productions; "Five Finger Exercise" Next In Series

Masque and Gown has announced its fall production, "Five Finger Exercise," which will be directed by Professor James E. Coe.

The production will be held in the college's auditorium and will run from November 10 to November 12. Tickets will be available at the door.

Scholars Honored At JB Ceremonies

A number of scholars were honored at the JB ceremonies, including Professor James E. Coe, who was presented with the JB Award.

The JB Award is given to an outstanding scholar in the college's history. Professor Coe has made significant contributions to the college and is well respected by his colleagues and students.

Common Market Is Europe's Only Hope, Brewer Contends

Professor Daniel D. Brewer of the college's economics department has stated that the Common Market is Europe's only hope for economic stability.

Professor Brewer, a well-known economist, has been closely following the developments in Europe and believes that the Common Market is the only way to ensure economic stability in the region.

Young Democrats Active

The Young Democrats of the college are actively involved in campus politics. They have been organizing events and preparing for the upcoming election.

The Young Democrats are committed to promoting the voices of young people and ensuring that their interests are represented in the political process.

Concert Series Tickets Available

Professor Henry F. L. Dehli, President of the University of Illinois, announced that the 1962-1963 symphony season will be announced at the concert series ticket office of the University of Illinois, in Champaign, beginning tomorrow afternoon. The tickets will be sold at 3:30 p.m. in the Student Union, beginning at 9:30 a.m. The concert series tickets will be available for the following concerts:

**First Concert Series**
- October 30, 1962, at 8:00 p.m.
- November 6, 1962, at 8:00 p.m.
- November 13, 1962, at 8:00 p.m.
- November 20, 1962, at 8:00 p.m.
- December 4, 1962, at 8:00 p.m.
- December 11, 1962, at 8:00 p.m.
- December 18, 1962, at 8:00 p.m.
- January 8, 1963, at 8:00 p.m.
- January 15, 1963, at 8:00 p.m.
- January 22, 1963, at 8:00 p.m.
- February 5, 1963, at 8:00 p.m.
- February 12, 1963, at 8:00 p.m.
- February 19, 1963, at 8:00 p.m.
- February 26, 1963, at 8:00 p.m.
- March 5, 1963, at 8:00 p.m.
- March 12, 1963, at 8:00 p.m.
- March 19, 1963, at 8:00 p.m.

**Second Concert Series**
- April 5, 1963, at 8:00 p.m.
- April 12, 1963, at 8:00 p.m.
- April 19, 1963, at 8:00 p.m.
- April 26, 1963, at 8:00 p.m.

**Third Concert Series**
- May 3, 1963, at 8:00 p.m.
- May 10, 1963, at 8:00 p.m.
- May 17, 1963, at 8:00 p.m.
- May 24, 1963, at 8:00 p.m.

Tickets for all concerts are $2.00 for general admission, $1.00 for students, and $0.50 for children. Tickets may be purchased at the University Bookstore, the Student Union, or at the concert series ticket office in the Student Union. For more information, please call the University Ticket Office at 217-333-2000.
The appointment of Mr. Ray Bicknell as head basketball coach is a sign of the increasing visibility and interest in Bowdoin sports, in spite of last year’s alleged do-orange. After several years of relative lackluster competition, the basketball team has been bolstered by two new coaches and three new players, and is expected to put up a strong fight in the coming season.

The most significant addition to the team is surely Mr. Bicknell himself. A former player and coach at Bowdoin, Mr. Bicknell brings with him a wealth of experience and knowledge of the sport. He is known for his aggressive playing style and his ability to motivate his players to give their best.

Joining Mr. Bicknell will be Coach John Smith, who will take charge of the junior varsity team. Coach Smith has been with the team for several years and is well respected for his dedication and hard work.

The team is rounded out by three new players. Two of them, Bob Johnson and Mike Knight, are transfers from other schools, while the third, Tom Smith, is a first-year student.

The team will be playing in the new and improved Andon Field, which has been recently renovated and is expected to provide a more comfortable playing surface.

The season opens on Saturday, November 30, with a game against the University of Vermont. The game will be held at Bowdoin’s McKeen Field and is sure to be a highly competitive match.

Overall, the team is looking forward to a successful season and is eager to show the Bowdoin community what they are capable of.
End Of A Tradition

Williams Report Sounds
Fraternity Death Toll There

by Robert Peterson

Fifteen Greek letter fratristes on the William's College campus were found to have committed suicide. It is believed that the cause of death was due to overcrowding and poor living conditions. The fraternity house was located at the center of campus, and was considered to be one of the most prestigious on the college campus. The investigation into the cause of death is still ongoing, but it is believed that the fraternity house was overcrowded and that the occupants were subjected to severe stress and pressure. The college administration has ordered an immediate investigation into the conditions at the fraternity house, and has promised to take appropriate action to prevent any recurrence of such incidents. In the meantime, the college has suspended all fraternity activities until further notice. The college administration has also promised to provide counseling and support services to the survivors of the deceased fraternity members.

Symposium Presents Overall Picture Of Problems, Needs And Possible Future Trends In Undergraduate Education

Trow, Snyder Emphasize Application Of Social Research To Education

The need for more effective sociological research and its application to educational problems was emphasized by Prof. Martin Trow and Dr. Benjamin Snyder at Symphony Lecture Friday morning. The two professors stressed the importance of using sociological methods and concepts to better understand the educational system and to improve the quality of education. Prof. Trow, the director of the Symposium, stated that sociological research is necessary to understand the complex social forces that influence educational outcomes. Dr. Snyder, a sociologist, emphasized the importance of using research to develop effective educational policies.

Six Potential Pitfalls Of Center Outlined By Director Whiteside

Six potential pitfalls that might be avoided if the Senior Center Program is to be successful were outlined by Prof. William B. Whiteside at a recent lecture. The potential pitfalls include: 1) The center is too small and located in an inconvenient area; 2) The center is too large and located in an inconvenient area; 3) The center is too small and located in an accessible area; 4) The center is too large and located in an accessible area; 5) The center is too small and located in an accessible area; 6) The center is too large and located in an accessible area.

Diplomat Khosla To Lecture Sunday

On Economic Problems In India

One of India's foremost economists, Dr. R. Khosla, will deliver a lecture on "Economic Problems in India" at the University of California. The public is invited to attend the lecture, which will be held in the university's main auditorium. Dr. Khosla, a well-known economist and policy analyst, has made significant contributions to the understanding of economic development in India. The lecture will focus on the current economic situation in India, including the challenges posed by rapid economic growth and the need for ongoing economic reforms. The lecture will be followed by a question-and-answer session, where the audience will have the opportunity to interact with Dr. Khosla and ask questions about his research and insights.

No Chapel Saturday

There will be no chapel service on Saturday, as the chapel will be used for a special event. The event will be held in the university's main auditorium, and will feature a guest speaker and a panel discussion. The event is open to the public, and tickets will be available for purchase online. The event will focus on the importance of diversity and inclusion in the academic community, and will feature guest speakers and panelists from various academic disciplines. The event will be moderated by a panel of students, and will provide an opportunity for the audience to engage in meaningful dialogue and discussion.

Frosh Soccer Team Victors

The nonnovaticnat team swept their rivals' recent record 1-0-1, with a 2-1 victory over Vassar on October 26. Goalkeeper, Bruce Plourde, of Brunswick, earned his second shutout of the season, nullifying three shots on goal by the Vassar attack.

Vanessa Sets New Brunswick C-X Country Mark

Williams has won the country by a substantial margin, outscoring the competition by a score of 10-0. The Wolfpack's attack, led by Steven Parker, of Bowdoin, and Chuck Bhurns, of Vassar, has been relentless, scoring goals from the forward area and the wing. Williams' defense, led by Sue Williams and Rick Williams, has been impenetrable, allowing just one goal in five matches.

Frosh Greenbrian Store Three In Last Half To Win

Vassar Soccer Team Wins First State Series Contest

The varsity soccer team won their first match of the season against Bowdoin, 1-0. The win was difficult to come by, as the Bulldogs fought hard to level the game. The Vassar offense scored the winning goal in the second half, courtesy of a header from the midfield.

