Office Hours

The President will usually be at Massachusetts Hall from 3.30 to 4.30 on Tuesday, Thursday, and Friday.
The Dean, Massachusetts Hall; 12.30 to 1.00 every week-day, except Monday and Saturday, 2.00 to 3.00 every week-day, except Saturday. The office is open every week-day afternoon, except Saturday, from 2.00 to 5.00.
The Bursar, Massachusetts Hall; 9.00 to 12.00, 2.00 to 4.00 every week-day, except Saturday; 9.00 to 12.00 Saturday.
BOWDOIN COLLEGE

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is the President and Trustees of Bowdoin College.

The College was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government was, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the upper Board initiating legislation and the lower concurring or vetoing, and since 1870 one-half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron was the Hon. James Bowdoin, son of the Governor. He gave land, money, and apparatus during his lifetime and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings and one hundred and forty-two drawings by old and modern masters; among the painting were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

To the war for saving the Union, Bowdoin sent 290 men,—a larger percentage than furnished by any other college in the North; to the World War upwards of 1,200, of whom 29 made the supreme sacrifice.

More than eleven thousand students have been admitted and seven thousand, three hundred, and sixty-two degrees have been awarded. The living graduates number three thousand, three hundred and five.

Among the graduates have been: Henry Wadsworth Longfellow and Nathaniel Hawthorne; Henry Boynton Smith, Charles Carroll Everett, Cyrus Hamlin, and Elijah Kellogg; William Pitt Fessenden, John A. Andrew, Franklin Pierce, Melville W. Fuller, Thomas B. Reed, and William P. Frye; Oliver Otis Howard and Joshua Lawrence Chamberlain; and Robert Edwin Peary.

THE COLLEGE BUILDINGS

Massachusetts Hall, completed in 1802, was the first college building erected. It has been used for various college purposes, but after some remodelling of the interior the two upper floors have been used for the Cleaveland Cabinet of mineralogy, named in honor of Professor Parker Cleaveland, and the lower floor for the administrative offices of the College.

Maine Hall (1808), Winthrop Hall (1821), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, Appleton Hall (1843), named in honor of the second president of the College, and William DeWitt Hyde Hall (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, are the four dormitories and form with the Chapel the eastern side of the Quadrangle.

The Chapel, a Romanesque Church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods under whose personal direction it was erected. In the Chapel is the organ given by Cyrus H. K. Curtis, LL.D., in 1927.

Seth Adams Hall was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed
The College Buildings

liberally towards its construction. It stands on the Delta beyond the Quadrangle and is used as a recitation building.

Memorial Hall, erected in 1868, is a structure of local granite, in the French Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitation purposes.

The Observatory was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands just outside the Quadrangle to the east and is well equipped for the purposes of instruction.

The Walker Art Building was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The Mary Frances Searles Science Building, was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

Hubbard Hall, the library building, was also designed by Henry Vaughan. It was erected in 1902-03 and presented to the College by General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

The Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building were erected in 1912. The Gymnasium was built from contributions from many of the students and alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the Swimming Pool, given in 1927, by Cyrus H. K. Curtis, LL.D. This structure stands to the east of the Chapel outside the Quadrangle.

The Dudley Coe Memorial Infirmary is a three story brick building, erected in 1916-17. It was given by Dr. Thomas
UPHAM COE, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

These buildings and their equipment are described and illustrated in a pamphlet which will be sent gratis upon application to the Dean.

RESOURCES

The interest-bearing funds of Bowdoin College, at the close of each fiscal year, for the last six years were as follows:

<table>
<thead>
<tr>
<th>Date</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mar. 31, 1922</td>
<td>$2,832,601.81</td>

</tbody>
</table>

The estimated value of the college buildings and equipment is $3,031,974.30; and the expenditure for the maintenance of the college, for the past year $344,592.12.

ALUMNI FUND

One of the principal sources of both endowment and income in recent years has been the Alumni, and the Alumni Fund, inaugurated in 1919, has added $555,505.04 to the endowment of the College and a further sum of about $95,000.00 for current expenses, besides securing an additional gift of $150,000.00 from the General Education Board.

Under this plan the following funds and memorials have been established:

ADMISSION TO THE COLLEGE

LIMITATION OF NUMBERS

In accordance with a vote of the Boards, the total number of students residing in College is limited to about five hundred, and the number of students in the Freshman class is limited to about one hundred and fifty.

The College in selecting a Freshman class, shows a preference for candidates who offer for admission the subjects required for the course leading to the degree of A.B. Preference is shown for those candidates for the degree of B.S. who offer for admission the College's regular and approved subjects only, with no so-called free margin units, and who present the largest proportion of those subjects which demand two or more years of study and receive two or more units of credit.

Applications for admission should be filed with the Dean before June 20, 1928.

Subjects in which Examinations are held

Candidates for admission to the Freshman Class are examined in the following subjects:

**CHEMISTRY**

The ground covered should be that included in any good first-year text-book. Candidates for examination will be expected to answer, in clear English, questions upon the fundamental chemical laws and the preparation, properties, and uses of common chemical substances, and to solve simple arithmetical examples based upon chemical reactions.

**ENGLISH**

Preparation in English has two main objects: command of correct and clear English, spoken and written; ability to read with intelligence and appreciation.

*Grammar and Composition:*—The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school; and correct spelling and grammatical accuracy should be rigorously exacted
in all written work during the whole course. The principles governing punctuation, diction, sentences, paragraphs, and whole compositions should be carefully studied; and practice in composition, oral as well as written, should extend throughout the secondary-school period. Written exercises may well comprise letter-writing, narration, description, and easy exposition and argument. It is advisable that subjects for this work be taken from the student's personal experience, general knowledge, and studies other than English, as well as from his reading in literature. Special instruction in language and composition should be accompanied by concerted effort of teachers, whatever subjects they teach, to cultivate in the student the habit of using good English in all recitations and exercises, whether oral or written.

**Literature:**—The second object requires intelligent reading in considerable amount. The student should read carefully, but his attention should not be so fixed upon details that he fails to appreciate the main purpose and charm of what he reads. He should be trained in reading aloud, and should be encouraged to commit to memory notable passages in both verse and prose. He should learn the most important facts in the lives of the authors whose works he reads and should know their places in literary history.

Candidates will have the option of taking either of two examinations: (1) a "Restricted" examination, based in part on a prescribed list of books; (2) a "Comprehensive" examination.

**Restricted Examination:**—This examination will be divided into two parts: English A, on grammar and composition, and the books for Reading; and English B, on the books for Study. This examination may also be divided between two years, one part taken as a preliminary and the other as a final, and when it is thus divided each part will include a test in grammar and composition.

**English A. Grammar and Composition.** The candidate may be asked to construe sentences, to parse words, and to correct mistakes in usage. The main test in composition will consist of one or more essays, developing an idea through several paragraphs; the subjects will be drawn from the books listed below under Reading, from the candidate's other studies, and from his
personal knowledge and experience quite apart from reading. Several subjects for essays, perhaps eight or ten, will be given, from which the candidate may make his own selections.

Books for Reading. The candidate may be asked general questions, to test his knowledge and appreciation of the books read in preparation for this part of the examination. He will also be required to present to the examiner a list of these books, signed by the principal of the school in which he studied.

English B. In this part of the examination the candidate will be asked questions upon the content and form of the books prescribed for Study, and upon the meaning of words, phrases, and allusions. Questions may also be asked concerning the lives of the authors, their other works, and the periods of literary history to which they belong.

However accurate in subject-matter, no paper in either English A or English B will be considered satisfactory if it is seriously defective in punctuation, spelling, grammar, or other essentials of good usage.

Prescribed Books For Students Entering in 1928, 1929, and 1930.

Reading:—From each group two selections are to be made, except that for any book in Group 5 a book from any other group may be substituted.

Group 1. Cooper's The Last of the Mohicans; Dickens's A Tale of Two Cities; George Eliot's Silas Marner; Scott's Ivanhoe, or Quentin Durward; Stevenson's Treasure Island, or Kidnapped; Hawthorne's The House of the Seven Gables.

Group 2. Shakespeare's The Merchant of Venice, Julius Cæsar, King Henry V, As You Like It, The Tempest.

Group 3. Scott's The Lady of the Lake; Coleridge's The Ancient Mariner; and Arnold's Sohrab and Rustum; a collection of representative verse, narrative and lyric; Tennyson's Idylls of the King (any four); the Æneid or the Odyssey in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of the Odyssey; Longfellow's Tales of a Wayside Inn.

Group 4. The Old Testament; the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther; Irving's The Sketch Book (about 175 pages); Addison and Steele's The Sir Roger de Coverley Papers; Macaulay's Lord Clive, or History of England, Chapter III; Franklin's Autobiography; Emerson's Self-Reliance, and Manners.

All selections from this group should be works of recognized excellence.

Study:—One selection is to be made from each of Groups 1 and 2, and two from Group 3.

Group 1. Shakespeare's Macbeth, or Hamlet.

Group 3. Burke's Speech on Conciliation with America; Macaulay's Life of Johnson; Arnold's Wordsworth, with a brief selection from Wordsworth's Poems; Lowell's On a Certain Condescension in Foreigners, and Shakespeare Once More.

