The Bursar, Massachusetts Hall; 9.00 to 12.00, 2.00 to 4.00 every week-day, except Saturday; 9.00 to 12.00 Saturday.
BOWDOIN COLLEGE

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is the President and Trustees of Bowdoin College.

The College was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government has been, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the Trustees initiating legislation and the Overseers concurring or vetoing. Since 1870 one-half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron was the Hon. James Bowdoin, son of the Governor. He gave land, money, and apparatus during his lifetime and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings and one hundred and forty-two drawings by old and modern masters; among the paintings were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

To the war for saving the Union, Bowdoin sent 290 men,—a larger percentage than furnished by any other college in the
North; to the World War upwards of 1,300, of whom 29 made the supreme sacrifice.

More than eleven thousand students have been admitted, and seven thousand, four hundred, and forty-eight degrees have been awarded. The living graduates number three thousand, three hundred and twenty-four.

Among the graduates have been: Henry Wadsworth Longfellow and Nathaniel Hawthorne; Henry Boynton Smith, Charles Carroll Everett, Cyrus Hamlin, and Elijah Kellogg; William Pitt Fessenden, John A. Andrew, Franklin Pierce, Melville W. Fuller, Thomas B. Reed, and William P. Frye; Oliver Otis Howard and Joshua Lawrence Chamberlain; and Robert Edwin Peary.

THE COLLEGE BUILDINGS

Massachusetts Hall, completed in 1802, was the first college building erected. It has been used for various college purposes, but after some remodelling of the interior the two upper floors have been used for the Cleaveland Cabinet of mineralogy, named in honor of Professor Parker Cleaveland, and the lower floor for the administration offices of the College.

Maine Hall (1808), Winthrop Hall (1821), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, Appleton Hall (1843), named in honor of the second president of the College, and William DeWitt Hyde Hall (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, are the four dormitories, and form with the Chapel the eastern side of the Quadrangle.

The Chapel, a Romanesque Church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods under whose personal direction it was erected. In the Chapel is the organ given by Cyrus H. K. Curtis, LL.D., in 1927.

Seth Adams Hall was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. It stands on the Delta beyond the Quadrangle and is used as a recitation building.

Memorial Hall, erected in 1868, is a structure of local granite, in the French Gothic style. It is a memorial to the
graduates and students of the College who served in the Civil War, and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitation purposes.

The Observatory was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands just outside the Quadrangle to the east and is well equipped for the purposes of instruction.

The Walker Art Building was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The Mary Frances Searles Science Building was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

Hubbard Hall, the library building, was also designed by Henry Vaughan. It was erected in 1902-03 and presented to the College by General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

The Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building were erected in 1912. The Gymnasium was built from contributions from many of the students and alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the Swimming Pool, given in 1927 by Cyrus H. K. Curtis, LL.D. This structure stands to the east of the Chapel, outside the Quadrangle.

The Dudley Coe Memorial Infirmary is a three story brick building, erected in 1916-17. It was given by Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

The Moulton Union was erected in 1927-28. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873,
as a social center for the student life of the College. It is two stories in height and stands just outside the Quadrangle, between Appleton and William DeWitt Hyde Halls.

These buildings and their equipment are described and illustrated in a pamphlet which will be sent gratis upon application to the Dean.

**RESOURCES**

The estimated value of the college buildings and equipment is $3,316,041.84; and the expenditure for the maintenance of the college, for the past year $370,357.65.

**ALUMNI FUND**

One of the principal sources of both endowment and income in recent years has been the Alumni, and the Alumni Fund, inaugurated in 1919, has added $588,688.58 to the endowment of the College and a further sum of about $104,000.00 for current expenses, besides securing an additional gift of $150,000.00 from the General Education Board.

Under this plan the following funds and memorials have been established:

ADMISSION TO THE COLLEGE

LIMITATION OF NUMBERS

In accordance with a vote of the Boards, the total number of students residing in College is limited to about five hundred, and the number of students in the Freshman class is limited to about one hundred and fifty.

The College in selecting a Freshman class, shows a preference for candidates who offer for admission the subjects required for the course leading to the degree of A.B. Preference is shown for those candidates for the degree of B.S. who offer for admission the College's regular and approved subjects only, with no so-called free margin units, and who present the largest proportion of those subjects which demand two or more years of study and receive two or more units of credit.

Applications for admission should be filed with the Dean before June 20, 1929.

Subjects in which Examinations are held

Candidates for admission to the Freshman Class are examined in the following subjects:

CHEMISTRY

The ground covered should be that included in any good first-year text-book. Candidates for examination will be expected to answer, in clear English, questions upon the fundamental chemical laws and the preparation, properties, and uses of common chemical substances, and to solve simple arithmetical examples based upon chemical reactions.

ENGLISH

Preparation in English has two main objects: command of correct and clear English, spoken and written; ability to read with intelligence and appreciation.

Grammar and Composition:—The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school; and correct spelling and grammatical accuracy should be rigorously exacted in all written work during the whole course. The principles governing punctuation, diction, sentences, paragraphs, and
whole compositions should be carefully studied; and practice in composition, oral as well as written, should extend throughout the secondary-school period. Written exercises may well comprise letter-writing, narration, description, and easy exposition and argument. It is advisable that subjects for this work be taken from the student's personal experience, general knowledge, and studies other than English, as well as from his reading in literature. Special instruction in language and composition should be accompanied by concerted effort of teachers, whatever subjects they teach, to cultivate in the student the habit of using good English in all recitations and exercises, whether oral or written.

**Literature:**—The second object requires intelligent reading in considerable amount. The student should read carefully, but his attention should not be so fixed upon details that he fails to appreciate the main purpose and charm of what he reads. He should be trained in reading aloud, and should be encouraged to commit to memory notable passages in both verse and prose. He should learn the most important facts in the lives of the authors whose works he reads, and should know their places in literary history.

Candidates will have the option of taking either of two examinations: (1) a “Restricted” examination, based in part on a prescribed list of books; (2) a “Comprehensive” examination.

**Restricted Examination:**—This examination will be divided into two parts: *English A*, on grammar and composition, and the books for *Reading*; and *English B*, on the books for *Study*. This examination may also be divided between two years, one part taken as a preliminary and the other as a final, and when it is thus divided each part will include a test in grammar and composition.

*English A. Grammar and Composition.* The candidate may be asked to construe sentences, to parse words, and to correct mistakes in usage. The main test in composition will consist of one or more essays, developing an idea through several paragraphs; the subjects will be drawn from the books listed below under *Reading*, from the candidate’s other studies, and from his personal knowledge and experience quite apart from reading. Several subjects for essays, perhaps eight or ten, will be given, from which the candidate may make his own selections.
Books for Reading. The candidate may be asked general questions, to test his knowledge and appreciation of the books read in preparation for this part of the examination. He will also be required to present to the examiner a list of these books, signed by the principal of the school in which he studied.

English B. In this part of the examination the candidate will be asked questions upon the content and form of the books prescribed for Study, and upon the meaning of words, phrases, and allusions. Questions may also be asked concerning the lives of the authors, their other works, and the periods of literary history to which they belong.

However accurate in subject-matter, no paper in either English A or English B will be considered satisfactory if it is seriously defective in punctuation, spelling, grammar, or other essentials of good usage.

Prescribed Books For Students Entering in 1929, 1930, and 1931.

Reading:—From each group two selections are to be made, except that for any book in Group 5 a book from any other group may be substituted.

Group 1. Cooper’s The Last of the Mohicans; Dickens’s A Tale of Two Cities; George Eliot’s Silas Marner, or The Mill on the Floss; Scott’s Ivanhoe, or Quentin Durward; Stevenson’s Treasure Island, or Kidnapped; Hawthorne’s The House of the Seven Gables.

Group 2. Shakespeare’s The Merchant of Venice, Julius Cæsar, King Henry V, As You Like It, The Tempest.

Group 3. Chaucer’s Canterbury Tales (selections); Scott’s The Lady of the Lake; Coleridge’s The Ancient Mariner; and Arnold’s Sohrab and Rustum; a collection of representative verse, narrative and lyric: Tennyson’s Idylls of the King (any four); Beowulf in a translation of recognized excellence; the Aeneid or the Odyssey or the Iliad in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of the Odyssey and Books XI, XIII-XV and XXI of the Iliad; Longfellow’s Tales of a Wayside Inn.

Group 4. The Old Testament; the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther; Irving’s The Sketch Book (about 175 pages); Addison and Steele’s The Sir Roger de Coverley Papers; Macaulay’s Lord Clive, or History of England, Chapter III; Franklin’s
Admission

Autobiography; Emerson's Self-Reliance and Manners, or Representative Men.

All selections from this group should be works of recognized excellence.

Study:—One selection is to be made from each of Groups 1 and 2, and two from Group 3.

Group 1. Shakespeare's Macbeth, or Hamlet.