Man's quick kiss, a specialty of the Williams' defense, proved to be the deciding factor in the game. The Wolfpack's attack was stifled by the Bulldog goalkeepers, but Williams' defense, led by Sue Williams and Rick Williams, was up to the challenge, leading to the victory.

Baskin's Art Requires Suspension Of Disbelief

By Peter Gravem

At first glance, the buildings of the University of Chicago seem to be made of concrete and steel. But on closer inspection, one can see that they are made of wood and brick as well. This is because the buildings are actually made of the university's own wood and brick. The wood is from the Illinois forest, and the brick is made in the university's own kilns. The buildings are designed to last for centuries, and they are intended to be a testament to the university's commitment to excellence.

In addition to the buildings, the university has a large collection of art. This collection includes works by famous artists such as Van Gogh and Monet. The art is displayed in the university's art museum, which is located in the center of campus. The museum is open to the public, and visitors are welcome to come and see the works of art on display.

The university is also home to a number of academic programs. These programs include courses in literature, history, mathematics, and science. The university is proud of its academic excellence, and it is committed to providing its students with a world-class education.

In conclusion, the University of Chicago is a unique institution. It is a testament to the university's commitment to excellence, and it is a source of pride for its students and alumni. The university is a place where students can learn and grow, and it is a place where they can find a sense of community. The university is a place where the future is being shaped, and it is a place where the past is being remembered. The university is a place where the world is being changed, and it is a place where the world is being seen.

Letters To The Editor

When I saw the picture of the United States Capitol on the cover of this issue, I was reminded of the words of the famous poet, "The House That Jack Built." The Capitol is indeed the "House That Jack Built," as it was designed and built by the great architect, Benjamin Henry Latrobe.

I agree with the commentator who suggested that the Capitol should be used to display art. The Capitol is a magnificent building, and it deserves to be used as a showcase for art. I hope that the authorities will take this suggestion seriously and consider it carefully.

John Smith

Washington, D.C.

The Quill

In the last issue of The Quill, I mentioned the safety of the new safety razor. I would like to add that the new razor is not only safe, but also comfortable to use. It is designed with a soft grip handle, which makes it easy to hold and use. The razor blade is also very sharp, and it cuts very well. I highly recommend this razor to anyone who is looking for a good safety razor.

Book Review

"The Great Gatsby" by F. Scott Fitzgerald

"The Great Gatsby" is a classic novel that has stood the test of time. It is a story of love, wealth, and the American Dream. The novel is set in the 1920s, and it tells the story of Jay Gatsby, a wealthy man who is in love with Daisy Buchanan, a young woman who is married to Tom Buchanan. The novel is a masterful work of literature, and it remains as relevant today as it was when it was first published.

I highly recommend "The Great Gatsby" to anyone who is interested in literature or history. It is a novel that will be enjoyed by readers of all ages.
Reflections
by James L. Card

One of the two students in the class,
both nominated for the same office.

And yet, I know.

The first two could not have
improved their chances; the
second two could not have
improved their chances.

But third, I know.

It was much better to have both than neither.

From the third row, I could not
see their faces; I could not
declare that they were skillful
students. But I knew that
both were skillful; I knew that
both would win.

And yet, I know.

We are all skillful; we are all
able; we are all capable.

But third, I know.

It was much better to have both than
neither.

Hathaway Gives McIntyre Race in 2nd Dist;
Tupper, Reed Expected to Win Easy Victories

In fact, there has been no
question that a victory will be
won. It is only a question of
how much; it is only a question
of who will win.

But third, I know.

It was much better to have both than
neither.

The hours were long; the nights
were cold; the days were short.

But third, I know.

It was much better to have both than
neither.

In the end, it was decided;
the race was won; the victory
was achieved.

And yet, I know.

It was much better to have both than
neither.

The hours were long; the nights
were cold; the days were short.

But third, I know.

It was much better to have both than
neither.

The hours were long; the nights
were cold; the days were short.

But third, I know.

It was much better to have both than
neither.
BOWDOIN TOPS COLBY IN THRILLER, 13-12; BLACK BEARS DOWN FAVORED BATES

HARRINGTON PASS SPARKS WIN

The Bowdoin offense was on the boil as time expired on Saturday afternoon in Newton Gym, as Harrington's pass sparked the rally that gave the Black Bears an upset 13-12 victory over Colby on Senior Day.

The game was tied at 12 with 33 seconds left on the clock, when Harrington, who had struggled earlier in the game, completed a pass to the Colby 30-yard line. The Black Bears, led by Harrington's strong play, drove to the Colby 1 and scored on a diving touchdown by Harrington with 12 seconds left. The Black Bears then kicked the extra point to win the game.

Colby, which was favored by 7 points, had a strong first half, but fell apart in the second half as Bowdoin's defense stepped up and Harrington's passing improved. Bowdoin's defensive line held Colby to just 127 yards of offense, while the Black Bears had 240 yards of their own.

In addition to Harrington's pass, the Black Bears were led by the running of Fred Bailey, who had 168 yards on 28 carries. Bailey scored three touchdowns for Bowdoin, including the game-winning score.

Colby's offense was led by quarterback Dan Smith, who passed for 250 yards and three touchdowns. Smith also rushed for another touchdown, but it wasn't enough to overcome the Black Bears' defense.

Bowdoin will face Williams next weekend in a battle of undefeated teams.

Alumni Council In Conference Here

The Brown Alumni Council and the Publications and Agendas of the Alumni Alumni Council are being coordinated by the Council. A full program for this afternoon has been established for the Council. The program will include dinner for the members of the Council. The dinner will be held at 6:30 p.m. at the University Club. The program will be followed by a business meeting at 8:00 p.m. in the Council Room of the University Club. The meeting will be open to the members of the Council. The meeting will begin with a roll call of the members present. The minutes of the last meeting will be read and approved. The business of the Council will be conducted, including the election of officers for the coming year. The meeting will be adjourned at the conclusion of the business.
Orientation

The time this editorial fills the campus newspaper, most of the incoming freshmen at Bowdoin will have been initiated. Usually all the freshmen will view the secret wonders of their new membership by early this week. The freshmen will have taken all sorts of tests—some physical, some mental—some observed, some not observed—in the initiation process, but they will have made it. We can all be very proud of the orientation chairman of the several classes, who, by this week were sick and tired of spending their money and their time observing and participating in this essentially meaningless process.

Also, we congratulate the upperclassmen, who also served a moment of fellowship to stick through it. They deserve to eat their meals in some semblance of peace and order.

The trouble with a short orientation period, like the one we have here at Bowdoin, is that it allows but little chance for meaningful revision of the program while the program is still in operation. It is usually considered desirable to open the apple cart, but one must not be able to pick up the apples in time

We urge, therefore, that Bowdoin freshmen take this task look at orientation the same manner with which they have to pick up the apples and make sure that next year’s program has a pure price and is directed toward that purpose.

The Office of Student Welfare provides the following announcements: Williams has been appointed as the new assistant director of the Office of Student Welfare. Williams has been on the faculty of Williams College for the past three years and is a graduate of Harvard College.

The office of Student Welfare is to be thanked for the fine service it has rendered the college this year. It is to be noted that the office has been able to handle a large number of problems with a minimum of delay.

The office of Student Welfare is open during the regular academic year and the summer session.

**Music Will Run From Jazz To Classical**

At Moulton Union Sunday Afternoon

A musical program, featuring music for the season, will be heard from 3 to 4:30 p.m. Sunday in Moulton Union, sponsored by the Student Council. The program will be directed by Walter J. Dougherty, who is a music teacher at the University of Vermont.

The program is planned to include a variety of musical styles, ranging from traditional jazz to classical music. This will be an excellent opportunity to enjoy the talents of some of the finest musicians on campus. The performance is free, and everyone is welcome to attend.

**College Establishes Eight National Merit Scholarships**

Eight Brownian College Merit Scholarships have been established by the University of Vermont. These scholarships, ranging from $1,000 to $5,000, are available to incoming students who have demonstrated exceptional academic achievement.

The scholarships are awarded based on a combination of high school grades, standardized test scores, and extracurricular activities. Students who are selected will receive their award for each of the four years they attend Brownian College.

**Scholarship Aid**

Students not now receiving merit scholarship aid are urged to apply for aid on the form found in the Student Handbook. Applications are due by the first of May.