Comprehensive Examination. This examination is intended to be a comprehensive test of the candidate's fitness to undertake college work in English. The questions on grammar and composition will be similar in nature to those of the "Restricted" examination, and will afford the candidate an opportunity to show that he has a competent knowledge of English usage and can put his thoughts into good English. The questions on literature will be designed to test power to understand and appreciate good literature rather than knowledge of particular books. Selections in prose and verse which the candidate presumably has not read will be set before him, and he will be questioned about their content and form. He will be expected to explain the meaning of passages of some difficulty; to distinguish between different styles and verse forms; and to show a knowledge of the simpler principles of structure in novels and plays, with illustrations from works with which he is familiar. It will therefore be necessary for him to have read with care a considerable amount of literature similar in kind to the books for Reading and Study specified above.

The "Comprehensive" examination is not given by the College and candidates choosing this plan must take the examina-
tion set by the College Entrance Examination Board in June. Additional information concerning this plan may be obtained from the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York City.

FRENCH

The admission requirements in elementary and advanced French are those recommended by the Modern Language Association of America.

I. Elementary French. The first year's work should comprise: (1) careful drill in pronunciation; (2) the rudiments of Grammar, including the inflection of the regular and more common irregular verbs, the plural of nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; order of words in the sentence, and elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in memory the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (4) the reading of 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing French from dictation.

The second year's work should comprise: (1) the reading of 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler uses of the conditional and subjunctive.

II. Advanced French. This should comprise the reading of 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of
selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Candidates offering either Elementary or Advanced French are expected to be familiar with the alphabet of the Association Phonétique Internationale.

**GERMAN**

The admission requirements in elementary and advanced German are those recommended by the Modern Language Association of America.

I. **Elementary German.** The first year's work should comprise: (1) careful drill upon pronunciation; (2) memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar, that is, upon the inflection of the articles, of such nouns as belong to the language of everyday life, of adjectives, pronouns, weak verbs, and the more usual strong verbs, also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (5) the reading of 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in reproducing from memory sentences previously read.

The second year's work should comprise: (1) the reading of 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in translating into German easy variations upon the matter read, also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of grammar, directed to the end of enabling the pupil, first, to use his knowledge with facility in forming sentences, and, secondly, to state his knowledge correctly in the technical language of grammar.

II. **Advanced German.** The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, para-
Admission

phrases, abstracts, or reproductions from memory of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with especial reference to the infinitive and subjunctive), and likewise upon word order and word formation.

GREEK

The examination will be adapted to the proficiency of those who have studied Greek in a systematic school course of five exercises a week, extending through two or three school years.

I. ELEMENTARY GREEK. The examination may be taken by candidates who have studied Greek at least two years. It will consist of three parts:

1. The translation at sight of passages of simple Attic prose.
2. A thorough examination upon Xenophon's Anabasis, Books I-IV, with the purpose of testing the candidate's mastery of the ordinary forms, constructions, and idioms of the language.
3. The writing of simple Attic prose, involving the use of such words, constructions, and idioms only as occur in the prescribed books of Xenophon.

II. ADVANCED GREEK. This examination, which must be preceded by the examination in Elementary Greek, may be taken by candidates who have studied Greek at least three years. It will consist of two parts:

1. The translation at sight of passages of Attic prose and of Homer, with questions on forms, constructions, and idioms, and on prosody.
2. The translation into Attic prose of a passage of connected English narrative. The passage set for translation will be based on some portion of the prescribed books of the Anabasis, and will be limited to the subject matter of that work.

HISTORY (INCLUDING HISTORICAL GEOGRAPHY)

The examinations in history will call for comparisons of historical characters and periods, for summaries of institutional development, and in general for exercise of judgment as well as memory. A knowledge of historical geography, which will be tested by an outline map, is essential. The amount of col-
lateral reading which has been done by the student will be taken into consideration. In general, all schools are urged to take steps to make their courses conform as far as possible to the recommendations of the Committee of Seven.

I. Ancient History. A year's course with special emphasis on the history of Greece and Rome.

II. Greek History. To the death of Alexander, with due reference to Greek life, literature, and art.

III. Roman History. To 800 A.D., with due reference to government and institutions.

IV. English History. With special reference to social and political development.

V. American History. With special attention to the development of political and social institutions.

VI. Mediæval History. To the Renaissance.

VII. Modern European History. From the Renaissance.

Candidates are advised not to take entrance examinations in History without having received instruction in school courses or from competent tutors.

LATIN

I. Amount and Range of the Reading Required

1. The Latin reading required of candidates, without regard to the prescription of particular authors and works, shall be not less in amount than Cæsar, Gallic War, I-IV; Cicero, the speeches against Catiline, for the Manilian Law, and for Archias; and Virgil, Æneid, I-VI.

2. The amount of reading specified above shall be selected by the schools from the following authors and works: Cæsar (Gallic War and Civil War) and Nepos (Lives); Cicero (speeches, letters, and De Senectute) and Sallust (Catiline and Jugurthine War); and Virgil (Bucolics, Georgics, and Æneid), and Ovid (Metamorphoses, Fasti, and Tristia.)

II. Subjects and Scope of the Examinations

1. Grammar and Composition. The examinations in grammar and composition will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with the ability to use this knowledge in writing simple Latin
prose. The words, constructions, and range of ideas called for in the examinations in composition will be such as are common in the reading of the year, or years, covered by the particular examination.

2. 

Prescribed Reading. There are no prescriptions as to definite Books of Cæsar or Lives of Nepos, except as outlined in I, 1-2.

Candidates will be examined also upon the following prescribed reading: Cicero, the first oration against Catiline, the oration for Archias, and chapters 52-60 of Part IV of the Actio Secunda of the oration against Verres; Virgil, Æneid, III and VI; Ovid, Metamorphoses, I, 313-415 (Deucalion and Pyrrha), II, 1-328 (Phaethon), VII, 1-158 (The Golden Fleece), VIII, 616-724 (Philemon and Baucis), X, 560-680 (Atalanta’s Race). Questions will be asked on the subject-matter, literary and historical allusions, and prosody.

3. Translation at Sight. Candidates will be examined in translation at sight of both prose and verse. The vocabulary, constructions, and range of ideas of the passages set will be suited to the preparation secured by the reading indicated above. Every paper in which passages from the prescribed reading are set for translation will contain also one or more passages for translation at sight, and candidates must deal satisfactorily with both of these parts of the paper or they will not be given credit for either part.

At Bowdoin College the grouping of subjects is as follows:

A. First two years of Latin, especially for candidates for the degree of B.S. An examination will be set including grammar, the writing of simple Latin prose, and the translation of passages from Cæsar and Nepos.

B. Elementary Latin, covering the first three years of Latin. Grammar, Latin Prose based on Cæsar, and translation from both Cæsar or Nepos, and Cicero or Sallust.

C. Comprehensive Latin, covering four years of Latin. Latin Prose based on Cicero, and translation of three passages, one each from either Cæsar or Nepos, Cicero or Sallust, and Virgil or Ovid.

E. Senior Latin, covering fourth year of Latin. Grammar, Latin Prose based on Cicero, and translation from Virgil and Ovid.

F. Advanced Latin, covering the third and fourth years of Latin. Grammar, Latin Prose based on Cicero and translation from both Cicero or Sallust, and Virgil or Ovid.

**MATHEMATICS**

The present definition of the requirements in Mathematics is in accordance with recommendations made by a committee of the American Mathematical Society.

I. **ELEMENTARY ALGEBRA.** The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions and ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and of numbers; exponents, including the fractional and negative; quadratic equations, both numerical and literal; simple cases of equations, with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations; problems depending on quadratic equations; the binomial theorem for positive integral exponents; the formulas for the $n$th term and the sum of the terms of arithmetical and geometric progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

II. **ADVANCED ALGEBRA.** Permutations and combinations, limited to simple cases; complex numbers with graphical representation of sums and differences; determinants, chiefly of the second, third, and fourth orders, including the use of minors and the solution of linear equations; numerical equations of higher degree, and so much of the theory of equations with graphical methods, as is necessary for their treatment, including
Descartes's rule of signs and Horner's method, but not Sturm's functions of multiple roots.

III. Plane Geometry. The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems, applications to the mensuration of lines and plane surfaces.

IV. Solid Geometry. The usual theorems and constructions of good text-books, including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle; the solution of numerous original exercises, including loci problems; applications to the mensuration of surfaces and solids.

V. Plane Trigonometry. Definitions and relations of the six trigonometric functions as ratios; circular measurement of angles; proofs of principal formulas in particular for the sine, cosine, and tangent of the sum and the difference of two angles, of the double angle and the half angle, the product expressions for the sum or the difference of two sines or of two cosines, etc.; the transformation of trigonometric expressions by means of these formulas; solution of trigonometric equations of a simple character; theory and use of logarithms (without the introduction of work involving infinite series); the solution of right and oblique triangles and practical applications.

PHYSICS

Physics as represented by any standard text-book. Candidates must be able to solve numerical examples under the various sections, must have performed forty experiments of a grade equivalent to those found in the text-books of Black and Davis, or Millikan, Gale, and Bishop, and must have a notebook containing a written description in their own language of their experiments with all their calculations. These notebooks must be certified by their instructors and presented at the examination.
Terms of Admission

The subjects which have been mentioned in the previous pages may be presented in satisfaction of the requirements for admission to the Freshman class in Bowdoin College under the following conditions. The basis of the system is the work represented by a course pursued five hours per week for a period of thirty-eight weeks. Such a course counts one unit.