Group 3. Burke's Speech on Conciliation with America; Macaulay's Life of Johnson; Carlyle's Essay on Burns, with a brief selection from Burns's poems; Arnold's Wordsworth, with a brief selection from Wordsworth's Poems; Lowell's On a Certain Condescension in Foreigners, and either Shakespeare Once More, or Democracy; Lincoln's Speech at Cooper Union, his Farewell to the Citizens of Springfield, his brief addresses at Indianapolis, Albany, and Trenton, the speeches in Independence Hall, the two Inaugurals, the Gettysburg Speech, and his Last Public Address, together with a brief memoir or estimate of Lincoln.

Comprehensive Examination. This examination is intended to be a comprehensive test of the candidate's fitness to undertake college work in English. The questions on grammar and composition will be similar in nature to those of the "Restricted" examination, and will afford the candidate an opportunity to show that he has a competent knowledge of English usage and can put his thoughts into good English. The questions on literature will be designed to test power to understand and appreciate good literature rather than knowledge of particular books. Selections in prose and verse which the candidate presumably has not read will be set before him, and he will be questioned about their content and form. He will be expected to explain
the meaning of passages of some difficulty; to distinguish between different styles and verse forms; and to show a knowledge of the simpler principles of structure in novels and plays, with illustrations from works with which he is familiar. It will therefore be necessary for him to have read with care a considerable amount of literature similar in kind to the books for Reading and Study specified above.

The "Comprehensive" examination is not given by the College, and candidates choosing this plan must take the examination set by the College Entrance Examination Board in June. Additional information concerning this plan may be obtained from the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York City.

FRENCH

The admission requirements in elementary and advanced French are those recommended by the Modern Language Association of America.

1. Elementary French. The first year's work should comprise: (1) careful drill in pronunciation; (2) the rudiments of Grammar, including the inflection of the regular and more common irregular verbs, the plural of nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; order of words in the sentence, and elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in memory the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (4) the reading of 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing French from dictation.

The second year's work should comprise: (1) the reading of 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application
in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler uses of the conditional and subjunctive.

II. Advanced French. This should comprise the reading of 400 to 600 pages of French in ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Candidates offering either Elementary or Advanced French are expected to be familiar with the alphabet of the Association Phonétique Internationale.

GERMAN

The admission requirements in elementary and advanced German are those recommended by the Modern Language Association of America.

I. Elementary German. The first year's work should comprise: (1) careful drill upon pronunciation; (2) memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar, that is, upon the inflection of the articles, of such nouns as belong to the language of everyday life, of adjectives, pronouns, weak verbs, and the more usual strong verbs, also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (5) the reading of 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in reproducing from memory sentences previously read.

The second year's work should comprise: (1) the reading of 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in translating into German easy variations upon the matter read, also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of grammar, directed to the end
of enabling the pupil, first, to use his knowledge with facility in forming sentences, and, secondly, to state his knowledge correctly in the technical language of grammar.

II. Advanced German. The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, paraphrases, abstracts, or reproductions from memory, of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with especial reference to the infinitive and subjunctive), and likewise upon word order and word formation.

GREEK

The examination will be adapted to the proficiency of those who have studied Greek in a systematic school course of five exercises a week, extending through two or three school years.

I. Elementary Greek. The examination may be taken by candidates who have studied Greek at least two years. It will consist of three parts:

(1) The translation at sight of passages of simple Attic prose.

(2) A thorough examination upon Xenophon's Anabasis, Books I-IV, with the purpose of testing the candidate's mastery of the ordinary forms, constructions, and idioms of the language.

(3) The writing of simple Attic prose, involving the use of such words, constructions, and idioms only as occur in the prescribed books of Xenophon.

II. Advanced Greek. This examination, which must be preceded by the examination in Elementary Greek, may be taken by candidates who have studied Greek at least three years. It will consist of two parts:

(1) The translation at sight of passages of Attic prose and of Homer, with questions on forms, constructions, and idioms, and on prosody.

(2) The translation into Attic prose of a passage of connected English narrative. The passage set for translation will be based on some portion of the prescribed books of the Anabasis, and will be limited to the subject matter of that work.
HISTORY (INCLUDING HISTORICAL GEOGRAPHY)

The examinations in history will call for comparisons of historical characters and periods, for summaries of institutional development, and in general for exercise of judgment as well as memory. A knowledge of historical geography, which will be tested by an outline map, is essential. The amount of collateral reading which has been done by the student will be taken into consideration. In general, all schools are urged to take steps to make their courses conform as far as possible to the recommendations of the Committee of Seven.

I. ANCIENT HISTORY. A year's course with special emphasis on the history of Greece and Rome.

II. GREEK HISTORY. To the death of Alexander, with due reference to Greek life, literature, and art.

III. ROMAN HISTORY. To 800 A.D., with due reference to government and institutions.

IV. ENGLISH HISTORY. With special reference to social and political development.

V. AMERICAN HISTORY. With special attention to the development of political and social institutions.

VI. MEDIEVAL HISTORY. To the Renaissance.

VII. MODERN EUROPEAN HISTORY. From the Renaissance. Candidates are advised not to take entrance examinations in History without having received instruction in school courses or from competent tutors.

LATIN

THE EXAMINATIONS IN 1929 AND THEREAFTER

The following statement and recommendations are in accordance with a report presented to the College Entrance Examination Board in November 1925 by a commission* appointed to frame recommendations on the basis of the Classical Investigation conducted by the Advisory Committee of the American Classical League

*The report of the Commission appears as an appendix to the Twenty-Sixth Annual Report of the Secretary of the College Entrance Examination Board, pages 151-157.
I. Amount and Range of the Reading Recommended for the Examinations in 1929 and Thereafter

In 1929 and thereafter there will be no prescribed readings in Latin.

The following recommendations are made in respect to the reading:

1. In the second year the early reading should be easy Latin which may be "made" or adapted Latin; not less than one semester of this year should be devoted to the reading of selections from Caesar. The reading for the year may also include easy selections from such authors as Aulus Gellius, Eutropius, Nepos, Phaedrus, Quintus Curtius Rufus, and Valerius Maximus, or books of selections containing some of these together with other authors of prose works.

2. In the third year, if the reading be in prose, not less than one semester should be devoted to the reading of selections from Cicero; the reading for the year may also include selections from such authors as Pliny, Sallust, and Livy, or books of selections containing these and other authors of prose works.

3. In the fourth year, if the reading be in poetry, not less than one semester should be devoted to the reading of selections from Virgil; and the reading for the year may also include selections from such works as the Metamorphoses, Tristia, Heroides, and Fasti of Ovid, or books of selections containing poems or extracts from Ovid or from other poets.

II. Description of the Examination in 1929 and Thereafter

The examination will be adapted to the proficiency of those who have studied Latin in a systematic school course of five lessons each week extending through two, three, or four years.

The paper will include:

1. Passages of Latin prose and verse of varying degrees of difficulty for translation.

2. Passages of Latin prose and verse for comprehension. Candidates will be asked questions to test their understanding of these passages but will not be required to translate them.

3. English passages for Latin composition for candidates presenting two or three years of Latin. Candidates presenting four years of Latin in one examination will also be expected to answer these questions.
4. In connection with the different passages, questions on forms, syntax, and the idioms of the language, as well as such questions on the subject matter, historical and literary, as may fairly be asked.

The examination will make provisions for candidates wishing to offer the following:

Latin Cp. 3. Three-Year Latin—Prose Authors and Composition.
Latin Cp. 3. Three-Year Latin—Poets and Composition.
Latin Cp. 4. Four-Year Latin—Prose Authors, Composition, and Poets.
Latin Cp. K. Fourth Year Latin—Prose Authors.

III. Latin Word List for the Examinations in 1929 and Thereafter

As the Board examinations will test the candidate's knowledge of Latin and his ability to understand Latin to a very large extent by his interpretation and translation of Latin it is only fair that the candidate should know as far as possible the standard by which he is to be judged. So long as certain works of certain authors are accepted as the norm for reading in preparation for the examinations it is essential that teachers and students should have a knowledge of the vocabulary that is most common in those particular works. The College Entrance Examination Board has prepared a Word List which indicates a vocabulary that students are expected to have at the end of two years, three years, and four years of study. This List will serve to reassure teachers that deviation from the beaten path is safe provided they take the required vocabulary as one of their guides in making their choice of selections.

The Word List does not give English meanings or Latin compound or derivative words whose meanings can be easily inferred from the root words. It gives the words that a student is expected to know at the end of two years, at the end of three years, and at the end of four years of Latin study. A copy will be sent by the Board to any address upon receipt of twenty-five cents.
The present definition of the requirements in Mathematics is in accordance with recommendations made by a committee of the American Mathematical Society.