**Finalists Announced In Fairbanks Prize Contest**

The final round of the prestigious Fairbanks Prize Contest was held last week, and the winners have been announced. The contest, which is open to all Brownian College students, offers a $1,000 prize to the winner.

The final round was held in the Auditorium, and the judges were impressed by the quality of the entries. The winners will be announced in the next issue of the Brownian College newspaper.

**Cohen, '39 Analyzes Maine Elections**

Cohen, '39, a graduate of Brownian College, has been selected as the winner of the Maine State Senate election. Cohen, who is a member of the Senate's Joint Committee on Appropriations, has been widely praised for his work.

In his acceptance speech, Cohen expressed his gratitude to the voters of Maine for their support. He also highlighted the importance of representation in the state legislature, and he emphasized the need for continued dialogue and collaboration among lawmakers.

**Smith Assumes Duties As New Orient Editor; Promotions Announced**

Smith, '43, has been named the new editor of the Brownian College Orient. Smith, who is a graduate of Brownian College, has worked at the Orient for several years and has been a valuable contributor.

In his new role, Smith will be responsible for overseeing the newspaper's operations, including editing, writing, and design. He will work closely with the Orient staff to ensure that the newspaper remains a valuable source of information and entertainment for the Brownian College community.

**Saunders Awarded Grant**

Saunders, a junior at Brownian College, has been awarded a grant from the Robertford Foundation. The grant will be used to support Saunders' research into the history of the United States.

Saunders, who is a member of the History Department, has been working on a project that will explore the impact of economic policies on American society. The grant will allow Saunders to continue his research and to publish his findings in the future.

**Senior Registration**

Senior registration for the fall semester will be held on Thursday, September 25, from 9 a.m. to 5 p.m. in the Student Center. This is an important opportunity for seniors to confirm their enrollment and to make any necessary changes to their schedules.

**General Smith '38, Nominated For 'S. I.' All-America Award**

General Smith, '38, has been nominated for the 'S. I.' All-America Award. The award recognizes outstanding performance in a variety of areas, including academic excellence, leadership, and community service.

Smith, who is a retired general, has been a strong advocate for education and has made significant contributions to the Brownian College community. If selected, Smith will join a distinguished list of past recipients of the 'S. I.' All-America Award.

**Music Will Run From Jazz To Classical**

At Moulton Union Sunday Afternoon

A musical program, featuring music for the season, will be heard from 3 to 4:30 p.m. Sunday in Moulton Union, sponsored by the Student Council. The program will be directed by Walter J. Dougherty, who is a music teacher at the University of Vermont.

The program is planned to include a variety of musical styles, ranging from traditional jazz to classical music. This will be an excellent opportunity to enjoy the talents of some of the finest musicians on campus. The performance is free, and everyone is welcome to attend.

**College Establishes Eight National Merit Scholarships**

Eight Brownian College Merit Scholarships have been established by the University of Vermont. These scholarships, ranging from $1,000 to $5,000, are available to incoming students who have demonstrated exceptional academic achievement.

The scholarships are awarded based on a combination of high school grades, standardized test scores, and extracurricular activities. Students who are selected will receive their award for each of the four years they attend Brownian College.

**Scholarship Aid**

Students not now receiving merit scholarship aid are urged to apply for aid on the form found in the Student Handbook. Applications are due by the first of May.

The Bachelors
Bowdoin's dancing Bachelors are back.
They gave their first campus performance of the year at the Phi Delta Psi Fraternity on Tuesday night, and, if anything, they are even better than last year.

Although they used the occasion to announce the arrival of Neil Lane and the engagement of Phil Bower to a new audience of students, they also had some items on the agenda that had a bit of a different atmosphere.

On the bill was the usual assortment of 'Where I Live,' 'All the Love That They Brought to Tabor,' and 'Someday,' the last of which was particularly affecting. And, not too long after, when enough songs had been sung, the Bachelors had a brand-new experience: 'Cuddle Up,' the latest.

It is interesting to see what could be presented in a year's time when such a variety of songs comes to mind. We hope they'll be back again around this time for more songs to come.

 Farewell!

Baskin Catalogue Rated Outstanding; Selected For New England Show

The catalogue of the recent Leonard Baskin exhibition at the Museum of Fine Arts in Boston will be on display in the Bowdoin College Museum of Art during February.

The catalogue which was with the paintings was published by Harvard University Press and contains 79 pages of text and fine designs by Baskin. The catalogue also contains information on the artist's work and a detailed catalog of the exhibition.

As an editor of the catalogue, Mr. B. C. M. was particularly interested in the exhibition, especially the works of notable American artists. The catalogue was published in Boston and will be distributed throughout the New England area.

Books:

"How To Be Hip"
by John Blegen

"Don't worry, I don't promise to evolve a philosophical system for the instruction of society," said Professor Blegen about his book "How To Be Hip.

"It is a good attempt to bring together some of the best ideas of our generation. It is a book that is sure to be of interest to many people."

Blegen's book, "How To Be Hip," is a collection of essays and lectures that he gave over the years. It is a reflection on the changing face of society and how we can adapt to these changes.

The book is divided into five parts, each focusing on a different aspect of our society. The first part explores the idea of "beauty" and how we can cultivate it in our lives. The second part looks at the "environment" and how we can preserve it for future generations. The third part discusses "love" and how we can build strong relationships. The fourth part examines "work" and how we can find meaning in our jobs. And the fifth part explores "death" and how we can face it with grace.

Each essay is a reflection on a particular topic, drawing on Blegen's own experiences and beliefs. The essays are written in a clear and accessible style, making the book accessible to readers of all ages and backgrounds.

The book is available from most major bookstores and online retailers. It is priced at $12.95 for the hardcover edition and $8.95 for the paperback edition.

Strong Vocational Interest Test

The Strong Vocational Interest Test (SVIT) is a tool used to help people find a career path that suits their interests and abilities. It is based on the idea that people are most likely to succeed in careers that align with their strengths and passions.

The SVIT is a self-administered test that takes about an hour to complete. It consists of 156 questions that ask about different types of work and the skills and interests required to do those jobs.

The test results are then used to generate a profile that shows which careers are most likely to be a good fit for the individual. The profile includes information about the person's interests, abilities, and values.

The SVIT is widely used in schools, universities, and businesses to help people make informed career decisions. It is also used by job counselors and vocational counselors to help clients explore career options.

The test is available in several forms, including online and paper-and-pencil versions. It can be administered by a certified tester or by an individual who is trained in administering the test.

The SVIT is a valuable tool for anyone looking to make a career change or to explore new career opportunities. It can help individuals find a career that they will enjoy and be successful in, leading to greater job satisfaction and career fulfillment.
Math Department Receives Grant

The challenge revealed to the students, and the one that Dr. Julian was encouraged to share with them, was to create something that would be both challenging and enjoyable. The students were divided into groups, and each group was given a specific task to complete. The challenge was to design and build a robotic arm that could pick up and move objects.

Cohen Lecture

Cohen Lecture was held in the College Library and was attended by community members and students. The lecture was presented by Dr. Cohen and focused on the importance of community engagement in the modern world. The lecture was well-received, and the audience was impressed by Dr. Cohen's insights and knowledge.

SCHICK
Frost Booters Beat Kents Hill

The football season has drawn to a close with the 3-7 record of the Polar Bears, the loyal fans who made it to all the games it wasn't worth a bad season. Against York, Amherst and Williams the Polar Bears showed up to play despite the weather, with Westley, Bates and Maine as just plain jokes. No matter what kind of weather doesn't stop the Polar Bears from playing. Their last game in White was last Saturday were seven seniors whose loss will be greatly felt next year, especially considering that they are going to the University of Maine for next year. End guards Ralph Grimes and Bob Rubin have shown considerable passing and ball-handling ability. Among the other promising members of the team are Dean Atkinson, Paul Smith, Wayne Burrell, Wayne Smith and Noel Leland previous season.

Coach Charlie Hunt has been pleased with the strong showing his seniors have made during the last half of the season. Halihan, Bill Hunter and Pete Butt, along with Backfield Jack Chapman and Frank Nicol, were outstanding in defense, making the pressures of George Sturgis, Larry Miller and George Smith difficult at times and their scoring drives off the loss of injury Bob Barthelman, the team's new scorer, for revealing games.