To enter free from conditions, a candidate for admission must offer subjects amounting in all to 14½ units.

I. For the Degree of A.B. The following subjects aggregating 9½ units are required:

- English ......... 3
- Latin, Elementary ...... 3
- Algebra .................................. 1½ (or 2)*
- Plane Geometry ......... 1
- History, from the list below ........... 1

(It is recommended that candidates for the degree of A.B. offer Ancient History to fulfill this requirement.)

Subjects amounting to 5 units must be elected from the following list:

- Latin, Advanced ...... 1
- Greek, Elementary ...... 2
- Greek, Advanced ...... 1
- French, Elementary ...... 2
- French, Advanced ...... 1
- German, Elementary ...... 2
- German, Advanced ...... 1
- Chemistry ............. 1

- Algebra, Advanced ...... ½

Solid Geometry ...... ½
Trigonometry ...... ½†
Ancient History ...... 1‡
Greek History ...... ½
Roman History ...... ½
Mediæval History ½ (or 1)‡
Modern European
History ...... ½ (or 1)‡
English History ...... ½ (or 1)‡
American History ...... ½ (or 1)‡

If Elementary Greek is not presented, the candidate for admission must offer either Elementary French or Elementary German.

Candidates are strongly recommended to present Advanced Latin for admission. If it is not presented, the student is re-

quired to take in college, either Latin A-B, or Greek A-B and 1, 2.

II. For the Degree of B.S. The following subjects aggregating 8½ units are required:

- English .......................................................... 3
- Algebra ......................................................... 1½ (or 2)*
- Plane Geometry .............................................. 1
- Latin, Greek, French, or German .................. 2
- History, from the list below ....................... 1

Subjects amounting to 6 units must be elected from the following list:

Certificates for credits in Spanish, before a candidate has presented credits amounting to 12½ units from the subjects listed in I and II, will be accepted only on special vote of the Recording Committee.

The College believes that the subjects mentioned in I and II are the best preparation for a college course as given at Bowdoin at present and strongly advises candidates to make their preparation from these courses exclusively.§ The College also recognizes the fact that High Schools are requesting credit for

*Algebra will count as 2 units if reviewed in senior year or if the examination be taken in senior year.
†Certificates in Trigonometry for admission will not be accepted; an examination set by the College must be taken.
‡Ancient, Mediæval, Modern European, English, or American History will count as 1 unit if the work is continued throughout a year for 5 full periods a week.
§See page 41, Limitation of Numbers.
other subjects which have educational value. It is therefore willing to consider applications for credit amounting to not more than 2 units for work in the following free margin subjects: Botany, Civics, Music (Harmony), and Physical Geography. (Credit for fractional parts of a unit will not be granted in free margin subjects.) All such applications will be treated individually, and will not be considered unless the candidate has credit for 12½ units from the subjects listed in I or II. Decisions regarding the acceptance of free margin units will not be made until August 1. The principal may apply for such credit and the Recording Committee of the College may give credit as the case warrants.

**Methods of Admission**

**ADMISSION BY EXAMINATION**

**Examinations at the College.** The regular examinations for admission to college will be held in Bannister Hall, in Brunswick, on Monday, Tuesday, and Thursday, May 28, 29, and 31, 1928, and on Monday, Tuesday, and Wednesday, September 24, 25, and 26, 1928, according to the schedule printed on the following page. *Credits for admission gained as the result of September examinations will not be accepted until the following year if the Freshman quota is already filled.*

The examinations are chiefly in writing.

**Examinations at Maine Preparatory Schools.** Printed examination papers in certain of the subjects required for admission to college will be furnished to the principal of any high school or academy in Maine of good standing, having a regular college preparatory course of not less than four years in length, for the use of such of his students as propose to join the Freshman class at Bowdoin. In exceptional cases, the conduct of the examinations may, on the recommendation of the principal, be entrusted to some other person approved by the Faculty.

The following are the subjects in which papers will be sent: 1. Chemistry; 2. English; 3. French; 4. German; 5. Greek; 6. History (Greek, Roman, Mediaeval, Modern European, English, and American); 7. Latin; 8. Mathematics (Algebra and Plane Geometry); 9. Physics; 10. Spanish.
No papers will be sent in Advanced Mathematics. The entrance examinations in these subjects can be taken only at Brunswick, and written applications for such examinations should be sent to the Dean at least three days before the examination dates.

In holding entrance examinations elsewhere than in Brunswick, the following regulations are to be observed:

1. Papers are sent only in May. The dates for holding the examinations in 1928 are May 28, 29, and 31. Under no circumstances will papers be sent for any other dates.

2. Applications for papers, addressed to the Dean, must be received not later than May 19, and should state the name of the school, the subjects in which papers are desired, and the number of students to be examined in each subject.

3. Printed examination papers, together with the requisite number of blue-books, will be sent to the principal by express prepaid, in time for the examinations. On the completion of the examinations, the books are to be returned at once by express at the expense of the College.

4. The examinations are to be conducted by the principal in conformity with a schedule of hours fixed by the College.

For 1928 the schedule of examinations is as follows:

Monday, May 28,
9-12 a.m., History,
2-5 p.m., Latin,
7-9 p.m., Chemistry.

Tuesday, May 29,
9-12 a.m., English,
2-5 p.m., French,
7-9 p.m., Physics.

Thursday, May 31,
9 a.m.-1 p.m., Mathematics,
2-5 p.m., German, Greek, or Spanish.

Monday, September 24,
9-12 a.m., History,
2-5 p.m., Latin,
7-9 p.m., Chemistry.

Tuesday, September 25,
9-12 a.m., English,
2-5 p.m., French,
7-9 p.m., Physics.

Wednesday, September 26,
9 a.m.-1 p.m., Mathematics,
2-5 p.m., German, Greek, or Spanish.

Examinations are also held at Thornton Academy, Saco; at Washington Academy, East Machias; at Fryeburg Academy;
and at Lincoln Academy, Newcastle; these schools having been made special fitting schools for Bowdoin College by the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

The entrance examinations may, if the candidate prefers, be divided between two or more successive years, or between June and September of the same year. In that case a certificate will be given for such subjects as are passed at each examination.

A report of the results of the examinations, whether at Brunswick or elsewhere, is made to the candidate, within two weeks after Commencement.

College Entrance Examination Board. The certificates, issued as the result of examinations which are held by the College Entrance Examination Board from June 18 to 23, 1928, will be accepted by the College in so far as they meet the requirements for admission.

Examinations will be held in nearly 400 towns and cities in the United States and abroad.

Blank forms for the "Application for Examination" and the "Teacher’s Recommendation" may be obtained from the Secretary of the College Entrance Examination Board upon request by mail. The Application should be returned to the College Entrance Examination Board, 431 West 117th Street, New York City. The Recommendation should be sent directly to the Committee on Admission of the college concerned.

If the application be received sufficiently early, the examination fee will be $10.00 for each candidate. The fee, which should accompany the application, should be remitted by postal order, express order, or draft on New York to the order of the College Entrance Examination Board.

Applications and fees of candidates who wish to be examined outside of the United States and Canada should reach the Secretary of the Board at least six weeks in advance of the first day of the examinations, that is, on or before May 7, 1928. Applications and fees of candidates who wish to be examined in the United States at points west of the Mississippi River or in Canada should be received at least four weeks in advance of the first day of the examinations, that is, on or before May 21, 1928. Applications and fees of candidates who wish to be ex-
Admission

examined in the United States at points east of the Mississippi River or on the Mississippi River should be received at least three weeks in advance of the first day of the examinations, that is, on or before Monday, May 28, 1928.

When a candidate has failed to obtain the required blank form of application for examination, the usual examination fee will be accepted if the fee arrives not later than the specified date accompanied by a memorandum containing the name and address of the candidate, the exact examination center selected, and a list of all the subjects in which he expects to take the Board examinations.

Applications for examinations will be accepted later than the dates named, if in the opinion of the Secretary it is still possible to arrange for the examinations requested, but only upon the payment of an additional fee of $5.00 by each candidate concerned.

A list of places at which examinations are to be held in June, 1928, will be published about March 1. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1. The designation of the center to which the candidate will go for examination is an indispensable part of his application for examination.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1 by the College Entrance Examination Board. Upon request a single copy of this document will be sent to any teacher without charge. In general a charge of twenty-five cents, which may be remitted in postage, will be made.

ADMISSION BY CERTIFICATE

In place of examinations, certificates will be received from preparatory schools in New England which have been approved by the New England College Entrance Certificate Board. This Board is an association of colleges established for the purpose of receiving, examining, and acting upon all applications of schools in New England which ask for the privilege of certification. The associated colleges are Amherst, Bates, Boston Uni-
versity, Bowdoin, Brown, Clark, Colby, Massachusetts Agricultural College, Middlebury, Tufts, Wesleyan, and Williams. Certificates are in all cases passed upon by the individual college; but students are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before April 1st of each year to the Secretary of the Board, Professor Frank W. Nicolson, Wesleyan University, Middletown, Conn.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list can be obtained on presentation of evidence of qualification.

Blank certificates for admission to Bowdoin College may be had by principals on application to the Dean.

ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes, are admitted only upon vote of the Faculty, after the receipt of proper evidence of their qualifications to pursue the studies of the classes to which they seek entrance. Candidates are not admitted to the Senior class after the beginning of the Second Semester, and they are not eligible for a degree until they have been a full year in residence.

Applications for admission to advanced standing should be addressed to the Dean.

SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class. During the first year of residence no student in special standing is allowed to participate in intercollegiate athletics.

Applications for admission as special students should be addressed to the Dean.
TESTIMONIALS AND CERTIFICATES
Testimonials of good moral character must in all cases be presented before certificates of admission are granted. Letters from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. A student from another college, before he can be admitted, must present a certificate of honorable dismissal.

BOND
A bond for two hundred dollars, with satisfactory sureties, must be filed with the Treasurer by every student on his admission to college, as security for the payment of his term bills and any other charges that may arise under the college laws. A blank form for this purpose will be given with the certificate of admission.

Curricular Requirements
REQUIRED COURSES
Good English is required both in spoken and in written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in English, whether in the details of spelling or grammar or in the larger matter of clear expression of ideas, is reported to the Committee on Undergraduate English, and may be required to receive special instruction intended to correct these deficiencies. No student so reported will be recommended for a degree unless he has satisfied the Committee.

All students are required to take each year a course in Physical Training.

FRESHMAN YEAR. All students are required to take
(1). Hygiene, the first semester; and English 4, the second semester; and
(2). English 1-2; and
(3). One of the following: Government 1-2; or Physics 1-2; or a second acceptable elective from (5), below; and
(4). To comply with the requirements in modern languages as set forth below:
An elementary knowledge of both French and German, and a more advanced knowledge of one of these languages.
An elementary knowledge is defined as the equivalent of that obtained by passing French 1-2 or German 1-2.

A more advanced knowledge is defined as the equivalent of that obtained by passing French 3-4, or German 3-4, or German 5-6.

All students who presented French or German for admission shall, unless excused by the provisions of the following paragraph, continue during Freshman year the language presented for admission and shall take during Sophomore year French 1-2 if German was presented for admission, or German 1-2 if French was presented for admission.

Students are strongly advised to meet the requirements of a more advanced knowledge of French or German by passing the courses indicated above; but any student may, with the consent of the Dean, meet this requirement by passing before the beginning of the Sophomore year a special examination in French or German.

Students who present both French and German for admission will fulfill all modern language requirements either by continuing one of these languages during Freshman year or by passing a special examination in one of them in accordance with the preceding paragraph.

No student shall be advanced to Senior standing until he has completed his modern language requirements.

These requirements became effective with the Class entering in 1927.

Note.—Students who entered before 1927 are referred to the Annual Catalogue of 1925-1926 for the requirements in Modern Languages.

and

(5). To comply with the special requirements for the A.B. or B.S. degree as set forth below:

Candidates for the degree of A.B. who presented four years of Latin for admission may elect either Greek A-B, or Latin 1, 2, or Mathematics 1, 2.
Curricular Requirements

Candidates for the degree of A.B. who presented only three years of Latin for admission are required to take either Greek A-B, or Latin A-B.

Candidates for the degree of B.S. who wish to transfer to the A.B. course, and who presented only two years of Latin for admission, are required to take Greek A-B.

Candidates for the degree of B.S. are required to take Mathematics I, 2.

Sophomore Year. Students who presented four years of Latin for admission, and in their Freshman year took Greek A-B, are required to take either Greek I, 2, or Latin I, 2, or Mathematics I, 2.

Students who presented only three years of Latin for admission, and in their Freshman year took: (a) Greek A-B, are required to take either Greek I, 2, or Latin A-B; or took (b) Latin A-B, may elect either Greek A-B, or Latin I, 2, or Mathematics I, 2.

Students who transferred from the B.S. Course, and who presented only two years of Latin for admission, and who in their Freshman year took Greek A-B, are required to take Greek I, 2.

Junior Year. Students who presented only three years of Latin for admission and in their Freshman year took Greek A-B, and in their Sophomore year took: (a) Greek I, 2, may elect either Greek 3, 4, or Latin A-B, or Mathematics I, 2; or took (b) Latin A-B, may elect either Greek I, 2, or Latin I, 2, or Mathematics I, 2.

Students who presented only three years of Latin for admission, and in their Freshman year took Latin A-B and in their Sophomore year took Greek A-B, are required to take Greek I, 2; or Latin I, 2; or Mathematics I, 2.

Students who transferred from the B.S. Course, and who presented only two years of Latin for admission, and in their Freshman year took Greek A-B and in their Sophomore year took Greek I, 2, may elect either Greek 3-4, or Mathematics I, 2.

GENERAL COURSES

Candidates for the degree of A.B. or B.S. must have completed before graduation one year's work in each of the first three groups listed below and two years' work in group 4.
1. History, Philosophy.

Candidates for the degree of B.S. must have completed a second year's work in group 3, above.

Required and General Courses must be taken, so far as possible, before free electives.

**ELECTIVE COURSES**

In order to be eligible for a degree a candidate must have completed thirty-four semester courses, or their equivalent, (year courses are equivalent to two semester courses), in addition to Hygiene, English 4, and four courses in Physical Training. These courses, except those mentioned above under Required Courses, which students must take at the times designated, are all elective, but subject to the following regulations:

1. Each student, whether Regular or Special, is required to take four full courses each semester in addition to the required work in Physical Training, Hygiene, and English 4.
2. Each regular student is required to take a fifth course during any two semesters after the Freshman year.
3. No student is allowed to elect more than one extra course in any semester unless one-half of his grades for the previous semester have been B, or higher, and then not without the consent of the Dean.

**EXAMINATION GROUPS**

Courses are arranged in sixteen examination groups, as printed below. Whole year courses are marked by hyphens. No student may elect more than one course at a time in any one of these groups. Examinations in Chemistry 9, 10, History 13, 16, Zoölogy 7-8 will be scheduled by the instructors concerned.

*The following courses do not contribute toward meeting the requirement in General Courses: Biology 9, Botany; French 1-2, 3-4; German 1-2, 3-4, 5-6; Greek A-B; Italian 1-2; Latin A-B, 1, 2; Mathematics 1, 2, 9, 10; Sociology 1, 2, 4; Spanish 1-2.

MAJORS AND MINORS

Each student is required to have completed before graduation one major and two minors. He must choose his major by the end of his Sophomore year, and must submit the courses chosen for the approval of the department in which the major is taken. He must also choose two minors at the same time, and must submit them for advice to the department in which the major is to be taken.

Definitions. A Major is a subject pursued through three consecutive years, or the equivalent of three years. A Minor is a subject pursued through two consecutive years.

Each student in his Senior year, in order to test his general grasp of his major subject, must pass a special examination or complete other special work prescribed by the department in which he is majoring. A grade of at least C must be maintained in more than half the courses of the major subject.

[Effective with the Class of 1929.]

The departments, in which majors may be elected, have designated below, the courses constituting majors.

(In the following table a semester course is called a unit. Year courses are equivalent to two units.)

Biology. Course 1-2, Botany 1, and any three other units.
Chemistry. Courses 1-2, 3, 5, 6, 7.
Economics and Sociology. Economics 1-2, Sociology 1, and any three other units.
French. Any six units, other than Courses 1-2 and 3-4.
German. Courses 11, 12, and any four other units.
Government. Any six units; or any four units and either History 7-8, or 9, 10, or 11, 12.
Greek. Any six units, other than Course A-B.
History. Any six units, other than Courses 1, 2; or any four units, (other than Courses 1, 2), and Government 3, 4.
Latin. Course 1-2; two units from 3, 4, 5, 6; and two units from 7, 8, 9, 10.
Mathematics. Courses 1, 2, 3, 4, 5, 6.
Philosophy and Psychology. Any six units.
Physics. Courses 5-6, 7-8, 9-10.

All courses offered in all departments, except Greek A-B and Latin A-B, count toward minors.
COURSES OF INSTRUCTION

ART

Professor Andrews

1-2a. Greek Sculpture and Architecture of the Fifth and Fourth Centuries. Special half-year course; second semester: Tuesday, Thursday, Saturday, 8.30.
   Elective for Juniors and Seniors.

[1. The Art of Antiquity. First semester: Tuesday, Thursday, Saturday, 8.30.]
   Omitted in 1927-1928; to be given in 1928-1929.
   A general study of Ancient Art from prehistoric days to the Middle Ages, with a somewhat detailed consideration of the more important monuments and relics of Egypt, Mesopotamia, Greece, and Rome.
   Elective for Juniors and Seniors, and Sophomores with the consent of the instructor.

   Omitted in 1927-1928; to be given in 1928-1929.
   A review in outline of architectural development from the beginning of the Middle Ages to the present day, with a more particular examination of conspicuous examples of the Early Christian, Byzantine, Mohammedan, Romanesque, Gothic, and Renaissance styles. Text-book: Kimball and Edgell's History of Architecture.
   Prerequisite, either Course 1, or a special report on the Greek Orders to be prepared under the direction of the Instructor.

5-6a. Italian Painting and Sculpture of the Renaissance. Special half-year course; second semester: Tuesday, Thursday, Saturday, 11.30.
   Elective for Juniors and Seniors.