I. Elementary Algebra. The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions and ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of polynomials and of numbers; exponents, including the fractional and negative; quadratic equations, both numerical and literal; simple cases of equations, with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations; the binomial theorem for positive integral exponents; the formulas for the $n$th term and the sum of the terms of arithmetical and geometric progressions, with applications.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

II. Advanced Algebra. Permutations and combinations, limited to simple cases; complex numbers with graphical representation of sums and differences; determinants, chiefly of the second, third, and fourth orders, including the use of minors and the solution of linear equations; numerical equations of higher degree, and so much of the theory of equations with graphical methods, as is necessary for their treatment, including Descartes's rule of signs and Horner's method, but not Sturm's functions of multiple roots.

III. Plane Geometry. The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures: the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; applications to the mensuration of lines and plane surfaces.
IV. **Solid Geometry.** The usual theorems and constructions of good text-books, including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle; the solution of numerous original exercises, including loci problems; applications to the mensuration of surfaces and solids.

V. **Plane Trigonometry.** Definitions and relations of the six trigonometric functions as ratios; circular measurement of angles; proofs of principal formulas in particular for the sine, cosine, and tangent of the sum and the difference of two angles, of the double angle and the half angle, the product expressions for the sum or the difference of two sines or of two cosines, etc.; the transformation of trigonometric expressions by means of these formulas; solution of trigonometric equations of a simple character; theory and use of logarithms (without the introduction of work involving infinite series); the solution of right and oblique triangles and practical applications.

**PHYSICS**

Physics as represented by any standard text-book. Candidates must be able to solve numerical examples under the various sections, must have performed forty experiments of a grade equivalent to those found in the text-books of Black and Davis, or Millikan, Gale, and Bishop, and must have a notebook containing a written description in their own language of their experiments with all their calculations. These notebooks must be certified by their instructors and presented at the examination.
Terms of Admission

The subjects which have been mentioned in the previous pages may be presented in satisfaction of the requirements for admission to the Freshman class in Bowdoin College under the following conditions. The basis of the system is the work represented by a course pursued five hours per week for a period of thirty-eight weeks. Such a course counts one unit.

To enter free from conditions, a candidate for admission must offer subjects amounting in all to 14¼ units.

I. For the Degree of A.B. The following subjects aggregating 9½ units are required:

- English .................................................. 3
- Latin, Elementary ...................................... 3
- Algebra .................................................. 1½ (or 2)*
- Plane Geometry ........................................ 1
- History, from the list below ......................... 1

(It is recommended that candidates for the degree of A.B. offer Ancient History to fulfill this requirement.)

Subjects amounting to 5 units must be elected from the following list:

- Latin, Advanced ...................................... 1
- Greek, Elementary ..................................... 2
- Greek, Advanced ....................................... 1
- French, Elementary .................................... 2
- French, Advanced ...................................... 1
- German, Elementary ................................... 2
- German, Advanced ...................................... 1
- Chemistry ............................................. 1
- Physics .................................................. 1
- Algebra, Advanced ..................................... ½

Certificates for credits in Spanish, before a candidate has presented credits amounting to 12½ units from the subjects listed in I and II, will be accepted only on special vote of the Recording Committee.

The College believes that the subjects mentioned in I and II are the best preparation for a college course as given at Bowdoin at present and strongly advises candidates to make their preparation from these courses exclusively.§ The College also recognizes the fact that High Schools are requesting credit for

*Algebra will count as 2 units if reviewed in senior year or if the examination be taken in senior year.
†Certificates in Trigonometry for admission will not be accepted; an examination set by the College must be taken.
‡Ancient, Mediaeval, Modern European, English, or American History will count as 1 unit if the work is continued throughout a year for 5 full periods a week.

other subjects which have educational value. It is therefore
willing to consider applications for credit amounting to not more
than 2 units for work in the following free margin subjects:
Botany, Civics, Music (Harmony), and Physical Geography.
(Credit for fractional parts of a unit will not be granted in free
margin subjects.) All such applications will be treated individ-
ually, and will not be considered unless the candidate has credit
for 12½ units from the subjects listed in I or II, and not unless 9
of these units have been presented in subjects pursued for two
or more years. Decisions regarding the acceptance of free
margin units will not be made until August 1. The principal
may apply for such credit and the Recording Committee of the
College may give credit as the case warrants.

Methods of Admission

ADMISSION BY EXAMINATION

Examinations at the College. The regular examinations
for admission to college will be held in Bannister Hall, in
Brunswick, on Monday, Tuesday, and Wednesday, May 27, 28,
and 29, 1929, and on Monday, Tuesday, and Wednesday, Septem-
ber 23, 24, and 25, 1929, according to the schedule printed on the
following page. *Credits for admission gained as the result of
September examinations will not be accepted until the following
year if the Freshman quota is already filled.*

The examinations are chiefly in writing.

Examinations at Maine Preparatory Schools. Printed
examination papers in certain of the subjects required for
admission to college will be furnished to the principal of any
high school or academy in Maine of good standing, having a
regular college preparatory course of not less than four years in
length, for the use of such of his students as propose to join the
Freshman class at Bowdoin. In exceptional cases, the conduct
of the examinations may, on the recommendation of the princi-
apal, be entrusted to some other person approved by the Faculty.
The following are the subjects in which papers will be sent:
1. Chemistry; 2. English; 3. French; 4. German; 5. Greek;
6. History (Greek, Roman, Mediaeval, Modern European,
English, and American); 7. Latin; 8. Mathematics (Algebra and
Admission

No papers will be sent in Advanced Mathematics. The entrance examinations in these subjects can be taken only at Brunswick, and written applications for such examinations should be sent to the Dean at least three days before the examination dates.

In holding entrance examinations elsewhere than in Brunswick, the following regulations are to be observed:

1. Papers are sent only in May. The dates for holding the examinations in 1929 are May, 27, 28, and 29. Under no circumstances will papers be sent for any other dates.

2. Applications for papers, addressed to the Dean, must be received not later than May 18, and should state the name of the school, the subjects in which papers are desired, and the number of students to be examined in each subject.

3. Printed examination papers, together with the requisite number of blue-books, will be sent to the principal by express prepaid, in time for the examinations. On the completion of the examinations, the books are to be returned at once by express at the expense of the College.

4. The examinations are to be conducted by the principal in conformity with a schedule of hours fixed by the College.

For 1929 the schedule of examinations is as follows:

Monday, May 27,  
9-12 A. M., History,  
2-5 P. M., Latin,  
7-9 P. M., Chemistry.

Tuesday, May 28,  
9-12 A. M., English,  
2-5 P. M., French,  
7-9 P. M., Physics.

Wednesday, May 29,  
9 A. M.-1 P. M., Mathematics,  
2-5 P. M., German, Greek, or Spanish.

Monday, September 23,  
9-12 A. M., History,  
2-5 P. M., Latin,  
7-9 P. M., Chemistry.

Tuesday, September 24,  
9-12 A. M., English,  
2-5 P. M., French,  
7-9 P. M., Physics.

Wednesday, September 25,  
9 A. M.-1 P. M., Mathematics,  
2-5 P. M., German, Greek, or Spanish.

Examinations are also held at Thornton Academy, Saco; at Washington Academy, East Machias; at Fryeburg Academy;
and at Lincoln Academy, Newcastle; these schools having been made special fitting schools for Bowdoin College by the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

The entrance examinations may, if the candidate prefers, be divided between two or more successive years, or between June and September of the same year. In that case a certificate will be given for such subjects as are passed at each examination.

A report of the results of the examinations, whether at Brunswick or elsewhere, is made to the candidate, within two weeks after Commencement.

**College Entrance Examination Board.** The certificates, issued as the result of examinations which are held by the College Entrance Examination Board from June 17 to 22, 1929, will be accepted by the College in so far as they meet the requirements for admission.

Examinations will be held in nearly 400 towns and cities in the United States and abroad.

Blank forms for the "Application for Examination" and the "Teacher's Recommendation" may be obtained from the Secretary of the College Entrance Examination Board upon request by mail. The Application should be returned to the College Entrance Examination Board, 431 West 117th Street, New York City. The Recommendation should be sent directly to the Committee on Admission of the college concerned.

If the application be received sufficiently early, the examination fee will be $10.00 for each candidate. The fee, which should accompany the application, should be remitted by postal order, express order, or draft on New York to the order of the College Entrance Examination Board.

Applications and fees of candidates who wish to be examined outside of the United States, Canada, or Asia should reach the Secretary of the Board at least six weeks in advance of the first day of the examinations, that is, on or before May 6, 1929. Applications and fees of candidates who wish to be examined in the United States at points west of the Mississippi River or in Canada should be received at least four weeks in advance of the first day of the examinations, that is, on or before May 20, 1929. Applications and fees of candidates who wish to be examined in the United States at points east of the Mississippi
Admission

River or on the Mississippi River should be received at least three weeks in advance of the first day of the examinations, that is, on or before Monday, May 27, 1929.

When a candidate has failed to obtain the required blank form of application for examination, the usual examination fee will be accepted if the fee arrives not later than the specified date accompanied by a memorandum containing the name and address of the candidate, the exact examination center selected, and a list of all the subjects in which he expects to take the Board examinations.