Newcomers have come individually, but the ject as a unit, demonstrating passing and field play.

With many excellent junior and sophomore booters returning, good leadership will be expected next year. For those freshmen filling the shoes of the graduating seniors, the assists should be in good shape when it takes the field next fall.

This week's PAT ON THE BACK goes to LARRY MILLER and his offensive play was a major factor in the team's last effort of the season.

Diving Clinic Here Sunday

Bowdoin College and the Maine Swimming Club are holding a three weekend diving clinic this weekend. The clinic will be held in the Aquatic Center at the Campus of Bowdoin.

The diving sessions will begin at 10 a.m. and continue until 12 o'clock. The sessions will be held in the Aquatic Center at the Campus of Bowdoin.

The diving sessions will be conducted by Charles H. Smith, a former member of the U.S. National Diving Team.

It is suggested that anyone interested in diving should attend the sessions. For more information, contact the Maine Swimming Club at 800-555-5555.

FINDS COLBY FOR STATE CHAMPIONSHIP

The Polar Bears scored their third straight victory over the Bears of the University of Vermont and picked up their third straight victory over the Bears of the University of Vermont from the Bear's first place in the conference on Saturday.

The game was played in front of a capacity crowd at the University of Vermont and the Bears were victorious by a score of 14-7.

In the first period of the contest, the Bears led 7-0. However, in the second period, the Bears fell behind 7-0 and never recovered.

The Bears scored their first points of the game in the second period when they scored on a pass from the Bear's quarterback to the Bear's halfback.

The Bears scored their second points of the game in the third period when they scored on a pass from the Bear's quarterback to the Bear's fullback.

The Bears scored their third points of the game in the fourth period when they scored on a pass from the Bear's quarterback to the Bear's quarterback.

The Bears scored their third points of the game in the fourth period when they scored on a pass from the Bear's quarterback to the Bear's quarterback.
Fraternity House Looted: Police Hold 13 For Crime

Fire alarm and eight juveniles were arrested today before Judge Joseph L. Seger in Brunswick for participating in last Thursday's fire in the Totok House over the Thanksgiving holidays. Additional charges will be brought against some of the house's occupants, some of the damage being caused when the house was burglarized.

The proceedings were marred today, however, as nearly the entire fraternity was arrested last week for the same crime. The local police, faced with the threat of an enlarged trial, released the juveniles as a result of a settlement with the fraternity.

College Promises More Protection

In light of the recent events involving the fraternities, the college has promised to increase security on campus. This includes the installation of additional security measures in the fraternities' houses and the development of a new emergency response plan.

The annual Thespian Festival will feature three one-act plays, all written by the faculty. The plays will be performed on campus.

Modern Music A Reflection Of Our Time, Says Thomson

Each century spends its four forty years following the ghost of the last, and in the last pleasure of music was born in a manner of the survival of the younger side. So stated Mr. Virgil Thomson in opening his lecture on the "State of Modern Music at Middle-C," which he delivered in the evening of December 3rd at Pickard Theater.

Thomson went on to say that "everyone's music sounds pretty much alike," for the twentieth century style reflects the language idioms of our time and the context represents the personality of our time.

Bowlow And Colby J. To Give Concert Tonight

The Only Justice College Orchestra returns to its original sponsor's concert last Thursday at the New Hampden this evening at 8:10 PM.

Practice Debate Ahead

Bowlow and Colby J. will take part in a debate, but the topic has not been announced.

Coxes Gives Lecture

Professor Louis C. Cohn delivered his annual lecture last Thursday, before the student body of the college. Coxes has come to the college and has been very successful.

In another area of the college, Professor Robert S. Brockman of the Biology Department gave a lecture on the "Science of the Atoms."
Police: Another View

In view of the recent thefts on campus, the sorry situation taken by the Brunswick Police Department, as an agency in the past, has been considered by many to be commendable. While 24 hours after a list of stolen articles had been submitted, the Department has recovered over half of them. Two words characterize their treatment of the situation: cooperation and effectiveness. An obvious special effort is surely being made by the men of Bama Police, which is to be greatly applauded. The men are sending in reports of every suspicious activity, and the more admirable part of their efforts is the efficiency and speed with which they apprehended the offenders and recovered stolen articles.

Unfortunately, it was not possible to interview all of these men directly. However, the department has several cards and is currently investigating the matter. To cite one example, a young member of the police force actually worked with the department in cataloging the stolen articles. This cordial cooperation is commendable and deserves the support of all students.

Winter Sports Previews Optimistic

The basketball scene at Bowdoin in the past has been nothing to say the least. In fact, over the last decade, the Polar Bears have had a winning season. Some would argue that that's because of Bowdoin's basketball tradition, but the truth is that the team is just that good. The Polar Bears have won the past two years, and they hope to continue their winning streak this season.

The team has a great mix of talent, with returning seniors and some exciting freshmen. Coach Bicknell is excited about the season and is counting on the seniors to lead the way.

The team's schedule is tough, but they're up for the challenge. They have games against some of the top teams in the country, and they're hoping to get some big wins.

Overall, the Polar Bears are looking forward to a great season and are ready to take on the challenge of the new year.
Glee Club Begins Series Of Annual Yule Concerts

A successful concert performance by the Glee Club last month at the Adelphi Theatre and the outstanding musical ability of the members of the group has made it one of the most popular organizations on campus. What Kind Of A Year?

Two weeks from now we observe a traditionally solemn day of the family—Christmas. A week after that we enter the period of a session national celebration—New Year's. 1956 will be over soon. But, was it a year of our concern, or will it be remembered and attended to in the future?

A year is the unit of time and cannot be easily qualified as the present day but it has more than a decade, a century to see in its lasting effects.

Nothing really has been accomplished this past year and one can say that 1956 ended the start of any revolutionary change but it did produce some new phases, particularly on the domestic level, that should be of importance in 1953 and perhaps for all time.

The United States, considerably reflected a nation of irritation against Communist action since the Korean War, belated or of that tendency in the U.S. with the assistance of Cuba, in Vietnam, and at the Berlin Wall. The current administration extended American international policy to its strained point of which, instead of trying to work around Communist challenges, it called the Communist block. Kennedy, for all of the enmities of his well-known generalized “politics.”

Unfortunately, the plan is not limited to the Western world. Soviet action during 1953 intensified, but it was largely blocked. It is the enactment of Communist China, a nation well-tuned by many as a head of storming reason and no promise that has not been the determinant during the past year. Many people consider Red China little more than a name of the Soviet regime. This passable thought that fact is not to be developed in the actual development at the point of the two Communist revolutions. Most important, however, it produced a new phase in Communist Chinese. Yes, there is political development, or at least, a battle line has developed, with the fruitless battle line being the method in which the world has contained his role policy of quelling surplus, and the world has developed a battle line, both political and economic, in the Cold War—the shift in national war.

Several people thought of China’s decision to make the world war more than just a world war, and perhaps in the national war, but in the actual development of Communist China, Red China, as distinct from the former, does not seem to influence a single decision. Perhaps it seems a choice of force and little else, but there are serious decisions as to how it will influence the wind will continue.

Thus, the United States today has what may develop into a stronger sense of identity. As the United States, in the past, has been subject to the influence of foreign policy, so today it is the influence of national policy that makes it stronger. In the United States today, the influence of national policy is stronger than that of foreign policy.

What Kind Of A Year?

Two weeks from now we observe a traditionally solemn day of the family—Christmas. A week after that we enter the period of a national celebration—New Year’s. 1956 will be over soon. But, was it a year of our concern, or will it be remembered and attended to in the future?

A year is the unit of time and cannot be easily qualified as the present day but it has more than a decade, a century to see in its lasting effects.

Nothing really has been accomplished this past year and one can say that 1956 ended the start of any revolutionary change but it did produce some new phases, particularly on the domestic level, that should be of importance in 1953 and perhaps for all time.

The United States, considerably reflected a nation of irritation against Communist action since the Korean War, belated or of that tendency in the U.S. with the assistance of Cuba, in Vietnam, and at the Berlin Wall. The current administration extended American international policy to its strained point of which, instead of trying to work around Communist challenges, it called the Communist block. Kennedy, for all of the enmities of his well-known generalized “politics.”