[5-6. The Painters and Sculptors of the Renaissance. Whole year: Tuesday, Thursday, Saturday, 11.30.]
   Omitted in 1927-1928, and in 1928-1929.
   A summary view of Renaissance Painting and Sculpture, with special emphasis on the works of Leonardo da Vinci, Raphael, Michelangelo, and Correggio, in Italy; of the Van Eycks in Flanders; and of Dürer and Holbein in Germany.
   Elective for Sophomores, Juniors, and Seniors.
Courses

[7-8. Modern Painting and Sculpture. Whole year: Tuesday, Thursday, Saturday, 11.30.]

Omitted in 1927-1928; to be given in 1928-1929.

A study of the European Painting and Sculpture of the seventeenth, eighteenth, and nineteenth centuries, following the outline of the text-book, stressing the work of Velasquez, Rembrandt, Rubens, and Van Dyck.

Elective for Sophomores, Juniors, and Seniors.

The work in each course consists of recitations on the text of Reinach's Apollo; (except in Course 2, in which Kimball and Edgell's History of Architecture will be used); lectures, illustrated by lantern slides; the examination of the collections in the Walker Art Building; and the writing of special reports based on assigned collateral reading.

ASTRONOMY

Professor Little

1. Descriptive Astronomy. First semester: Tuesday, Thursday, Saturday, 9.30.

A non-mathematical course giving a general survey of our present knowledge of the positions, motions, shapes, sizes, masses, physical conditions, and evolutions of all types of the heavenly bodies.

The telescopes at the observatory are used in illustration, as well as many charts, photographs, and pictures.

Text-book: Duncan's Astronomy.

Elective for Sophomores, Juniors, and Seniors.

2. Practical Astronomy. Second semester: at the same hours.

Elements of spherical trigonometry with applications to simple problems in navigation and surveying. Observatory work; problems in time, latitude, and longitude; use of the sextant, transit, telescope, etc.

Prerequisites, Mathematics, 1, 2.

BIOLOGY

Zoology

Professors Copeland and Gross

1-2. General Introduction to Zoology. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday, 1.30. Laboratory work on the same days at 2.30 or 3.30.

Professor Copeland
The lectures in Course 1-2 are designed to give a general introduction to the subject of Zoology. The classification, distribution, morphology, physiology, ecology, and evolution of animals are discussed. Representative types from the lower groups of animals to the vertebrates are studied in the laboratory. Some exercises in addition are based on animal cytology, histology, embryology, and physiology. The exercises involve the use of the microscope, and the student is given practice in dissecting. This course is intended for beginners, and for those wishing to gain a comprehensive view of the subject.

Elective for Sophomores, Juniors, and Seniors, and required of Freshmen in the Medical Preparatory Course.

[3-4. Comparative Anatomy of Vertebrates. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.] Professor Gross

Omitted in 1927-1928; to be given in 1928-1929.

Course 3-4 deals with the morphology of vertebrates from a comparative standpoint, and illustrates the evolution of animals from the fishes to the mammals. The classification of the chordates, theories of vertebrate structure, and the homologies of organs are discussed. The dogfish, necturus, and turtle are used as the types of vertebrates for study and dissection. Dissections of other forms, especially the pigeon, are used for demonstrating homologous organs. The laboratory work of the second semester is devoted to the study of the cat, but comparisons of systems of organs are constantly made with those of animals studied earlier in the course.

Elective for those who have passed or are taking Course 1-2.

5. Microscopical Anatomy. Lectures and laboratory work. First semester: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.

Prerequisites, any two courses from 3, 4, 5, 6.

LITERATURE

PRESIDENT SILLS

A study in some of the more important literary works of classical and mediaeval periods, with particular emphasis on their influence upon later literature.

2. Continuation of Course 1. Second semester: at the same hours.

A study of the more important literary works of the Renaissance from Dante to Shakespeare.
Elective for Juniors and Seniors.

MATHEMATICS

PROFESSOR HAMMOND, ASSISTANT PROFESSOR MILLER, AND MR. LANE

2. Continuation of Course 1. Second semester: at the same hours.

PROFESSOR HAMMOND, ASSISTANT PROFESSOR MILLER, AND MR. LANE
Courses of Instruction

Trigonometry and selected topics from algebra and elementary analytic geometry.

3. Analytic Geometry and Calculus. First semester: Monday, Wednesday, Friday, 11.30. Professor Hammond

Selected topics in differential and integral calculus.
Prerequisites, Courses 1, 2.

5. Calculus. First semester: Monday, Wednesday, Friday, 11.30. Assistant Professor Miller
6. Calculus and Differential Equations. Second semester: Monday, Wednesday, Friday, 11.30. Assistant Professor Miller

Continuation of Course 5. Advanced calculus with a textbook, lectures, and collateral reading. Standard methods of solving ordinary differential equations. Applications to geometry, mechanics, and physics.

7. Advanced Mathematics. First semester: Monday, 1.30; Tuesday, Thursday, 11.30.
8. Continuation of Course 7. Second semester: at the same hours. Professor Hammond

The department plans to vary the content of this course from year to year to suit the needs and desires of students and instructors. In previous years courses have been given in Modern Synthetic Geometry, and in Functions of a Complex Variable. In the current year, the course is in Projective Geometry. These subjects may be repeated or others, such as Theoretical Mechanics, or Mathematical Analysis may be offered.

9. Solid Geometry and Spherical Trigonometry. First semester: Monday, Wednesday, Friday, 10.30. Professor Hammond

Prerequisites, Courses 1, 2.

[11. Algebra. First semester: Monday, Wednesday, Friday, 10.30.] Professor Hammond

Omitted in 1927-1928; to be given in 1928-1929.
Selected topics from college algebra.
Prerequisites, Courses 1, 2.

[12. Analytic Geometry. Second semester: at the same hours.] Professor Hammond

Omitted in 1927-1928; to be given in 1928-1929.
Selected topics from analytic geometry of two and three dimensions.
Prerequisites, Courses 1, 2.
MUSIC

ASSOCIATE PROFESSOR WASS

1. Music as an Art. First semester: Tuesday, Thursday, Saturday, 8.30.
   A general study of the development of the Art of Music, preparing one to understand and appreciate musical performances. Sound, musical sound, notation, rhythm, melody, harmony — their evolution and application to modern music. History of music, study of the great composers, their lives, works, and influence upon the development of modern music. Frequent tests by written papers on assigned topics. No technical preparation requisite for this course.
   Elective for Sophomores, Juniors, and Seniors.

2. Continuation of Course 1. Second semester: at the same hours.
   Musical appreciation and history, — advanced. Elements of Theory. Study of musical forms from listeners' standpoint. Assigned readings, oral tests, and written reports.
   Prerequisite, Course 1.

   Elective for Sophomores, Juniors, and Seniors. Courses 1, 2 not prerequisite.

   Lectures and practical work. Collateral reading on history and biography. Study of musical forms with analysis. Study of evolution of music from the primitive folk-song to the symphony of Beethoven. Study of the clefs. Orchestral instruments. Ability to play four part harmony, — like hymn tune, — necessary.
   Prerequisite, Course 3.

5. Counterpoint. First semester: Tuesday, Thursday, Saturday, 10.30.
   Elective for those who have passed Course 4 with a grade of B, or higher.
Courses of Instruction

6. Continuation of Course 5. Advanced Counterpoint. Second semester: at the same hours. Prerequisite, Course 5.

PHILOSOPHY

Professor Mason and Mr. Pollock

1. Introduction to Philosophy. First semester: Monday, Wednesday, Friday, 8.30.

Professor Mason and Mr. Pollock

The aim of this course is to give the student a general survey of the field of philosophy, to show him what the great thinkers have thought about the world and to make clear the more important philosophical points of view. It is arranged to meet the needs of students who want merely a general idea of philosophy as well as those who intend to take the more advanced courses. The nature of knowledge, the nature of reality and of the good and the beautiful, as also the relation of philosophy to science and practical life, are discussed.

Elective for Sophomores, Juniors, and Seniors.

Prerequisite, Course 1.

2. History of Philosophy. Second semester: Monday, Wednesday, Friday, 8.30. Professor Mason and Mr. Pollock

A general account of the history of philosophy with special study of Plato, Aristotle, Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

Elective for Sophomores, Juniors, and Seniors.

Prerequisite, Course 1.

3. Metaphysics. First semester: Monday, Wednesday, Friday, 9.30. Professor Mason

Given in 1927-1928; to be omitted in 1928-1929.

A course in general theoretical philosophy considered systematically. The problems of truth, reality, nature, mind, etc., are taken up both with respect to the fundamental principles involved and to their bearing on the various phases of life and experience. The solution of these problems is considered along the lines suggested by materialism, positivism, dualism, realism, idealism, pragmatism, intuitionism, and other types of thought.

Prerequisites, Course 1, and either Course 2, or Course 4, or Course 6, or Psychology 1-2.

[4. Ethics. Second semester: Monday, Wednesday, Friday, 9.30.] Professor Mason

Omitted in 1927-1928; to be given in 1928-1929.

A systematic study of the theory of morals. The problems of freedom, duty, motive, happiness, the relation of the indi-
individual to society, etc., are discussed, and the interpretations of the various schools of moral philosophy are considered.
Elective for Juniors and Seniors.
Prerequisite, Course 1.