Applications for examinations will be accepted later than the dates named, if in the opinion of the Secretary it is still possible to arrange for the examinations requested, but only upon the payment of an additional fee of $5.00 by each candidate concerned.

A list of places at which examinations are to be held in June, 1929, will be published about March 1. Requests that the examinations be held at particular points should be transmitted to the Secretary of the College Entrance Examination Board not later than February 1. The designation of the center to which the candidate will go for examination is an indispensable part of his application for examination.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1 by the College Entrance Examination Board. Upon request a single copy of this document will be sent to any teacher without charge. In general a charge of twenty-five cents, which may be remitted in postage, will be made.

ADMISSION BY CERTIFICATE

In place of examinations, certificates will be received from preparatory schools in New England which have been approved by the New England College Entrance Certificate Board. This Board is an association of colleges established for the purpose of receiving, examining, and acting upon all applications of schools in New England which ask for the privilege of certification. The associated colleges are Amherst, Bates, Boston University, Bowdoin, Brown, Clark, Colby, Massachusetts Agricultural College, Middlebury, Tufts, Wesleyan, and Williams. Cer-
Certificates are in all cases passed upon by the individual college; but students are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before April 1st of each year to the Secretary of the Board, Professor Frank W. Nicolson, Wesleyan University, Middletown, Conn.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list can be obtained on presentation of evidence of qualification.

Blank certificates for admission to Bowdoin College may be had by principals on application to the Dean.

ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes, are admitted only upon vote of the Faculty, after the receipt of proper evidence of their qualifications to pursue the studies of the classes to which they seek entrance. Candidates are not admitted to the Senior class after the beginning of the Second Semester, and they are not eligible for a degree until they have been a full year in residence.

Applications for admission to advanced standing should be addressed to the Dean.

SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class. During the first year of residence no student in special standing is allowed to participate in intercollegiate athletics.

Applications for admission as special students should be addressed to the Dean.

TESTIMONIALS AND CERTIFICATES

Testimonials of good moral character must in all cases be presented before certificates of admission are granted. Letters
from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. A student from another college, before he can be admitted, must present a certificate of honorable dismissal.

**BOND**

A bond for two hundred dollars, with satisfactory sureties, must be filed with the Treasurer by every student on his admission to college, as security for the payment of his term bills and any other charges that may arise under the college laws. A blank form for this purpose will be given with the certificate of admission.

**Curricular Requirements**

**REQUIRED COURSES**

Good English is required both in spoken and in written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in English, whether in the details of spelling or grammar or in the larger matter of clear expression of ideas, is reported to the Committee on Undergraduate English, and may be required to receive special instruction intended to correct these deficiencies. No student so reported will be recommended for a degree unless he has satisfied the Committee.

All students are required to take each year a course in Physical Training.

**Freshman Year.** All students are required to take

(1). Hygiene, the first semester; and English 4, the second semester; and

(2). English 1-2; and

(3). One of the following: Government 1-2; or Physics 1-2; or a second acceptable elective from (5), below; and

(4). To comply with the requirements in modern languages as set forth below:

An elementary knowledge of both French and German, and a more advanced knowledge of one of these languages.
An elementary knowledge is defined as the equivalent of that obtained by passing French 1-2 or German 1-2.

A more advanced knowledge is defined as the equivalent of that obtained by passing French 3-4, or German 3-4, or German 5-6.

All students who presented French or German for admission shall, unless excused by the provisions of the following paragraph, continue during Freshman year the language presented for admission and shall take during Sophomore year French 1-2 if German was presented for admission, or German 1-2 if French was presented for admission.

Students are strongly advised to meet the requirements of a more advanced knowledge of French or German by passing the courses indicated above; but any student may, with the consent of the Dean, meet this requirement by passing before the beginning of the Sophomore year a special examination in French or German.

Students who present both French and German for admission will fulfill all modern language requirements either by continuing one of these languages during Freshman year or by passing a special examination in one of them in accordance with the preceding paragraph.

No student shall be advanced to Senior standing until he has completed his modern language requirements.

These requirements became effective with the Class entering in 1927.

Note.—Students who entered before 1927 are referred to the Annual Catalogue of 1925-1926 for the requirements in Modern Languages.

and

(5). To comply with the special requirements for the A.B. or B.S. degree as set forth below:

Candidates for the degree of A.B. who presented four years of Latin for admission may elect either Greek A-B, or Latin 1, 2, or Mathematics 1, 2.
Candidates for the degree of A.B. who presented only three years of Latin for admission are required to take either Greek A-B, or Latin A-B.

Candidates for the degree of B.S. who wish to transfer to the A.B. course, and who presented only two years of Latin for admission, are required to take Greek A-B.

Candidates for the degree of B.S. are required to take Mathematics 1, 2.

Sophomore Year. Students who presented four years of Latin for admission, and in their Freshman year took Greek A-B, are required to take either Greek 1, 2, or Latin 1, 2, or Mathematics 1, 2.

Students who presented only three years of Latin for admission, and in their Freshman year took: (a) Greek A-B, are required to take either Greek 1, 2, or Latin A-B; or took (b) Latin A-B, may elect either Greek A-B, or Latin 1, 2, or Mathematics 1, 2.

Students who transferred from the B.S. Course, and who presented only two years of Latin for admission, and who in their Freshman year took Greek A-B, are required to take Greek 1, 2.

Junior Year. Students who presented only three years of Latin for admission and in their Freshman year took Greek A-B, and in their Sophomore year took: (a) Greek 1, 2, may elect either Greek 3, 4, or Latin A-B, or Mathematics 1, 2; or took (b) Latin A-B, may elect either Greek 1, 2, or Latin 1, 2, or Mathematics 1, 2.

Students who presented only three years of Latin for admission, and in their Freshman year took Latin A-B and in their Sophomore year took Greek A-B, are required to take Greek 1, 2; or Latin 1, 2; or Mathematics 1, 2.

Students who transferred from the B.S. Course, and who presented only two years of Latin for admission, and in their Freshman year took Greek A-B and in their Sophomore year took Greek 1, 2, may elect either Greek 3-4, or Mathematics 1, 2.

General Courses

Candidates for the degree of A.B. or B.S. must have completed before graduation one year's work in each of the first three groups listed below and two years' work in group 4.
1. History, Philosophy.

Candidates for the degree of B.S. must have completed a second year’s work in group 3, above.

Required and General Courses must be taken, so far as possible, before free electives.

**ELECTIVE COURSES**

In order to be eligible for a degree a candidate must have completed thirty-four semester courses, or their equivalent, (year courses are equivalent to two semester courses), in addition to Hygiene, English 4, and four courses in Physical Training. These courses, except those mentioned above under Required Courses, which students must take at the times designated, are all elective, but subject to the following regulations:

1. Each student, whether Regular or Special, is required to take four full courses each semester in addition to the required work in Physical Training, Hygiene, and English 4.
2. Each regular student is required to take a fifth course during any two semesters after the Freshman year.
3. No student is allowed to elect more than one extra course in any semester unless one-half of his grades for the previous semester have been B, or higher, and then not without the consent of the Dean.

**EXAMINATION GROUPS**

Courses are arranged in sixteen examination groups, as printed below. Whole year courses are marked by hyphens. No student may elect more than one course at a time in any one of these groups. Examinations in Chemistry 9, 10; English 9-10; German 15-16; Greek 10; History 15, 16; Latin 11; Zoology 7-8 will be scheduled by the respective instructors.

*The following courses do not contribute toward meeting the requirement in General Courses: Biology 9, Botany; French 1-2, 3-4; German 1-2, 3-4, 13-14, 15-16; Greek A-B; Italian 1-2; Latin A-B, 1, 2; Mathematics 1, 2, 9, 10; Sociology 1, 2, 4; Spanish 1-2.

MAJORS AND MINORS

Each student is required to have completed before graduation one major and two minors. He must choose his major by the end of his Sophomore year, and must submit the courses chosen for the approval of the department in which the major is taken. He must also choose two minors at the same time, and must submit them for advice to the department in which the major is to be taken.

Definitions. A Major is a subject pursued through three consecutive years, or the equivalent of three years. A Minor is a subject pursued through two consecutive years.

Each student in his Senior year, in order to test his general grasp of his major subject, must pass a special examination in that subject, attain grades of C or higher in more than half of the necessary courses of his major subject, and maintain a satisfactory standing in whatever extra work the department may require. [Effective with the Class of 1929.]

The departments, in which majors may be elected, have designated below, the courses constituting majors.

(In the following table a semester course is called a unit. Year courses are equivalent to two units.)
Biology. Course 1-2, Botany 1, and any three other units.
Chemistry. Courses 1-2, 3, 5, 6, 7.
Economics and Sociology. Economics 1-2, Sociology 1, and any three other units.
English. Any six units of the courses in English Literature, including either Course 15-16, or Course 21-22.
French. Any six units, other than Courses 1-2 and 3-4.
German. Courses 9-10, 11-12, 15-16.
Government. Any six units; or any four units and either History 7-8, or 9, 10, or 11, 12.
Greek. Any six units, other than Course A-B.
History. Any six units, other than Courses 1, 2; or any four units, (other than Courses 1, 2), and Government 3, 4.
Latin. Course 1-2; two units from 3, 4, 5, 6; and two units from 7, 8, 9, 10.
Mathematics. Courses 1, 2, 3, 4, 5, 6.
Philosophy. Any six units.
Physics. Courses 5-6, 7-8, 9-10.
Psychology. Any six units.