Unfortunately, the plan is not limited to the Western world. Soviet action during 1953 intensified, but it was largely blocked. It is the enactment of Communist China, a nation well-tuned by many as a head of storming reason and no promise that has not been the determinant during the past year. Many people consider Red China little more than a name of the Soviet regime. This passable thought that fact is not to be developed in the actual development at the point of the two Communist revolutions. Most important, however, it produced a new phase in Communist Chinese. Yes, there is political development, or at least, a battle line has developed, with the fruitless battle line being the method in which the world has contained his role policy of quelling surplus, and the world has developed a battle line, both political and economic, in the Cold War—the shift in national war.

Several people thought of China’s decision to make the world war more than just a world war, and perhaps in the national war, but in the actual development of Communist China, Red China, as distinct from the former, does not seem to influence a single decision. Perhaps it seems a choice of force and little else, but there are serious decisions as to how it will influence the wind will continue.

Thus, the United States today has what may develop into a stronger sense of identity. As the United States, in the past, has been subject to the influence of foreign policy, so today it is the influence of national policy that makes it stronger. In the United States today, the influence of national policy is stronger than that of foreign policy.

OCCASIONALLY, a matter of national interest with local implications enables us to transcend the confines of Bowdoin Country. Such is the current situation between the University of Maine and the University of Vermont in the state of Maine. The University of Maine has won the last two meetings of the series, and it appears likely that Bowdoin will continue to do so in the near future.

The conflict, as such, is one of the most interesting in the country. The University of Maine, through the efforts of its athletic director, is making every effort to improve the conditions of the game. The University of Vermont, on the other hand, is making every effort to prevent the conditions from improving. The University of Maine is making every effort to improve the conditions of the game. The University of Vermont, on the other hand, is making every effort to prevent the conditions from improving.

The University of Maine is making every effort to improve the conditions of the game. The University of Vermont, on the other hand, is making every effort to prevent the conditions from improving.

A.Y.O.M. A YOU MAN at the FIRST

Dr. Bearce Examines India’s Traditions And Her Problems

Modernization in India will not occur without “wishing,” concluded Professor Bearce in his lecture on India. Presented by the History Department, the lecture was the first of a series of lectures on the background and current problems of India in the Science Hall.

Dr. Bearce raised questions about the current problems with the introduction of the new Indian Constitution. He stated that modernization in India will not take place without “wishing,” but that this wish is not often enough translated into action.

Dr. Bearce connected his lecture with the history of the present-day military and political situation in India. He stated that modernization in India will not take place without “wishing,” but that this wish is not often enough translated into action.

Dr. Bearce then went on to discuss the history of the present-day military and political situation in India. He stated that modernization in India will not take place without “wishing,” but that this wish is not often enough translated into action.

Dr. Bearce ended his lecture by stating that modernization in India will not take place without “wishing,” but that this wish is not often enough translated into action.

The lecture was the first of a series of lectures on the background and current problems of India in the Science Hall.
Chapel

A Note: A Protest

Student opinion on the issue of religious chapel reached a climax this past weekend when the chapel was filled to capacity for the first time.

It all started with the phrase, "Happy New Year," which set the tone for the rest of the year. Unfortunately, this year started with a different tone. The administration, although challenged by a hard economic situation, has not overlooked the students' lack of challenge by making the chapel a public forum.

Perhaps the most obvious way to describe the chapel as it is "dismal." The attendance by students, faculty, and visitors is low to nonexistent. The chapel's purpose is to serve as a place of worship for students and faculty, to promote a sense of community, and to provide a place for reflection and prayer. However, the current state of the chapel is far from this. The chapel is not only underused, but it is also in disrepair. The wooden benches are uncomfortable, the lighting is dim, and the acoustic quality is poor. These factors make it difficult for students to feel comfortable and to participate in chapel services.

The administration has proposed to renovate the chapel, but the proposals have not been well received by the students. Many students feel that the money could be better spent on other priorities, such as academic programs and infrastructure.

The chapel, as it currently stands, is not an effective use of space. It is not used for religious purposes, but rather for administrative meetings, cultural events, and academic lectures. This is a misuse of a valuable resource. The administration should consider repurposing the space for activities that are more in line with the chapel's intended purpose.

In conclusion, the chapel is far from the ideal religious space that it was designed to be. The administration should consider the students' concerns and work to improve the chapel's physical and spiritual conditions. Only then can it truly serve as a place of worship and reflection for the campus community.

Debaters Decide Distaff Superiority

by Paul Meurer

The year-old tempest of whether men or women is superior was debated at the Union Lounge Monday evening. Number 16, between two Bowdoin boys and two members of the opposite sex from the University of Maine, represented the Helene taxa, and presented the resolution that women are superior. Miss Mary Lillim and Miss Carol Vincent represented the Union Taxa. Mr. Richard Halvey served as Chairman.

Mr. Harrisayed opened the debate by stating that the case of feminine superiority was "proven" over male sex's "independence and responsibility.

Miss Vincent, on the other hand, was making an argument in the name of men. "If men were better, they would have more intelligence, more knowledge, and more experience.

Mr. Harrisayed ended his talk by saying that the case of feminine superiority was "proven" over male sex's "independence and responsibility.

Miss Vincent, on the other hand, was making an argument in the name of men. "If men were better, they would have more intelligence, more knowledge, and more experience.

At the close of the debate, the audience was left with the question of whether men or women are superior. The debate was a fascinating conversation, but it is clear that there is no easy answer to this question. Both sides presented strong arguments, and it is up to each individual to form their own opinion on this topic.

Bridge

Drawing Trumps

by John Morris and Ken Lane

One of the nicest tricks I know to do is to invite you to play a hand. You'll need to be a card-playing wizard with a deft hand to do it. In a trick designed to condition the hand of a partner, you can give a partner a trump that you want them to play. If done correctly, the partner can be induced to play that specific trump when the time comes. The trick is as follows:

1. You start by assuming the role of the declarer. You hold a hand with the following distribution:

   
   
   
   
   

2. You start to play the hand, beginning with the fourth trick. You play a trump, and your partner plays a trump back. You continue playing trumps until you reach the seventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the ninth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the eleventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the fifteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the seventeenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the nineteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-first trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-third trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-fifth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-seventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-ninth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-first trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-third trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-fifth trick. At this point, you play a trump, and your partner plays a trump back. The trick is now complete.

3. Now, you need to play the hand as if it were a normal trump trick. You start by assuming the role of the declarer. You hold a hand with the following distribution:

   
   
   
   
   

4. You start to play the hand, beginning with the fourth trick. You play a trump, and your partner plays a trump back. You continue playing trumps until you reach the seventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the ninth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the eleventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the fifteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the seventeenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the nineteenth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-first trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-third trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-fifth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-seventh trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the twenty-ninth trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-first trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-third trick. At this point, you play a trump, and your partner plays a trump back. You continue playing trumps until you reach the thirty-fifth trick. At this point, you play a trump, and your partner plays a trump back. The trick is now complete.

Bearings

By Steve Lunden
and Steve Haddil

...The winter sports pleasure at Bowdoin has now progressed far enough to give us some indication of how the teams will fare for the remainder of the season. It is apparent that the swimming team will have another winning year. There- fore, we would predict that this time we shall discover what has made it so successful.

Perhaps the most important contribution to the team's record is the leadership of Capt. Bill Hinman, the head coach. Hinman has always been a strong influence on the swimmers, and his management of the team has been outstanding. His influence has been felt not only in the pool, but also in the classroom where he is a faculty member.

Though he has had many successful seasons, Hinman has always been a hard worker. He has spent long hours preparing for meets and has always been ready to give his best whenever called upon.

The boys' swimming team is composed of thirteen members, and their season has been outstanding. They have set several records and have won many meets. Their performance has been so impressive that they have been invited to compete in the national championships.

The team's success can be attributed to the leadership of Hinman and the dedication of the swimmers. They have worked hard and have given their best in every meet. This has resulted in a great deal of success for the team.

The best swimmers on the team are probably John M. Smith, who set a record in the 200 yard backstroke, and Tom B. Johnson, who set a record in the 100 yard breaststroke.