[5. Present Movements in Philosophy. First semester: Monday, Wednesday, Friday, 9.30] Professor Mason
Omitted in 1927-1928; to be given in 1928-1929.
This course covers the main movements of the philosophy of the present day. These movements are traced back to their sources in the history of philosophy and are also considered critically with respect to their application to fundamental philosophical problems. Special study is given to naturalism, realism, pragmatism, and idealism, and the texts of such thinkers as Haeckel, Russell, Bergson, Bradley, James, and Royce are read as examples of those movements.
Prerequisites, Course 1, and either Course 2, or Course 4, or Course 6, or Psychology 1-2.

Given in 1927-1928; to be omitted in 1928-1929.
A study of the history of moral philosophy, including the development of the ancient, mediæval, and modern schools, special attention being given to Plato, Aristotle, Epicurus, the Stoics, Augustine, Hobbes, Spinoza, Kant, intuitionism, utilitarianism, and modern idealism.
Elective for Juniors and Seniors.
Prerequisite, Course 1.

PHYSICS
Professor Little and Assistant Professor Bartlett

1-2. General Physics. Whole year: Tuesday, Thursday, Saturday, 8.30; and a two-hour laboratory exercise each week by appointment. Professor Little
An introductory course covering mechanics, sound, heat, magnetism, electricity, and light. Lectures, demonstrations, textbook, laboratory work, and conferences.
Elective for Freshmen.

3-4. Experimental Physics. Whole year: Tuesday, Thursday, Saturday, 8.30-10.30. Assistant Professor Bartlett
An introductory course covering the field of General Physics with emphasis on laboratory technique.
Elective for Sophomores, Juniors, and Seniors.
5-6. Electricity and Magnetism. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.

**ASSISTANT PROFESSOR BARTLETT**

Direct and alternating current measurement and such theory as is prerequisite to specialization in electrical engineering or advanced work in Physics.

Prerequisites, Physics 1-2, or 3-4, and Mathematics 1, 2.

[7-8. Light. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.] **PROFESSOR LITTLE**

Omitted in 1927-1928; to be given in 1928-1929.

Advanced experimental work in both geometrical and physical optics, the theory of optical instruments, and an introduction to modern views of the nature of light.

Prerequisites, Physics 5-6, and Mathematics 3, 4.

[9-10. Mechanics and Heat. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.] **PROFESSOR LITTLE**

Given in 1927-1928; to be omitted in 1928-1929.

Theoretic introduction to applied mechanics, thermal measurements, and engineering thermodynamics.

Prerequisites, Physics 5-6, and Mathematics 3, 4.

Physics Colloquium.

A bi-weekly conference continued throughout the Junior and Senior years covers the extra-curriculum requirements of all students majoring in Physics.

**PSYCHOLOGY**

**PROFESSOR BURNETT AND MR. POLLOCK**

1-2. General Psychology. Whole year: Tuesday, Thursday, Saturday, 8.30. **PROFESSOR BURNETT**

The aim of this course is to acquaint the student with the facts and the laws of the mind. Emphasis is laid upon those topics which are most intimately connected with practical life and a knowledge of which is highly important for a man of liberal education. The subject-matter is treated from the point of view of natural science. Emphasis is laid upon developing in the student skill to use Psychology for interpreting the events of life and for accomplishing its business.

Elective for Sophomores, Juniors, and Seniors.

3. Abnormal Psychology. First semester: Tuesday, Thursday, Saturday, 9.30. **PROFESSOR BURNETT**

This course considers the abnormal facts of mental life, such as insanity, hypnotism, hysteria, and multiple personality for
the light these throw on borderland states in every man's life. The emphasis is thus on the slightly abnormal phenomena of every day, which interfere with a man's full mental efficiency for work and enjoyment.
Prerequisite, Course 1-2.

4. Social Psychology. Second semester: at the same hours.  

**Professor Burnett**

This course deals with the effect of social conditions on mental life. It inquires into the psychology of human social groups of all sorts, such as nations, legislatures, committees, crowds, publics, unions, associations, etc., and into the operations of group mind revealed in customs, conventions, fashions, institutions, religions, myths, art, and language. It tries to answer the question: How and why does a man when aware of belonging to a group, behave and think and feel otherwise — sometimes better, sometimes worse — than when not aware of that group relationship?

5-6. Experimental Psychology. Whole year: Tuesday, Thursday, Friday, 1.30-3.30.  

**Mr. Pollock**

The object of this course is training in methods of investigation, in the discovery and reliance upon experimental evidence, with especial reference to the particular application to the science of Psychology.
Prerequisite, Course 1-2.
Under certain circumstances this work may be continued for another year.

**SPANISH**

**Professor Livingston, Assistant Professor Gilligan, and Mr. Armfield**

**Assistant Professor Gilligan and Mr. Armfield**

Elective for Sophomores, Juniors, and Seniors.
Course 1-2 may not be elected in the same year with Italian 1-2.

3-4. Advanced Spanish. Whole year: Monday, Wednesday, Friday, 1.30.  

**Professor Livingston**

Reading of Spanish prose and poetry. Composition. Brief general view of Spanish literature.
Prerequisite, Course 1-2, or its equivalent.
MEDICAL PREPARATORY COURSE

A course, not leading to a degree, has been established for students intending to study medicine.

The entrance requirements are the same as for the academic courses.

Students entering this course are required to make affirmation of their purpose to pursue their medical studies after completing the course, with a statement from parent or guardian to that effect, and with the understanding that change to regular standing in the College will be made only by special vote of the Faculty.

Students in this course are required to take: first year: Chemistry 1-2; English 1-2, 4; Hygiene; Zoology 1-2; Physics 1-2. second year: Chemistry 3, 7; Zoology 3-4; French or German; Physics 3-4.

Lectures

ANNIE TALBOT COLE LECTURESHIP

This fund of $4,750.00 was given by Mrs. Calista Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, of Norton, Mass. The incumbent, appointed for one year, gives a series of lectures before the College. These lectures are open to the public. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit an endeavor to make attractive the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music and the fine arts."

BENJAMIN APTHORP GOULD FULLER MEMORIAL FUND

This fund of $3,821.00 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

MAYHEW LECTURESHIP

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of $5,000.00 is used "to provide lectures on bird life and its effect on forestry."
Administration of the College

TERMS AND VACATIONS

The Academic Year is divided into two semesters, or terms, of equal length. Commencement Day is the Thursday after the third Monday in June. The summer vacation of fourteen weeks follows Commencement Day. There are two periods of vacation during the year: the first, a recess of about ten days including Christmas and New Year's; the second, the Easter recess of ten days beginning on Friday of the week before the first day of April, and continuing until Tuesday of the week following the first day of April. The following are also observed as holidays: Armistice Day, Thanksgiving Day, Washington's Birthday, Patriots' Day, Memorial Day, and Ivy Day.

REGISTRATION

All students are required to register on the first day of each semester, except that Freshmen on entering college are required to register on Wednesday morning preceding the opening of the academic year. A fee of two dollars is charged for registration after the opening day.

COLLEGE BILLS

Bills, containing college charges excepting tuition, are mailed to the parent or guardian of each student at the close of each semester; these bills become payable at once.

No student will be advanced in class standing until all the dues of the previous year have been paid; and no degrees will be conferred upon students who have not paid all their dues to the College.

No student will be dismissed from college on request unless he shall have paid all his college bills, including that of the current semester.

During the time that term bills which are overdue remain unpaid a student receives no credit for college work.

EXPENSES

Tuition.—The tuition fee is $250, a year, one-half of which must be paid at the beginning of each semester before a student
is allowed to register. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years.

Other College Charges.—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of $5 is charged to each student at graduation. There is also an annual fee of $2 or $3 for a locker in the gymnasium; and a charge of $10 a semester, to support the various student activities, which is collected by the College.

Rooms.—Rooms, including heat and care, in the college dormitories may be rented at prices varying from $125 to $310 a year. The price may be halved if the room is shared with another student, as is usually done. Electric lights are furnished at the rate of $6 per 25-watt lamp a year. None of the college rooms are furnished. Application for rooms should be made to the Treasurer.

Board.—Board at the fraternity houses and at other places in the town varies from $7 to $8 a week. The College conducts no common dining-room, but accommodations for forty students, preference being given to Freshmen, are provided at a dining club in one of the college buildings.

No attempt is made to estimate such expenses as furniture, traveling expenses, class dues, athletic subscriptions, and fraternity fees, since the taste and character of individual students vary to such a degree that all such estimates are of little value.

A pamphlet on expenses, scholarship aid, and self-help has been prepared, which will be sent gratis on application to the Dean.

FEES FOR COURSES

The payment of fees for extra courses is regulated by the following provisions:

(1) The sum of seven dollars and a half ($7.50) is charged for each extra course (except as provided below in 4), the same to be paid in advance and to be rebated at the close of the semester in which the course is taken, provided the four regular courses and the extra course be passed, and the extra course be not taken to remove a condition previously incurred in that subject or substituted for a condition in some other subject.
(2) Such charges are remitted in the case of Seniors who need the course or courses to complete their work for graduation. (3) Courses repeated for the removal of a condition and courses substituted for such conditions are regarded as extra courses. (4) For Hygiene and English 4 the charge is pro rata whenever these subjects are in question under the preceding provisions.