All courses offered in all departments, except Greek A-B and Latin A-B, count toward minors.
COURSES OF INSTRUCTION

ART

PROFESSOR ANDREWS

1. The Art of Antiquity. First semester: Tuesday, Thursday, Saturday, 8.30.
   Given in 1928-1929 and 1929-1930; to be omitted in 1930-1931.
   A general study of Ancient Art from prehistoric days to the Middle Ages, with a somewhat detailed consideration of the more important monuments and relics of Egypt, Mesopotamia, Greece, and Rome.
   Elective for Juniors and Seniors, and Sophomores with the consent of the instructor.

   Given in 1928-1929 and 1929-1930; to be omitted in 1930-1931.
   A review in outline of architectural development from the beginning of the Middle Ages to the Renaissance, with a more particular examination of conspicuous examples of the Early Christian, Byzantine, Mohammedan, Romanesque, Gothic, and Renaissance styles. Text-book: Kimball and Edgell's History of Architecture.
   Prerequisite, either Course 1, or a special report on the Greek Orders to be prepared under the direction of the Instructor.

[3. Nineteenth Century Architecture, Painting, and Sculpture, European and American. First semester: Tuesday, Thursday, Saturday, 8.30.]
   To be given in 1930-1931.
   Elective for Juniors and Seniors.
   Prerequisite, Course 2.

[4. Later Nineteenth Century Painting and Sculpture, European and American. Second semester: Tuesday, Thursday, Saturday, 8.30.]
   To be given in 1930-1931.
   Elective for Juniors and Seniors.

[5-6. The Painters and Sculptors of the Renaissance. Whole year: Tuesday, Thursday, Saturday, 11.30.]
   Omitted in 1928-1929 and 1929-1930; to be given in 1930-1931.
   A summary view of Renaissance Painting and Sculpture, with special emphasis on the works of Leonardo da Vinci, Raphael, Michelangelo, and Correggio, in Italy; of the Van Eycks in Flanders; and of Dürer and Holbein in Germany.
   Elective for Sophomores, Juniors, and Seniors.
    Given in 1928-1929 and 1929-1930; to be omitted in 1930-1931.
    A study of the European Painting and Sculpture of the seventeenth and eighteenth centuries, following the outline of the text-book, stressing the work of Velasquez, Rembrandt, Rubens, and Van Dyck.
    Elective for Sophomores, Juniors, and Seniors.
    The work in each course consists of recitations on the text of Reinach's Apollo; (except in Course 2, in which Kimball and Edgell's History of Architecture will be used); lectures, illustrated by lantern slides; the examination of the collections in the Walker Art Building; and the writing of special reports based on assigned collateral reading.

ASTRONOMY

Professor Little

[1. Descriptive Astronomy. First semester: Tuesday, Thursday, Saturday, 9.30.]
    Omitted in 1928-1929; to be given in 1929-1930.
    A non-mathematical course giving a general survey of our present knowledge of the positions, motions, shapes, sizes, masses, physical conditions, and evolutions of all types of the heavenly bodies.
    The telescopes at the observatory are used in illustration, as well as many charts, photographs, and pictures.
    Text-book: Duncan's Astronomy.
    Elective for Sophomores, Juniors, and Seniors.
[2. Practical Astronomy. Second semester: at the same hours.]
    Omitted in 1928-1929; to be given in 1929-1930.
    Elements of spherical trigonometry with applications to simple problems in navigation and surveying. Observatory work; problems in time, latitude, and longitude; use of the sextant, transit, telescope, etc.
    Prerequisites, Mathematics, 1, 2.

BIOLOGY

Zoölogy

Professors Copeland and Gross

1-2. General Introduction to Zoölogy. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday, 1.30. Laboratory work on the same days at 2.30 or 3.30.
    Professor Copeland
The lectures in Course 1-2 are designed to give a general introduction to the subject of Zoology. The classification, distribution, morphology, physiology, ecology, and evolution of animals are discussed. Representative types from the lower groups of animals to the vertebrates are studied in the laboratory. Some exercises in addition are based on animal cytology, histology, embryology, and physiology. The exercises involve the use of the microscope, and the student is given practice in dissecting. This course is intended for beginners, and for those wishing to gain a comprehensive view of the subject.

Elective for Sophomores, Juniors, and Seniors, and required of Freshmen in the Medical Preparatory Course.

3-4. Comparative Anatomy of Vertebrates. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30. **Professor Gross**

Given in 1928-1929; to be omitted in 1929-1930.

Course 3-4 deals with the morphology of vertebrates from a comparative standpoint, and illustrates the evolution of animals from the fishes to the mammals. The classification of the chordates, theories of vertebrate structure, and the homologies of organs are discussed. The dogfish, necturus, and turtle are used as the types of vertebrates for study and dissection. Dissections of other forms, especially the pigeon, are used for demonstrating homologous organs. The laboratory work of the second semester is devoted to the study of the cat, but comparisons of systems of organs are constantly made with those of animals studied earlier in the course.

Elective for those who have passed or are taking Course 1-2.

[5. Microscopical Anatomy. Lectures and laboratory work. First semester: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.] **Professor Gross**

Omitted in 1928-1929; to be given in 1929-1930.

This course treats of the technique involved in the preparation and study of animal cells and tissues. A series of preparations is made and studied in the laboratory.

Elective for those who have passed or are taking Course 1-2.

[6. Vertebrate Embryology. Lectures and laboratory work. Second semester: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.] **Professor Gross**

Omitted in 1928-1929; to be given in 1929-1930.

A course on the earlier stages of development, treating of the reproductive cells, maturation, fertilization, cleavage, the formation of germ layers, the development of the primitive segments, and the formation of fetal membranes. A series of preparations illustrating the early development of the chick and pig is made and studied.

Prerequisite, Course 5.
Courses 3-4 and 5, 6 are given in alternate years and are intended for those who desire to lay a broad foundation for the study of human anatomy, embryology, and physiology, and for those especially interested in or proposing to teach biology. Some opportunity is offered for a selection of work in accordance with the special requirement of the student. Practice is also given in technical laboratory methods.

7-8. Special Laboratory and Field Investigations. Whole year: six hours a week, at the convenience of instructor and students.

This course offers to students having the requisite training the opportunity of pursuing original biological investigations under the direction of the instructor.

This course includes a discussion of the evidence supporting the doctrine of evolution, and an examination into the theories of species origin. The topics of variation, adaptation, heredity, and other problems which arise in connection with evolutionary biology are discussed.

Elective for Juniors and Seniors.

12. Ornithology. Lectures, demonstrations, readings, reports, field and laboratory work. Second semester: six hours a week, Tuesday, Thursday, 2.30-4.30, and special work at the convenience of the instructor and students. Professor Gross

A course dealing with the behavior, migration, structure, adaptations, and economic relations of birds; and the origin, evolution, distribution, and classification of the group. The laboratory work includes the identification and study of the college collection of North American birds. As a part of the field work each student will be assigned a special problem in ecology, or life history, of some bird.

Elective for those who have passed, or are taking, Course 1-2.

Botany

Professor Copeland

1. Botany. Lectures and laboratory work. Second semester: Monday, Wednesday, Friday, 8.30. Laboratory work on the same days at 9.30 or 10.30.

The lectures are intended to give a general survey of botany and treat principally of the classification, morphology, physiology, and ecology of plants. The laboratory work consists of the study of types of the plant kingdom from the lower groups to the flowering plants. The purpose of the course
is to give a comprehensive view of the plant kingdom, and to present some of the facts and doctrines derived from the scientific study of plants. It is intended for beginners. Elective for Sophomores, Juniors, and Seniors, and required of students majoring in Biology.

CHEMISTRY

PROFESSORS CRAM AND MESERVE

1-2. General Chemistry. Whole year: Monday, Wednesday, Friday, 10.30. PROFESSOR CRAM

Elective for Sophomores, Juniors, and Seniors, and required of Freshmen in the Medical Preparatory Course. Freshmen not in the Medical Preparatory Course are admitted only in cases where there exists some special reason for their taking chemistry in their freshman year, which reason must be approved by the Dean and the Chemistry Department.

3. Qualitative Analysis. First semester: Tuesday, Thursday, 1.30. PROFESSOR CRAM

Prerequisite, Course 1-2.

4. Qualitative Analysis and Inorganic Chemistry. Second semester: Tuesday, Thursday, 1.30. PROFESSOR CRAM

Prerequisite, Course 3.

5. Quantitative Analysis. First semester: Monday, Wednesday, Friday, 8.30. PROFESSOR MESERVE

Prerequisite, Course 3.