The girls' swimming team, under the guidance of Capt. Beth Finnin, has also been successful. They placed second in the national championships, a remarkable feat for a team of this size.

The girls' team is composed of twelve members, and they have performed well throughout the season. They have set several records and have been invited to compete in the national championships.

The team's success can be attributed to the leadership of Finnin and the dedication of the swimmers. They have worked hard and have given their best in every meet. This has resulted in a great deal of success for the team.

The best swimmers on the team are probably Mary L. Johnson, who set a record in the 200 yard backstroke, and Sarah B. Finnin, who set a record in the 100 yard breaststroke.

The team's success can be attributed to the leadership of Finnin and the dedication of the swimmers. They have worked hard and have given their best in every meet. This has resulted in a great deal of success for the team.

The best swimmers on the team are probably Mary L. Johnson, who set a record in the 200 yard backstroke, and Sarah B. Finnin, who set a record in the 100 yard breaststroke.

Medical Scholarships Awarded To 36 From Galen and Merritt Fund

By John Halperin

"Great value isn't something we achieve — it's conferred, bestowed upon us, and our greatest failings today result from the rejection of this gift of love."

With these words, internationally known and revered Dr. Reverend William Simon Coffin, Jr., president of Yale University, a member of the Peace Corps Advisory Council, and the recipient of an extensive article in a recent edition of Life Magazine, bestowed an address before 150 guests Monday evening in the Moodie Room. Reverend Coffin was speaking under the auspices of the Student Union.

Eloquent in speech, grand in manner, Reverend Coffin asked for an hour on the meaning of gratitude in a time of growing 

"...but when we must ask ourselves, "What have we to be grateful for?", we can truly say that the Thanks-Giving we have been taught to offer is the most sincere. Gratitude is a most powerful weapon for living and loving, and we can use it every day..."

Students who were not there to hear the words, "...can use gratitude for the treasures that come from other people. A Gratitude is a most powerful weapon for living and loving, and we can use it every day..."

Students who were not there to hear the words, "...can use gratitude for the treasures that come from other people. A Gratitude is a most powerful weapon for living and loving, and we can use it every day..."

As for those who were there, they were asked to consider the meaning of gratitude in a time of growing alienation. Reverend Coffin concluded that gratitude is a most powerful weapon for living and loving, and we can use it every day. His words were "...can use gratitude for the treasures that come from other people. A Gratitude is a most powerful weapon for living and loving, and we can use it every day...

"I believe that, just as the human heart is the seat of love, it is also the seat of gratitude. For gratitude is the acknowledgment of the goodness of life, and the willingness to accept it when it is offered. It is the recognition of the value of others, and the desire to give back something in return."

"...but when we must ask ourselves, "What have we to be grateful for?", we can truly say that the Thanks-Giving we have been taught to offer is the most sincere. Gratitude is a most powerful weapon for living and loving, and we can use it every day..."

For more information, see "The Bowdoin Orient" of January 18, 1963.
The page contains a mix of text and images, with some content in smaller fonts or with the words not fully visible. The text appears to be from a newspaper or magazine article with various sections, including news, features, and other announcements. The language used is English, and the content seems to be about different events, activities, and reports, possibly from a local community or university. The text is not entirely clear due to the quality of the image, but it appears to be discussing events such as football games, fraternities, and social activities. The layout includes headlines, subheadings, and paragraphs with varying font sizes. The overall context suggests it might be a student publication or a local community newsletter.
The Orient Crib Sheet

Tiddlewinks: A Fed At Bowdoin?

In a disagreement over the NCAA's final decision on penalty for an alleged act of hacking, Bowdoin officials have decided to appeal the case to the U.S. Supreme Court. The decision was made after an appeal to the NCAA was denied.

Bradbury Debate

The debate between Bradbury and Johnson took place on Wednesday night. Bradbury, who argued for the resolution, said that the resolution was necessary to protect the freedom of speech. Johnson, who argued against the resolution, said that the resolution would lead to a slippery slope.

Open-Platform Policy In Use For Controversial Issues At Nasson

A new policy has been implemented at Nasson College that allows for open-platform discussions on controversial issues. The policy is intended to encourage open dialogue and free speech.

Citation Prauses Garrison's Zeal

Garrison's zeal for the cause of abolition is praised in this citation. The citation notes his unwavering commitment and his willingness to endure suffering for the cause.

Pease Corps Test

The Pease Corps Test will be held on Saturday at 9:00 a.m. at the Pease Corps, Washington 29-30. All members of the Pease Corps are encouraged to attend.

Barnard, Cross To Lead Sessions At Conference

Peter Barnard and Robert Cross will lead sessions at the upcoming conference. Barnard will address the topic of "The Role of Technology in Education," while Cross will speak on "Leadership in Higher Education."
Swim Team Coasts to Two Victories

Seaver Bettors Own Record by 9 Seconds

The varsity swimming team, with victories over Amherst and Middlebury during the past week, has set a new record, virtually unbroken for years. Their only loss was to Springfield at the start of the season.

Polar Bear Nipped by MIT, Rallyes to Upset Maine

Rebounding from a defeat at the hands of MIT, the Polar Bears returned to their finest team performances of the season as they conquered Maine at the latter's court, giving them a commanding 5-1 lead in the Senior Series.

Chewing the Fat

B. East

The semi-final round of games for Sewer Bettors Own Record by 9 Seconds at the University of New Hampshire. The Polar Bears are expected to perform strongly in the upcoming matches.

Lacrosse Team Will Hold Raffle

A 10-cent raffle will be held at the Burtwood Assembly, on Saturday afternoon, May 5th, 1973. The proceeds will go towards the support of the Burtwood Assembly, which is a charitable organization.

Pat on the Back

The award is given for outstanding performance in sports or academics. Congratulations to the recipients.

Skaters Bury Penn., But Fall 6-5 To UNH For Fourth Overtime Loss

A victory over the University, 6-5, on a goal by Burtwood, was the turning point in the contest. After a scoreless first period, Burtwood was able to take the lead early in the second period. The team played with a strong defense and was able to capitalize on their opportunities. Burtwood's final goal came with less than three minutes left in the game.
Winter's: Cold Won't Freeze Spirits

The Be Diddley Quartet and a troupe of Ecstasy dancers will perform in Pickard Theater tomorrow night, sponsored by the Junior Musical. The novelty of their musical entertainment is the presence of Mr. Be Diddley himself. Mr. Diddley is 68 years old, and has been a member of the Chicago music scene for over 50 years. He is known for his unique style of playing the bass guitar, and his performances always draw a large crowd. Mr. Diddley has recorded numerous albums, and his music has been featured in several films and television shows. His energetic performance and soulful tunes are sure to keep the audience on the edge of their seats.

The event is free and open to all, and will begin at 7:30 pm in Pickard Theater. Don't miss this opportunity to see a true musical legend in action!
Bowdoin Oversees John Frost '04, Paid Tribute By Cole's In Chapel

The last pupil survivor of the famous Bowdoin class of 1904, John Frost, died in Madison, Wis., at the age of 86. President Cole and Mr. Frost 'was one of the most highly regarded students at Bowdoin and who has gone on to a distinguished career in law and politics.

President Cole presided at the close of the 1904 class at the College. They were to be his last words. Following the conclusion of the service, Mr. Frost was presented with a bow tie, a bouquet of flowers, and a copy of the College magazine. He was also presented with a copy of the College yearbook.
The casualty swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet, and the New England men’s team fell to the last team in the meet.

The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

On the labor day of the meet, the second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

Favored Williams Upset By 1 Point In Own Pool

The favored swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet. The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

Puckmen Drop 2 Games To Strong N. E. Sextets

The favored swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet. The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

Bowdoin Loses Track Opener To Bates; Frost Takes Three

The favored swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet. The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

Baseball Schedule

The favored swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet. The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

HOMELIFE’S SUMMER PROGRAMS

The favored swimming team swept the meet, 69-41, for the second year in a row, Jan. 10. The first meet saw new England records fall and two records were tied in the last. The first team in the meet, the New England records, fell to the last team in the meet. The second team in the meet, the New England women’s team, fell to the last team in the meet. The third team in the meet, the New England men’s team, fell to the last team in the meet.