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, $3.75 each; Mineralogy, $2.50. If two courses are taken at the same time, one of which is not Chemistry 7 or 8, the fee for the two is $5.50. Zoölogy 3, 4, 5, 6, $3 each.

ATTENDANCE AT EXERCISES

Attendance is required of all students at recitations and lectures continuously throughout the semester, and at the daily college prayers which are held on each week-day at 8.20 A.M., and on Sundays at 5.00 P.M.

EXAMINATIONS

The regular examinations of the College are held at the close of each semester.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

RANK

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank of from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

REPORTS OF STANDING

A report of the rank of each student is sent to his parent or guardian at the close of each semester. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.
REQUIREMENTS FOR DEGREES

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

In accordance with a vote of the Boards passed in 1916, upon recommendation of the Faculty, the degree of Master of Arts, in course, is no longer conferred.

DEGREES WITH DISTINCTION

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

*Cum Laude.* A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

*Magna cum Laude.* A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth of his courses.

*Summa cum Laude.* A candidate is recommended for a degree *summa cum laude* who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

HONORS IN MAJOR SUBJECTS

Honors in major subjects are awarded, on vote of the Faculty, to students who especially distinguish themselves in those subjects. They are awarded in three grades: honors, high honors, and highest honors.

The award is based, not primarily on the average grade attained in the courses that constitute the major, but on the result reached in the additional work,—especially that which the student has done largely on his own initiative,—and on his ultimate attainment in the subject.

RELIGIOUS EXERCISES

Prayers are held each week-day morning in the College Chapel, and vesper services are held on Sundays. All students
are required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION

The Young Men's Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

BOARD OF PROCTORS

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1927-1928 are:

The Dean, Chairman

Errol Leon Buker
Arthur Nathaniel Davis
Frank Foster, Jr.
Maurice Edgar Graves

Clifford Leslie Gray
Bradley Packard Howes
Daniel Edwards Kennedy, Jr.
Thomas Eliot Weil

STUDENT COUNCIL

The Student Council is composed of ten members from the Senior class and two from the Junior class elected annually by the undergraduates. In matters pertaining to student affairs it makes recommendations to the student body, and occasionally to the Faculty. The members for the year 1927-1928 are:

Howard Morgan Mostrom, President
Frank Foster, Jr., Vice-President

Edward Melish Fuller
Donald Brown Hewett
Bradley Packard Howes
Bernard Lucas
Fletcher West Means

Arthur Chapin Seelye
Reginald Kittridge Swett
Stephen Dain Trafton
Robert Carr Adams, Jr.
Gordon Danforth Larcom
ATHLETIC COUNCIL

The athletic interests of the College are regulated by the Athletic Council of the Associated Students of Bowdoin College. It consists of fourteen members: the Athletic Director and the Faculty Adviser on Athletics, \textit{ex officio}, two from the Faculty of the College, and five each from the alumni and student bodies. The members for the year 1927-1928 are as follows:

Assistant Professor Malcolm Elmer Morrell, \textit{ex officio}
Assistant Professor Boyd Wheeler Bartlett, \textit{ex officio}

\begin{tabular}{ll}
\textit{Alumni} & \textit{Students} \\
Luther Dana & Howard Morgan Mostrom \\
Thomas Carter White & Stephen Dain Trafton \\
Donald Francis Snow & Robert Carr Adams, Jr. \\
Allen Everett Morrell & Winslow Robinson Howland \\
Fred Raymond Lord & Stuart Randolph Stone \\
\end{tabular}

\textit{Faculty}
Assistant Professor Roland Hacker Cobb
Associate Professor Morgan Bicknell Cushing

FRATERNITY LIFE

The students of the College have divided themselves into groups for the purposes of social and personal relations. Eleven of these groups, ten of which are chapters of national Greek-letter societies, occupy their own fraternity houses. The dining club in one of the college houses makes it possible for all other members of the College to enjoy many of the social and home-like advantages of fraternity life.

MEDICAL ATTENDANCE

Students, who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee till discharged.

A fund of $1,000, given by Mr. and Mrs. \textsc{George F. Godfrey}, of Bangor, in memory of their son, \textsc{Henry Prentiss Godfrey}, is devoted to providing medical attendance for students who may be sick while in college.

In case of illness students should immediately call upon or summon the college physician, Dr. Johnson, whose office is in the Infirmary.
DUDLEY COE MEMORIAL INFIRMARY

The Dudley Coe Memorial Infirmary, completed in 1917, and endowed by the donor with a sum ample for all running expenses including that of resident attendants, is a gift of Dr. THOMAS UPHAM COE, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor's room.

The first floor contains the reception hall, physician's office, operating room, sterilizing room, nurse-matron's rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units; each unit comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician’s room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Scholarships

More than $23,000 is distributed annually in the form of scholarships in aid of meritorious students of slender means.

Applications for scholarships must be made upon blank forms furnished by the Treasurer of the College. They must be made out anew each year, signed by both the student and his parent or guardian, and deposited in the Dean's office before November 1st.

Alexander Prize Fund. This fund was established by Hon. DeAlva S. Alexander, LL.D., of the Class of 1870, to furnish two prizes of Thirty Dollars and Twenty Dollars for excellence in select declamation. Competition is open to Freshmen, Sophomores, and Juniors.

(1905)

Philo Sherman Bennett Prize Fund. This fund was established by Hon. William J. Bryan from trust funds of the estate of the late Philo Sherman Bennett, of New Haven, Connecticut, the proceeds to be used for a prize for the best essay discussing the principles of free government. Competition is open to Juniors and Seniors.

(1905)

Almon Goodwin Prize Fund. This fund of $1,000 was established by Mrs. Maud Wilder Goodwin, in memory of her husband, Almon Goodwin, of the Class of 1862. The annual income is awarded to a Phi Beta Kappa man to be chosen by vote of the Trustees of the College at the end of the recipient’s Junior year.

(1906)

Hiland Lockwood Fairbanks Prize Fund. This fund of $2,000 was established by Captain Henry N. Fairbanks, of Bangor, in memory of his son, Hiland Lockwood Fairbanks, of the Class of 1895. One-half of the annual income is awarded for excellence in Debating and Advanced Public Speaking (English 5, 6); one-fourth is awarded as two prizes for excellence in declamation (English 4) during the second semester; and the remaining fourth is left at the disposal of the English Department for the promotion of interest in public speaking.

(1909)

Col. William Henry Owen Premium. A sum of $500, given by Frederick Wooster Owen, M.D., in memory of his brother, Col. William Henry Owen, A.M., of the Class of 1851, the income of which, in the form of a twenty dollar gold piece, is awarded at Commencement “to some graduating stud-
ent recognized by his fellows as a humble, earnest, and active Christian.”

**Stanley Plummer Prize.** This prize, consisting of the annual income of a fund of $1,000, established by Stanley Plummer, of the Class of 1867, is awarded “for excellence in original and spoken composition in the English language on the part of the members of the Junior Class.”

**Forbes Rickard Prize.** An annual prize of $10, given by Mrs. Forbes Rickard in memory of her son, Forbes Rickard, Jr., of the Class of 1917, who lost his life in the service of his country, is awarded to the undergraduate writing the best poem.

**Lucien Howe Prize Scholarship.** A fund of $5,000, given by Lucien Howe, M.D., Sc.D., of the Class of 1870. Fifty dollars from the income is “awarded by the Faculty to that member of the Senior Class, who, during his college course, by example and influence, has shown the highest qualities of conduct and character, the award to be either in cash or in the form of a medal according to the wish of the recipient.” The remainder is expended by the President to improve the social life of the undergraduates.

**Hannibal Hamlin Emery Latin Prize.** This prize, consisting of the annual income of a fund of $1,000, is awarded to a member of the Junior or Senior class for proficiency in Latin.

**Sumner I. Kimball Prize.** This prize, consisting of the annual income of $2,500, was established by Hon. Sumner I. Kimball, Sc.D., of the Class of 1855. It is awarded to that member of the Senior Class who has “shown the most ability and originality in the field of the Natural Sciences.”

**Horace Lord Piper Prize.** This prize, consisting of the annual income of $1,000, was established by Hon. Sumner I. Kimball, Sc.D., of the Class of 1855, in memory of Major Horace Lord Piper, of the Class of 1863. It is awarded to that member of the Sophomore Class who presents an “original paper on the subject best calculated to promote the attainment and maintenance of peace throughout the world, or on some other subject devoted to the welfare of humanity.”
Bertram Louis Smith, Jr., Prize Scholarship. A bequest of $4,000 from Bertram Louis Smith, in memory of his son, a member of the Class of 1903, to encourage excellence of work in English Literature.

Poetry Prize. A prize of Five Dollars is given each semester for the best poem on Bowdoin written by an undergraduate.

Physical Training

The Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building together form one of the largest and best adapted equipments for physical training in the country.

The Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a smaller exercising room, a trophy room, and offices.

The building is equipped with the most approved apparatus, is heated and lighted by modern methods, and is supplied with a ventilating system able to change the air throughout the building every twenty minutes.

The Athletic Building is connected with the Gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the Gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.

A straight path through the pine grove in the rear of the campus leads from the gymnasium a short distance to the Whitman Athletic Field. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football, and track athletics.
Just to the south of Longfellow Avenue is the new Playing Field of sixty-six acres. Here are facilities for soccer, freshman football, and baseball.