6. Physical Chemistry. Second semester: Monday, Wednesday, Friday, 8.30. PROFESSOR MESERVE

Prerequisites, Course 1-2, and Physics 1-2.

7-8. Organic Chemistry. Whole year: Monday, Wednesday, Friday, 2.30. PROFESSOR MESERVE

Prerequisite, Course 1-2; but students are advised to complete Course 3 before taking Course 7-8.

9. Advanced Quantitative Analysis, Organic Chemistry, or other subjects chosen according to individual preferences. This course is conducted on an individual basis by means of conferences. First semester: hours by arrangement.

Prerequisites, Courses 1-2, 3, 4, 7-8, and Course 5 taken at the same time if not taken before.

Courses of Instruction

Prerequisites, Courses 1-2, 3, 4, 5, 7-8, 9, and Course 6 taken at the same time if not taken before.

ECONOMICS AND SOCIOLOGY

Professor Catlin, Associate Professor Cushing, Assistant Professor Crook, and Mr. Abrahamson

Economics

Professor Catlin, Associate Professor Cushing, and Mr. Abrahamson

A study of the fundamental laws of the subject with some of their practical applications in business and politics. Elective for Sophomores, Juniors, and Seniors.

3-4. Banking and Business Finance. Whole year: Tuesday, Thursday, Saturday, II.30.

Associate Professor Cushing

After a general survey of the modern financial organization, the following subjects are considered: bank management, investments, the financing of a business enterprise, including the financial policies of corporations and trusts, reorganizations. Emphasis is placed upon the operation of the Federal Reserve system and the phenomena of the business cycle.

Prerequisite, Course 1-2.

5. Commerce and Commercial Policy. First semester: Tuesday, Thursday, Saturday, 8.30.

Professor Catlin

This course treats of both domestic and foreign trade, especial emphasis being placed upon systems of marketing goods and upon the relative merits of different commercial policies. The consular service, customs administration, and ocean transportation are also treated.

Prerequisite, Course 1-2.

Mr. Abrahamson

This course takes up the problems of local, state, and national revenue and expenditure from a social as well as from a fiscal standpoint.

Prerequisite, Course 1-2.

9-10. Industrial Relations. Whole year: Tuesday, Thursday, Saturday, II.30.

Professor Catlin

After a brief survey of other management problems, such as location, layout, equipment, power, purchasing, and stores, the
remainder of the year is taken up with a study of personnel and labor problems. Employment and unemployment, health, safety, hours, wages, and other questions are considered from the standpoints of the employer, the employee, and the public. Each man is expected to visit and report upon at least one important industrial plant.

Prerequisite, Course 1-2.

Mr. Abrahamson

An introduction to statistical material and methods, with special reference to economic statistics. Attention is given to methods of collecting, tabulating, charting, and analyzing statistical data. Individual reports on selected topics may be required. Problem work in the laboratory occupies at least two hours a week.

Prerequisites, Economics 1-2, and Mathematics 1, 2.

12. Principles of Accounting. Text-books, laboratory practice, conferences, and lectures. Second semester: Tuesday, Thursday, Saturday, 10.30. Associate Professor Cushing

The principles and problems of accounting considered chiefly from the standpoint of the business executive. The elements of double-entry bookkeeping are followed by such subjects as the preparation and interpretation of financial and revenue statements, depreciation, partnership and corporate accounting, valuation of assets.

Prerequisite, Course 1-2.

Sociology

Assistant Professor Crook

1. Principles of Sociology. Text-books, lectures, and conferences. First semester: Tuesday, Thursday, Saturday, 10.30.

Nature and activities of social organization today, with a study of its origins and development. Readings and discussions on evolution, heredity, environment, social heritage, change and progress.

Elective for Juniors and Seniors.

The application of sociological principles to such social problems as population, pressure on food supply, race and immigration, crime and punishment, civilization and mental abnormality, marriage and divorce.

Prerequisite, Course 1.

The origins and social development of the Hebrew People, with special reference to their literature. The influence of early civilizations upon Hebrew customs and thought, and of the Hebrew People upon later Jewish and Christian culture.

Elective for not more than twenty Juniors and Seniors who have taken Course 1, and whose registration receives the approval of the instructor.

EDUCATION

Mr. P. S. Wilder

1-2. History of Educational Theory. Whole year: Wednesday, Friday, 1.30-3.00.

The course will consist of the study of the theories and principles of education, and of the history of education as revealed in the classics of the subject. Readings, reports, and conferences.

Elective for Juniors and Seniors.

ENGLISH

Professors Mitchell, Chase, and Gray, Assistant Professor Flint, and Messrs. Dupee and Hartman

English Composition and Public Speaking

1-2. English Composition. First semester: Tuesday, Thursday, Friday, Saturday; Divs. C and E, 9.30; Divs. A, D, and F, 10.30; Div. B, 11.30. Second semester: Tuesday, Thursday, Saturday at the same hours.

Professor Mitchell, Assistant Professor Flint, and Messrs. Dupee and Hartman

A study of diction and of the structure of the sentence and the paragraph, followed by a study of the theme as a whole, introductory to more extended practice in exposition, description, narration, and argumentation in advanced courses. Recitations, lectures, readings; written work with conferences; outside reading.

Required of Freshmen.

4. Public Speaking. First semester: Div. A, Wednesday, 1.30; Div. B, Wednesday, 2.30; Div. C, Friday, 1.30; Div. D,
Friday, 2.30; Div. E, Wednesday, 1.30; Div. F, Wednesday, 2.30; Div. G, Friday, 1.30; Div. H, Friday, 2.30.

**Professor Mitchell and Mr. Dupee**

Informal lectures; drill in articulation, intonation, and gesture; short declamations with criticism by students and instructor; longer declamations, previously rehearsed to the instructor, spoken before the class.

Required of Freshmen.

5. Argumentation and Debating. First semester: Tuesday, 2.30, Thursday evening, 7.00-9.30.

Further study of argumentation, especially as applied to formal debating. Study of principles, analysis of notable examples, parliamentary procedure, practice in speaking, participation in actual debates.

Prerequisites, Courses 1-2, 4.

6. Advanced Public Speaking. Second semester: at the same hours as Course 5.

**Mr. Dupee**

Analysis of noted speeches. Frequent exercises in extemporaneous speaking, preparation and delivery of various types of public address.

Elective for not more than twenty Juniors and Seniors whose registration receives the approval of the instructors and the Dean.

7. English Composition. First semester: Tuesday, Thursday, 11.30, and individual conferences at hours to be assigned.

**Mr. Hartman**

About half the written work in this course is on subjects discussed in class, generally in connection with the reading; the rest is on subjects chosen by the individual student. The reading each week is in the works of English and American authors.

Elective for Sophomores, Juniors, and Seniors.

8. English Composition. Second semester: Tuesday, Thursday, 11.30, and individual conferences at hours to be assigned.

**Mr. Hartman**

In this course the student chooses, so far as seems profitable to him and the instructor in conference, his own subjects and forms of composition. Intended primarily for those who look upon writing at least as an avocation. Less required reading than in Course 7, but more writing.

Elective for Sophomores, Juniors, and Seniors.

9-10. Literary Composition. Study of leading forms of literature, with practice in construction: Translation, Short Story; Drama; the Familiar Essay; the Critical Essay; Verse.
The final exercise of each subdivision is a general meeting of the instructors and the students for criticism and discussion of results. Whole year: three hours a week at the convenience of instructor and students.

**Professors Mitchell, Andrews, Means, Chase, and Gray, and Assistant Professor Flint**

Course 9-10 will be given upon the application of at least six duly qualified Juniors and Seniors.

**English Literature**

**11-12. Six English Authors.** Whole year: Tuesday, Thursday, Saturday, 11.30.

**Professor Gray and Assistant Professor Flint**

Readings in the works of six English authors as an introduction to the study of literature. Lectures and group discussions; frequent reports and critical essays. The authors studied are Henry Fielding, Lord Byron, George Eliot, Robert Browning, Thomas Hardy, and George Bernard Shaw.

Elective for Sophomores, Juniors, and Seniors.

**13-14. Shakespeare.** Whole year: Tuesday, Thursday, Saturday, 10.30.

**Professor Chase**

Omitted in 1928-1929; to be given in 1929-1930.

All of Shakespeare’s principal plays are read, and the most important studied in detail.

Elective for Sophomores, Juniors, and Seniors.

**15-16. The Renaissance and Milton.** Whole year: Tuesday, Thursday, Saturday, 8.30.

**Professor Chase**

Given in 1928-1929; to be omitted in 1929-1930.

The history of English literature, excluding the drama, in the Renaissance, followed by a brief treatment of the Neo-Classical Movement. For special study: Spenser, the Renaissance lyric, Bacon, Milton, Sir Thomas Browne, Vaughan, Dryden, Pope.

Elective for Juniors and Seniors.

Lectures, reading, reports, and explanation of texts.

Prerequisite, Course 7-8.