The fourth team in the meet, the New England women’s team, fell to the last team in the meet. The fifth team in the meet, the New England men’s team, fell to the last team in the meet.

The sixth and seventh teams in the meet, the New England women’s team and the New England men’s team, respectively, fell to the last team in the meet.

Coles Announces Department Heads; Riley, Hiebert, Ferncliff Chairman

President Cole has announced the appointment of three new Department Chairs. Charles C. Riley, designated Chemistry, and Assistant Professor Gordon L. Hiebert, named Professor of the Department of Chemistry, and Donald F. Ferncliff, Jr., appointed Professor of the Department of Psychology.

President Cole said the appointments are effective immediately.

Professor Riley, a native of Ohio, was born in 1910 and received a B.S. degree in Chemistry in 1935, M.S. degree from 1937, and Ph.D. degree from 1940 at Harvard University. He was then a Lecturer at the University of Illinois, and has been on the faculty of the University of California since 1943, where he is currently Professor of Chemistry.

Professor Hiebert, a native of North Dakota, was born in 1915 and received a B.S. degree in Chemistry in 1937, and Ph.D. degree from 1940 at the University of Illinois. He was then a Research Associate at the University of California, and has been on the faculty of the University of California since 1943, where he is currently Professor of Chemistry.

Professor Ferncliff, a native of North Dakota, was born in 1915 and received a B.S. degree in Psychology in 1937, and Ph.D. degree from 1940 at the University of Illinois. He was then a Research Associate at the University of California, and has been on the faculty of the University of California since 1943, where he is currently Professor of Psychology.

The Chemistry Department is one of the oldest departments at the University of California, and has been on the faculty of the University of California since 1943, where he is currently Professor of Chemistry.

Conservative Depression Of The '30's
Can We Rise Above It In The '40's?

by Robert Fargherson

The 1930's are a period when the idea of making life more tolerable appears to have been lost sight of. This is an era when we are being told to accept life as it is. We have to be patient and willing to adapt to the new problems and attitudes of the world, for these are the only ones we can hope to understand.

In the fall of 1930, Brownie College appointed a new President, Dr. Herbert B. McCleary. The new administration was expected to bring about a change in the College's policies, but it was not to be so simple. The old system of government was not to be swept away at once, but rather, it was to be gradually replaced. The new President was to work in close cooperation with the old President, and it was hoped that this would lead to a more stable administration.

The administration, however, did not have the time to adapt, and the problems of the '30's were not the same as those of the '20's. The problems of the '30's were more complex, and they required a different approach. The administration was forced to make some changes, but it was not always easy to do so. The administration had to be careful not to make any sudden changes, and it had to be careful not to make any changes that would upset the students.

If you have a problem, try to solve it first. If you don't have a problem, try to find one. If you don't have a problem and you don't have a problem, try to find one.

PICK THE RIGHT ONE...

THE BRACING BRIGHT ONE!

Ganopoulos Doubts Utility of B.C.A.

by John Halperin

The College Bookstore has now acquired the '30's book, "The Business of Better Life," by the late Dr. Herbert B. McCleary. This book is a collection of essays that were written during the administration of the College in the '30's. It is a book that is filled with useful advice and practical information.

The book is divided into two parts. The first part is a collection of essays that were written during the administration of the College in the '30's. The second part is a collection of essays that were written during the administration of the College in the '40's. The essays in the first part are more practical, and they are filled with useful advice and practical information. The essays in the second part are more theoretical, and they are filled with interesting ideas and concepts.

The book is a valuable resource for anyone who is interested in understanding the history of Brownie College and the administration of the College in the '30's and '40's. It is a book that is filled with useful advice and practical information, and it is a book that is filled with interesting ideas and concepts.
Bowdoin Man Shines Before Edison

The following summary by E. W. Weeks for the Boston Times (Feb. 10, 1883) has obtained the endorsement of Dr. Bowdoin and is published for the first time in the Bowdoin History of the World's Fair. The story is based on interviews with a number of Bowdoin students who were present at the fair.

Dr. Bowdoin notes that at the time of the fair, Edison was already well known for his invention of the electric light bulb. The story goes on to describe how Edison and his team worked tirelessly to perfect the technology behind the light bulb, which they had been working on for several years. Despite the challenges they faced, Edison and his team eventually succeeded in creating a device that could illuminate the world with a single, bright, and efficient light source.

The story also highlights the impact of Edison's invention on the world, as it marked a significant milestone in the history of electricity and paved the way for the development of modern electrical systems. Edison's work has had a lasting impact on the world, and his legacy continues to inspire generations of engineers and inventors today.
Polar Bears Dump Colby To Win State Title

**Fired Up Hoopsters Capture Crown In Series Biggest Win**

Before the largest home crowd of the season, the Polar Bears triumphed a strong Colby five, 78-40, to win the first State Title in the college's history. The team had rebounded from an earlier loss in Springfield.

**at Springfield.**

Last Saturday, before a Winston crowd, the Polar Bears played a strong Springfield College in the tourney. The final had been an exciting one, with the Bears leading the final seconds and just as the final buzzer sounded, Springer's score went up 8-40.

Brendon's crease started strong, quick baskets with Crease on his last and a breakaway layup by Crease and then his three-point follow with Fred Taylor doing most of the work. The lead was extended by several points and just as the half ended Springfield scored one to 8-40.

Brendon's crease held strong, quick baskets with Crease on his last and a breakaway layup by Crease and then his three-point follow with Fred Taylor doing most of the work. The lead was extended by several points and just as the half ended Springfield scored one to 8-40.

Concerts, Dance To Highlight Weekend Drive For Charities

A round of fundraising charity drives are the annual Chest Weekend Fashion Show, a charity dance, a poker tournament, a charity dance and a raffle. With the配合 of the money going to the American Cancer Society, the weekend is a chance for students to contribute to a good cause.

The proceeds from the weekend will be used to support the American Cancer Society's research and education programs. Participation in the events is encouraged, and donations can be made in person or online through the society's website.

Placement Bureau Head Pledges Top Prospects For '63 Graduates

The Placement Bureau for the College of Business Administration is proud to announce the graduates of this year's class. The bureau has received a record number of applications from prospective employers, and the graduates have been selected based on their academic performance, skills, and experience.

The bureau has also worked closely with the students to help them identify potential career paths and prepare for interviews. With the help of the Placement Bureau, students can gain valuable experience and make connections that can lead to successful careers.

Rusher Advocates Aggressive Policy Outside U.N. To Combat Communism

"Any study of the international scene begins with one observation: that there is a cold war going on in the world. With this in mind, Mr. William Rusher, the Editor of The National Review, delivered an address at the United Nations Conference on the American Heritage and the United Nations, Monday at 3:30, under the sponsorship of the Bowdoin Political Forum.

Mr. Rusher started his talk by discussing the cold war as a struggle between the Communists and the capitalist countries, with the United States being one of the major powers involved. He went on to say that the United States must take a more aggressive stance in order to combat the spread of Communism. Mr. Rusher's address was well-received by the audience, and many in attendance were impressed by his passion and his ideas.

The event was hosted by the Bowdoin Political Forum, which is a student organization that aims to promote political discussion and debate on campus. The forum has a long history of hosting renowned speakers and thinkers, and the event with Mr. Rusher was no exception.

**LETTERS TO THE EDITOR**

**Student Apathy and The Administration**

In answer to Mr. Thomas's letter, we feel that student apathy toward the administration is a result of decreased student activity participation. The administration is responsible for creating interest through new initiatives and improving existing ones. We believe that increased student participation will lead to a more engaged student body.

**Bermuda Vacation: Frolics Minus Snow**

Gary A. Vareno, a student at Bowdoin College, has just returned from a Bermuda vacation. He spent two weeks there, and in his vacation reminiscences, he mentioned that the weather was exceptionally good, with no snow in sight.

---

**Placement Agencies: Centralized Needed**

The second Campus Career Conference, jointly sponsored by the Alumni Council and the Career Guidance Office, will present a series of diversified panel discussions programmed to aid students in determining their career goals. The conference, which includes representatives from a variety of companies, will take place on Monday. Unfortunately, our university does not recognize the importance of these opportunities for students.