The Art Collections

The art treasures of the College,—except the portraits and busts in Memorial Hall and the mural paintings in the Chapel,—are exhibited in the Walker Art Building. This building was designed by Messrs. McKim, Mead, and White and erected by the Misses Mary Sophia and Harriet Sarah Walker of Waltham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The main entrance consists of a loggia, in front of which, and supporting the wall above, are six Ionic columns of stone. Niches in the front wall of the building on either side of the loggia contain bronze copies, by De Angelis, of Naples, of the classical statues of Demosthenes and Sophocles. Pedestals on either side of the ascent to the loggia are surmounted by copies in stone of the lions of the Loggia dei Lanzi.

The entrance from the loggia is to the Sculpture Hall, occupying the central portion of the building beneath a dome which rises to the height of forty-seven feet, and furnishes light to the apartment through a skylight at the top. The four tympana below the dome, each twenty-six feet in width, are filled with four paintings symbolizing the artistic achievements of Athens, Rome, Florence, and Venice, executed by Messrs. John La Farge, Elihu Vedder, Abbott Thayer, and Kenyon Cox, respectively. Original classical marbles; busts, and work in low-relief; bronze and plaster fac-simile casts of classical figures and groups of statuary are exhibited in this room.

The Bowdoin, Boyd, and Sophia Wheeler Walker Galleries are entered from three sides of the Sculpture Hall. The Bowdoin Gallery contains chiefly the collection of about one hundred paintings, and one hundred and fifty original drawings by old and modern masters bequeathed to the College by Honorable James Bowdoin, and a series of portraits of the presidents and of the distinguished benefactors of the College. The Boyd Gallery contains, mainly, the collection of paintings given by Colonel George W. Boyd, of the Class of 1810, a
collection of Japanese and Chinese works of art, collected and formerly owned by the late Professor William A. Houghton, A.M., a collection of objects of Oriental Art given by David S. Cowles, Esq., the Virginia Dox collection of objects of native American art, a collection of original Classical Antiquities from Mycenae to Roman times given by Edward P. Warren, L.H.D., and collections given or loaned by Mr. George W. Hammond, Mrs. Levi C. Wade, Hon. Harold M. Sewall, Mr. Dana Estes, and other friends of the College. The Sophia Wheeler Walker Gallery contains exclusively works of art given by the Misses Walker, being chiefly specimens of ancient glass, Roman sculpture, old Flemish tapestry, Oriental ivory carvings, miniatures, etc., with paintings and drawings by modern artists of the foremost rank, and a bronze relief portrait, by French, of Theophilus Wheeler Walker.

In the basement are two lecture rooms and a room of Assyrian sculpture. The Charles A. Coffin collection of etchings is exhibited mainly in the Assyrian Room. There is also a collection of seventeenth, eighteenth, and nineteenth century watches, bequeathed by Hon. James Phinney Baxter, Litt.D.

James Phinney Baxter Fund. A bequest of $5,000 from Hon. James Phinney Baxter, Litt.D., the income to be used for the “purchase of art objects, the same to be suitably labeled, James Phinney Baxter Collection in memory of Henry Johnson.”

The Library

The Library contains about 140,000 bound volumes and several thousand unbound pamphlets. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenæan Societies, added in 1880.

Special collections worthy of note are the Longfellow collection, containing the largest amount of Longfellow material to be found in any one place; the Huguenot collection; the German Dialect collection; the Abbott collection; and the Maine collection,—each in its line being probably the largest in the country.

The Library possesses valuable sets of periodicals collected during the past century, and more than two hundred and thirty
titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 a.m., to 5.30 p.m., and from 6.45 to 9.45 p.m.; and Sundays from 2.00 to 4.50 p.m., and 6.45 to 9.45 p.m. In vacation it is also open daily, with the exception of Sundays and holidays. Students are allowed to borrow three books at a time, and to retain them, if needed, four weeks.

Annual accessions, which average three thousand volumes, are made to the Library by means of an appropriation by the Boards for the purpose, and from a part of the proceeds of the following library funds.

HAKLUYT LIBRARY FUND. This fund of $1,100 was established in 1875 by Robert Waterston.

SIBLEY BOOK FUND. This fund, now amounting to $6,958, was established in 1881, by Jonathan Langdon Sibley, A.M., Librarian of Harvard College, and is for the purchase of books relating to American history.

PATTEN LIBRARY FUND. A fund of $500 given in 1882 by Capt. John Patten, of Bath, Maine.

SHERMAN BOOK FUND. This fund of $2,177 was established in 1882 by Mrs. John C. Dodge, of Cambridge, Mass., in memory of her brothers, Joseph Sherman, LL.D., of the Class of 1826, and Thomas Sherman, M.D., of the Medical Class of 1828. Its proceeds are given to current literature.

AYER BOOK FUND. This fund of $1,000 was established by the Athenæan Society in 1887 from a bequest of Hon. Samuel Hazen Ayer, of the Class of 1839.

BOND BOOK FUND. This fund amounting to $7,082, was given by Rev. Elias Bond, D.D., of the Class of 1837. From its income are purchased books relating to religion and ethics.

PACKARD BOOK FUND. This fund, based upon receipts from certain publications of the Library, is devoted to the purchase of books relating to the State of Maine, as a memorial of Professor Alpheus Spring Packard, D.D., of the Class of 1816.
Wood Book Fund. This fund of $1,000 was given in 1890 by Dr. Robert W. Wood, of Cambridge, Mass., of the Medical Class of 1832. From its proceeds are purchased books on sociology.

Henry Leland Chapman Memorial Fund. A fund of $6,103, established in 1893, by Frederic Henry Gerrish, M.D., LL.D., of the Class of 1866, in memory of his classmate, Professor Henry Leland Chapman, D.D., LL.D. Its income is used for the purchase of books in English Literature.

George S. Bowdoin Book Fund. This fund of $1,020, given in 1895 by the gentleman whose name it bears, is devoted to the maintenance of a collection of books relating to the Huguenots.

Joseph Walker Fund. This fund, amounting to $5,248, was given in 1896 by the Trustees under the will of the late Joseph Walker of Portland. Its proceeds, in accordance with a vote of the Boards, are applied to the general uses of the Library.

Philip Henry Brown Book Fund. This fund of $2,000, the income of which is devoted to the purchase of books on rhetoric and literature, was given in 1901 by the executor of the estate of Captain John Clifford Brown in fulfillment of the latter’s desire to establish a memorial of his father, Philip Henry Brown, Esq., of the Class of 1851.

Cutler Library Fund. A fund of $1,000 given in 1902 by Hon. John L. Cutler, of the Class of 1837.

Drummond Book Fund. This fund of $3,000 is a memorial of the Rev. James Drummond, of the Class of 1836, and was given in 1907 by his widow, and his daughter, Mrs. Charles F. Dole, of Boston, Mass.

Class of 1877 Book Fund. This fund of $1,013 is a class contribution, made for the most part in 1908.

Class of 1882 Book Fund. This fund of $2,300 was given by the Class of 1882 as its contribution to the permanent funds of the College in 1908.

Class of 1890 Book Fund. This fund of $1,000 is a class contribution, made in 1908.

Class of 1901 Book Fund. This fund of $713 is a class contribution, made in 1908.
The Library Fund. This fund, now amounting to $81,161, was established in 1908 by General Thomas Hamlin Hubbard, LL.D., of the Class of 1857. Its income is used "for the maintenance and improvement of the library building and library."

Fiske Book Fund. This fund of $1,000 was established by the will of Rev. John Orr Fiske, D.D., of the Class of 1837. Its income became available in 1910.

William A. Packard Book Fund. This fund of $5,000 was established in 1910 by the will of Professor William Alfred Packard, Ph.D., D.D., of the Class of 1851. Its income is used "preferably for the purchase of such books as illustrate the Greek and Latin languages and literatures."

Appleton Library Fund. This fund of $10,052 was given in 1916 by Hon. Frederick Hunt Appleton, LL.D., of the Class of 1864, in memory of his father, Hon. John Appleton, LL.D., Chief Justice of Maine, of the Class of 1822. Its income is for the "general uses of the College Library."

Lynde Book Fund. This fund of $1,486 was established in 1918, by the will of George S. Lynde, of New York, in memory of Frank J. Lynde, of the Class of 1877.

Class of 1875 Book Fund. This fund of $1,500 was established in 1918 by the Class of 1875. Its income is used for the "purchase of books relating to American history, in its broadest sense."

Stanwood Book Fund. A fund of $1,269.72 bequeathed by Edward Stanwood, Litt.D., of the Class of 1861, received in 1925. Its income is used "preferably for books in American political history."

Morse Fund. A bequest of $1,000 from Edward S. Morse, Ph.D., received in 1926.

Lewis Pierce Book Fund. A fund now amounting to $18,800, established in 1926 by Henry Hill Pierce, LL.D., of the Class of 1896, in memory of his father, a member of the Class
of 1852. The income is used “preferably for the purchase of books.”

Henry Crosby Emery Book Fund. A fund now amounting to $1,648.52, given in 1926 by the Class of 1899 in memory of one of their teachers, Professor Henry Crosby Emery, Ph.D., LL.D., of the Class of 1892. The income is used for the purchase of books in the Social Sciences.