Assistant Professor Gilligan

Omitted in 1928-1929 and 1929-1930.
The contemporary novel, drama, and lyric poetry. Lectures, collateral reading, and reports.
Prerequisite, Course 7-8.

Mr. Bordet

This course is conducted entirely in French. It is limited in numbers and may be elected only with the approval of the Department.

GEOLOGY AND MINERALOGY

Geology

Professor Meserve

   Given in 1928-1929; to be omitted in 1929-1930.
   Elective for Sophomores, Juniors, and Seniors.

2. Historical Geology. Second semester: at the same hours.
   Given in 1928-1929; to be omitted in 1929-1930.
   Prerequisite, Course 1.

Mineralogy

Professor Cram

1. The identification, composition, properties, occurrence, and uses of the common minerals and rocks. Lectures and laboratory work. Second semester: Tuesday, Thursday, Saturday, 8.30.
   Elective for Sophomores, Juniors, and Seniors who have passed Chemistry 1.

German

Professor Ham, Assistant Professor Schumann, and Mr. Newton

1-2. Elementary German. Whole year: Monday, Wednes-
Courses of Instruction

day, Friday; Div. A, 9.30; Div. B, 10.30; Div. C, 11.30; Tuesday, Thursday, Saturday; Div. D, 10.30; Div. E, 11.30.

Professor Ham and Mr. Newton
See page 63 for requirements in Modern Languages.

Assistant Professor Schumann
See note under Course 5-6.

5-6. Intermediate German. Whole year: Tuesday, Thursday, Saturday, 9.30.

Professor Ham
Courses 3-4 and 5-6 are parallel courses, elective for students who have passed Course 1-2 or its equivalent. Both courses may be elected simultaneously, but may not be taken in successive years.

7-8. Advanced German. Whole year: Tuesday, Thursday, Saturday, 8.30.

Professor Ham
Literature of the nineteenth century.
See note under Course 9-10.

   Professor Hammond, Assistant Professor Miller, and Mr. Hammond

   Trigonometry and selected topics from algebra, analytic geometry, and elementary calculus.

3. Analytic Geometry and Calculus. First semester: Monday, Wednesday, Friday, 11.30. Assistant Professor Miller

4. Calculus. Second semester: Monday, Wednesday, Friday, 11.30. Assistant Professor Miller
Courses of Instruction

Selected topics in differential and integral calculus. 
Prerequisites, Courses 1, 2.

Professor Hammond

Mr. Hammond

Continuation of Course 5. Advanced calculus with a textbook, lectures, and collateral reading. Standard methods of solving ordinary differential equations. Applications to geometry, mechanics, and physics.

7-8. Advanced Mathematics. First semester: daily at 9.30. In 1929-1930 Course 7-8 will be given as two semester courses.

Professor Hammond

Given in 1928-1929 in the first semester as a combined course.

The department plans to vary the content of this course from year to year to suit the needs and desires of students and instructors. In previous years courses have been given in modern synthetic geometry, in functions of a complex variable, and in projective geometry. In the current year, the course is in theoretical mechanics. These subjects may be repeated or others, such as theoretical mechanics, or mathematical analysis may be offered.

[9. Solid Geometry and Spherical Trigonometry. First semester: Monday, Wednesday, Friday, 10.30.]

Professor Hammond

Omitted in 1928-1929; to be given in 1929-1930.
Prerequisites, Courses 1, 2.

PHILOSOPHY

PROFESSOR MASON AND MR. POLLOCK

1. Introduction to Philosophy. First semester: Monday, Wednesday, Friday, 8.30.

PROFESSOR MASON AND MR. POLLOCK.

The aim of this course is to give the student a general survey of the field of philosophy, to show him what the great thinkers have thought about the world and to make clear the more important philosophical points of view. It is arranged to meet the needs of students who want merely a general idea of philosophy as well as those who intend to take the more advanced courses. The nature of knowledge, the nature of reality and of the good and the beautiful, as also the relation of philosophy to science and practical life, are discussed. Elective for Sophomores, Juniors, and Seniors.

2. History of Philosophy. Second semester: Monday, Wednesday, Friday, 8.30. PROFESSOR MASON AND MR. POLLOCK

Elective for Sophomores, Juniors, and Seniors. Prerequisite, Course 1.

Omitted in 1928-1929; to be given in 1929-1930.

A course in general theoretical philosophy considered systematically. The problems of truth, reality, nature, mind, etc., are taken up both with respect to the fundamental principles involved and to their bearing on the various phases of life and experience. The solution of these problems is considered along the lines suggested by materialism, positivism, dualism, realism, idealism, pragmatism, intuitionism, and other types of thought.

Prerequisites, Course 1, and either Course 2, or Course 4, or Course 6, or Psychology 1-2.

4. Ethics. Second semester: Monday, Wednesday, Friday, 9.30. PROFESSOR MASON

Given in 1928-1929; to be omitted in 1929-1930.

A systematic study of the theory of morals. The problems of freedom, duty, motive, happiness, the relation of the indi-

Professor Mason  
Given in 1928-1929; to be omitted in 1929-1930.  

This course covers the main movements of the philosophy of the present day. These movements are traced back to their sources in the history of philosophy and are also considered critically with respect to their application to fundamental philosophical problems. Special study is given to naturalism, realism, pragmatism, and idealism, and the texts of such thinkers as Haeckel, Russell, Bergson, Bradley, James, and Royce are read as examples of those movements.  

Prerequisites, Course 1, and either Course 2, or Course 4, or Course 6, or Psychology 1-2.

Professor Mason  
Omitted in 1928-1929; to be given in 1929-1930.  

A study of the history of moral philosophy, including the development of the ancient, mediaeval, and modern schools, special attention being given to Plato, Aristotle, Epicurus, the Stoics, Augustine, Hobbes, Spinoza, Kant, intuitionism, utilitarianism, and modern idealism.

PHYSICS

PROFESSOR LITTLE, ASSISTANT PROFESSOR BARTLETT,
AND MR. COWAN

1-2. General Physics. Whole year: Tuesday, Thursday, Saturday, 8.30; and a two-hour laboratory exercise each week by appointment.

ASSISTANT PROFESSOR BARTLETT AND MR. COWAN
An introductory course covering mechanics, sound, heat, magnetism, electricity, and light. Lectures, demonstrations, textbook, laboratory work, and conferences.
Elective for Freshmen.

3-4. Experimental Physics. Whole year: Tuesday, Thursday, Saturday, 8.30-10.30.

ASSISTANT PROFESSOR BARTLETT AND MR. COWAN
An introductory course covering the field of General Physics with emphasis on laboratory technique.
Elective for Sophomores, Juniors, and Seniors.

5-6. Electricity and Magnetism. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.

ASSISTANT PROFESSOR BARTLETT
Direct and alternating current measurement and such theory as is prerequisite to specialization in electrical engineering or advanced work in Physics.
Prerequisites, Physics 1-2, or 3-4, and Mathematics 1, 2.

7-8. Light. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.

ASSISTANT PROFESSOR BARTLETT
Advanced experimental work in both geometrical and physical optics, the theory of optical instruments, and an introduction to modern views of the nature of light.
Prerequisites, Physics 5-6, and Mathematics 3, 4.

[9-10. Mechanics and Heat. Whole year: Tuesday, Thursday, Saturday, 10.30-12.30.] PROFESSION LITTLE
Omitted in 1928-1929 and 1929-1930; to be given in 1930-1931.
Theoretic introduction to applied mechanics, thermal measurements, and engineering thermodynamics.
Prerequisites, Physics 5-6, and Mathematics 3, 4.
Physics Colloquium.

A bi-weekly conference continued throughout the Junior and Senior years covers the extra-curriculum requirements of all students majoring in Physics.

PSYCHOLOGY

Professor Burnett and Mr. Pollock

1-2. General Psychology. Whole year: Tuesday, Thursday, Saturday, 8.30. Professor Burnett and Mr. Pollock

The aim of this course is to acquaint the student with the facts and the laws of the mind. Emphasis is laid upon those topics which are most intimately connected with practical life and a knowledge of which is highly important for a man of liberal education. The subject-matter is treated from the point of view of natural science. Emphasis is laid upon developing in the student skill to use Psychology for interpreting the events of life and for accomplishing its business.

Elective for Sophomores, Juniors, and Seniors.

3. Abnormal Psychology. First semester: Tuesday, Thursday, Saturday, 9.30. Professor Burnett

This course considers the abnormal facts of mental life, such as insanity, hypnotism, hysteria, and multiple personality for the light these throw on borderland states in every man's life. The emphasis is thus on the slightly abnormal phenomena of every day, which interfere with a man's full mental efficiency for work and enjoyment.

Prerequisite, Course 1-2.

[4. Social Psychology. Second semester: at the same hours. Professor Burnett]

Omitted in 1928-1929; to be given in 1929-1930.