Junior Year in

New York

An unusual one-year college program

Surely, the most unexpected and

The most wonderful educational

experience is in New York City.

You'll live, eat, breathe...

This will open your eyes.

If you're considering a career in business management or related scientific areas, we invite you to consider the New York University College of Commerce. The college is ranked among the nation's top business schools, and our graduates are in demand throughout the country.

New York University College of Commerce

100 Washington Square North, New York, N.Y. 10012

Call Today!
Brewing through post-graduates of the Orient, one curiously discovers a plan which has continually appeared in the publishing world in recent years. At Bowdoin, this plan has been applied by the need for an expanded sports program which would offer such "mini" sports as squash and rowing. Some of our graduates have said that this program, in addition to improved intramural sports, will enable them to participate more actively in the academic life of the college. Indeed, the need for a new gymnasium at Bowdoin has been subject of much discussion and controversy, and now appears realistic.

Last week in chapel President Colson announced the students that the Colby Community will include in its "package plan" funds for new gymnasium facilities. Contrary to rumors prevalent on campus, the plan does not call for a mere expansion of Gymnasium facilities. Rather, an entirely new, 14,000 square feet structure, will be constructed on the north side of the present gym. This does not include field dressing or equipping by the Betterment, for initiaive, plans and blueprints have already been formulated.

Briefly, the new structure will have 22.5 thousand square feet of floor area, compared to the present 8,5 thousand square feet. Locker room space will be tripled in the new building, and four visiting team rooms will be constructed. More adequate training rooms, offices and conference rooms will also be created, as well as a large equipment and laundry room.

In reference to the demands of the new, the new structures will fulfill many proposals. For those who have clamored for squash courts, there will be 14 new court, two singles, one doubles. As for the intramural and physical education programs, the present gym will be expanded to accommodate these programs. Special exercise rooms are included in the design for tennis, weight-lifting, and badminton. Finally, the present inadequate existing facilities will be replaced with a new gymnasium which will double the present existing arrangement.

When completed, the new gymnasium will be used for the indoor athletic activities of the college, and in addition, it will be available to the community for cultural, social, and recreational activities.

Senator Douglas Warns Against Protectionism
In American Relations With The Common Market

"We should strive for the full cooperation of nations" involved with the Common Market, but, if, on the contrary, they discriminate against the United States, "I would lose the United States entirely," was the conclusion reached by Senator Paul H. Douglas, Jr., in his Monday night speech on the Common Market before a capacity crowd in Pickard Theater.

Commenting further, Senator Douglas declared: "It is tragic that the American people have to be told over and over again that this cooperation means mutual freedom and that the Common Market is an essential part of the Atlantic Alliance."

"If the member nations of the Common Market united in a system of national competition, each country would become a customer for the others, and each country would be open to the products of the others. This is a very logical situation, but a logical situation is not an effective situation.

"It is logical, but not effective, for the United States to compete in the Common Market. It would be logical for the United States to compete in the Common Market, but it would not be effective."

"The United States must have a country where the people can work and the products can be sold."

"The United States must have a country where people can work and the products can be sold."

Dr. Franklin D. Roosevelt said: "The United States must have a country where the people can work and the products can be sold."

"The United States must have a country where the people can work and the products can be sold."

Kappa Sigma Sweeps Interfraternity Track Meet

Track Team Nips M. I. T.

Frank Rosan's last duty in the parlors was to present a broadsheet containing the names of those who had received their degrees in the past year. "We all know that Frank Rosan is a great man," said one of the seniors. "He has been a friend to all and a leader in many things."

Previews of New England

Champion swimmers from Harvard, Bowdoin, Tufts, and M.I.T. will converge on the campus of M.I.T. this week for the New England Intercollegiate Championships. The meet will be held over two days, with the preliminaries beginning on Friday, February 15th, and the finals on Saturday, February 16th.

Bowdoin Swimmers Top Tufts

The swimming team at Bowdoin College dominated their meet against Tufts University, winning all five events held. The dominant performance by the Polar Bears was reflected in their score of 86-18, compared to Tufts' score of 48-46. The meet took place at the Bowdoin College pool, the venue where the Polar Bears have traditionally excelled.

Bowdoin Three Dominate "All Maine" Meet

The three Maine connections—Bowdoin, Maine, and Bates—dominated the "All Maine" swimming meet, held at the Bowdoin pool. The meet was a showcase for some of the finest swimmers in the state, and the results were a true reflection of the high level of talent in Maine collegiate swimming.

Basketball:

Leverett 84, Peabody 75
Bowdoin 207, Colby 187

Kappa Sigma desirably won the 41st Interfraternity Track Meet last Sunday for the third consecutive year with an over-all score of 71 point total, followed by Delta Kappa Epsilon (44) and Beta Theta Pi and Theta Delta Chi (tied for third with 28).

Frosh Push Punctuation Colby Match Ends In 2-1 Victory

In their most recent exhibition of hockey, the frosh push-punctuation team of Colby College outscored the frisking team of Bowdoin, 2-1. The game was played at the Colby College rink, the venue where Colby has traditionally excelled.

Ted Silvey, AFL-CIO National Speaker, To Lecture Tomorrow

The T. P. Silvey, vice-president of the AFL-CIO, National Cushion and Interior Furniture Manufacturers Association, will address the Labor College of the State University of Iowa on Wednesday afternoon, April 6, at the Iowa City Coliseum. He will speak on the AFL-CIO from the viewpoint of the two groups in the labor movement, the CIO and the A.F. of L.

Mr. Silvey has been a labor leader for many years. He is a member of the Board of Trustees of the Labor College and is president of the Cushion and Interior Furniture Manufacturers Association. He also serves as president of the International Cushion and Interior Furniture Manufacturers Association.

The lecture will cover the history of the labor movement, the role of the AFL-CIO in the labor movement, and the problems facing the labor movement today.

Farr Win In One-Act Play Contest

Four productions were presented last Tuesday in the 24th Annual Student/Writers One-Act Play Festival in Richard Theater, sponsored by the Masque and Gown. Frank C. Houding directed Mrs. R. Linke's production of "Farr" by Margaret Rose Reilly. In addition, the play won the best actor award. The best actress award was given to Steven J. W. for his portrayal of the title role in "Farr". The third award went to Mr. J. W. who played the role of the villain in "Farr".

The competition in One-Act Play Festival was wide open with many new ideas and interpretations of traditional themes. The competition was judged by members of the faculty. The judges were unanimous in their praise of the productions.

The Mayor: Joly Stresses Organization

For Successful Political Campaign

"Politics plays an important and integral part in the life of every American," said Mayor Joly. "It is a fact that is often overlooked by many people." This contention was made by Mr. C. Joly, Republican mayor of Chicago, who is running for the Republican nomination. He said, "This is a fact that is often overlooked by many people." The competition in One-Act Play Festival was wide open with many new ideas and interpretations of traditional themes. The competition was judged by members of the faculty. The judges were unanimous in their praise of the productions.

Letters To The Editor

Editor,

Recently, a report by the Massachusetts Department of Education was released that called for changes in the state's education system. It was stated that the current system is failing our students and that significant reforms are needed to ensure a successful future. The report highlighted areas such as funding, teacher training, and curriculum development as critical components for improvement.

As a concerned citizen, I believe that we need to act now to address these issues. The Massachusetts school system is one of the best in the country, yet we cannot ignore the problems that exist. I urge all of our elected officials, from the governor to the state representatives, to work together to make the necessary changes.

Sincerely,

[Name]

[City, State]

- Pete Phil
- Bob Smith

Baseball Preview
Pitching Key To Season

With all the abundance of stars in the field, the pitching key will be the key to the season. The pitching staff of the basketball team is led by Bob Smith, who has been named the starting pitcher. The team's pitching record is expected to be high this year.

Trackmen In One-Sided Win; End Season With 6-1 Record

Bowdoin's track team prevailed over Bates, 6-1, in the last regular-season meet of the year. The team, which has been consistent all season, finished the season with a record of 6-1.

The men's team placed second in the league standings, while the women's team finished in third place.

In field events, the men's team placed first, while the women's team finished in second place.

Bowdoin athletes will participate in the upcoming NCAA Championships, which will be held in April.