This course deals with the effect of social conditions on mental life. It inquires into the psychology of human social groups of all sorts, such as nations, legislatures, committees, crowds, publics, unions, associations, etc., and into the operations of group mind revealed in customs, conventions, fashions, institutions, religions, myths, art, and language. It tries to answer the question: How and why does a man when aware of belonging to a group, behave and think and feel otherwise — sometimes better, sometimes worse — than when not aware of that group relationship?

5-6. Experimental Psychology. Whole year: Tuesday, Thursday, Friday, 1.30-3.30. Mr. Pollock

The object of this course is training in methods of investigation, in the discovery and reliance upon experimental evi-

Prerequisite, Course 1-2, or its equivalent.

MEDICAL PREPARATORY COURSE

A course, not leading to a degree, has been established for
students intending to study medicine.
The entrance requirements are the same as for the academic
courses.

Students entering this course are required to make affirma-
tion of their purpose to pursue their medical studies after com-
pleting the course, with a statement from parent or guardian
to that effect, and with the understanding that change to regu-
lar standing in the College will be made only by special vote
of the Faculty.

Students in this course are required to take: First year:
Chemistry 1-2; English 1-2, 4; Hygiene; Zoölogy 1-2; Physics
3-4 unless deferred to second year. Second Year: Chemistry
3, 7; Zoölogy 3-4; French or German; Physics 3-4 unless taken
in first year.
This lectureship was founded by Mrs. Calista Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, with a gift of $4,750. The incumbent, appointed for one year, gives a series of lectures before the College. These lectures are open to the public. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit an endeavor to make attractive the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music and the fine arts."

**BENJAMIN APHTHORP GOULD FULLER MEMORIAL FUND**

This fund of $3,821 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

**MAYHEW LECTURESHP**

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of $5,000 is used "to provide lectures on bird life and its effect on forestry."

**TALLMAN LECTURE FUND**

This fund of $100,000 was given by Frank G. Tallman, of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad."

**JOHN WARREN ACHORN LECTURESHP**

This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of $2,500 is used for lectures on birds or bird life.
TERMS AND VACATIONS

The Academic Year is divided into two semesters, or terms, of equal length. Commencement Day is the Thursday after the third Monday in June. The summer vacation of fourteen weeks follows Commencement Day. There are two periods of vacation during the year: the first, a recess of about ten days including Christmas and New Year’s; the second, the Easter recess of ten days beginning on Friday of the week before the first day of April, and continuing until Tuesday of the week following the first day of April. The following are also observed as holidays: Armistice Day, Thanksgiving Day, Washington’s Birthday, Patriots’ Day, Memorial Day, and Ivy Day.

REGISTRATION

All students are required to register on the first day of each semester, except that Freshmen on entering college are required to register on Wednesday morning preceding the opening of the academic year. A fee of two dollars is charged for registration after the opening day.

COLLEGE BILLS

Bills for tuition, blanket tax, and union fee are mailed to each student about two weeks before the opening of each semester. Bills for all other college charges are mailed in duplicate at the close of each semester, one copy to the student and the other to the parent or guardian. All bills become payable on presentation.

No student will be advanced in class standing until all the dues of the previous year have been paid; and no degrees will be conferred upon students who have not paid all their dues to the College.

No student will be dismissed from college on request unless he shall have paid all his college bills, including that of the current semester.

During the time that term bills which are overdue remain unpaid a student receives no credit for college work.
EXPENSES

TUITION.—The tuition fee is $250 a year, one-half of which must be paid at the beginning of each semester before a student is allowed to register. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years.

OTHER COLLEGE CHARGES.—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of $5 is charged to each student at graduation. The College also collects an annual fee of $2 or $3 for a locker in the gymnasium; a fee of $5 each semester for the privileges of the union; and a fee of $10 a semester, to support the various student activities.

Rooms.—Rooms, including heat and care, in the college dormitories may be rented at prices varying from $160 to $310 a year. The price may be halved if the room is shared with another student, as is usually done. Electric lights are furnished at the rate of $6 per 25-watt lamp a year. None of the college rooms are furnished. Application for rooms should be made to the Treasurer.

Board.—Board at the fraternity houses and at other places in the town varies from $7 to $8 a week. The cafeteria in the Moulton Union accommodates seventy-five to a hundred students, and meals are furnished at reasonable rates.

No attempt is made to estimate such expenses as furniture, traveling expenses, class dues, athletic subscriptions, and fraternity fees, since the taste and character of individual students vary to such a degree that all such estimates are of little value.

A pamphlet on expenses, scholarship aid, and self-help has been prepared, and will be sent gratis on application to the Dean.

FEES FOR COURSES

The payment of fees for extra courses is regulated by the following provisions:

(1) The sum of seven dollars and a half ($7.50) is charged for each extra course (except as provided below in 4), the same to be paid in advance and to be rebated at the close of the semester in which the course is taken, provided the four regular courses and the extra course be passed, and the extra course
be not taken to remove a condition previously incurred in that subject or substituted for a condition in some other subject. (2) Such charges are remitted in the case of Seniors who need the course or courses to complete their work for graduation. (3) Courses repeated for the removal of a condition and courses substituted for such conditions are regarded as extra courses. (4) For Hygiene and English 4 the charge is pro rata whenever these subjects are in question under the preceding provisions.

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, $3.75 each; Mineralogy, $2.50. If two courses are taken at the same time, one of which is not Chemistry 7 or 8, the fee for the two is $5.50.

Zoölogy 3, 4, 5, 6, $3 each; Zoölogy 12, $5.

ATTENDANCE AT EXERCISES

Attendance is required of all students at recitations and lectures continuously throughout the semester, and at the daily college prayers which are held on each week-day at 8.20 A. M., and on Sundays at 5.00 P. M.

EXAMINATIONS

The regular examinations of the College are held at the close of each semester.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

RANK

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank of from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

REPORTS OF STANDING

A report of the rank of each student is sent to his parents or guardian at the close of each semester. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.
REQUIREMENTS FOR DEGREES

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

In accordance with a vote of the Boards passed in 1916, upon recommendation of the Faculty, the degree of Master of Arts, in course, is no longer conferred.

DEGREES WITH DISTINCTION

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

Cum Laude. A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

Magna cum Laude. A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth of his courses.

Summa cum Laude. A candidate is recommended for a degree *summa cum laude* who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

HONORS IN MAJOR SUBJECTS

Honors in major subjects are awarded, on vote of the Faculty, to students who especially distinguish themselves in those subjects. They are awarded in three grades: honors, high honors, and highest honors.

The award is based, not primarily on the average grade attained in the courses that constitute the major, but on the result reached in the additional work,—especially that which the student has done largely on his own initiative,—and on his ultimate attainment in the subject.

RELIGIOUS EXERCISES

Prayers are held each week-day morning in the College Chapel, and vesper services are held on Sundays. All students
are required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

**THE YOUNG MEN'S CHRISTIAN ASSOCIATION**

The Young Men's Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

**BOARD OF PROCTORS**

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1928-1929 are:

- **The Dean, Chairman**
  - Elfred Llewellyn Leech
  - Carl Bulkeley Norris
  - George Henry Rand, Jr.
  - Roger Bray Ray
  - Gorham Hopkins Scott
  - Peter Scott
  - George Rudolf Thompson
  - Robert Emerson Todd, Jr.

**STUDENT COUNCIL**

The Student Council is composed of ten members from the Senior class and two from the Junior class elected annually by the undergraduates. In matters pertaining to student affairs it makes recommendations to the student body, and occasionally to the Faculty. The members for the year 1928-1929 are:

- **President**
  - Gordon Danforth Larcom
  - Robert Carr Adams, Jr.
- **Vice-President**
  - Henri Le Brec Micoleau
  - Carl Bulkeley Norris
  - Abbott Spear
  - Howard Vernon Stiles
  - Harry Brainard Thayer, Jr.

**ATHLETIC COUNCIL**

The athletic interests of the College are regulated by the Athletic Council of the Associated Students of Bowdoin Col-
le. It consists of fourteen members: the Athletic Director and the Faculty Adviser on Athletics, *ex officio*, two from the Faculty of the College, and five each from the alumni and student bodies. The members for the year 1928-1929 are as follows:

Assistant Professor Malcolm Elmer Morrell, *ex officio*
Assistant Professor Boyd Wheeler Bartlett, *ex officio*

*Alumni*
Luther Dana
Thomas Carter White
Donald Francis Snow
Allen Evèrett Morrell
Fred Raymond Lord

*Students*
Robert Carr Adams, Jr.
Gordon Danforth Larcom
Stuart Randolph Stone
Harry Brainard Thayer, Jr.
Basil Stuart Dwyer

*Faculty*
Assistant Professor Roland Hacker Cobb
Associate Professor Morgan Bicknell Cushing

**FRATERNITY LIFE**

The students of the College have divided themselves into groups for the purposes of social and personal relations. Eleven of these groups, ten of which are chapters of national Greek-letter societies, occupy their own fraternity houses. The Moulton Union makes it possible for all members of the College to enjoy many of the social and home-like advantages of fraternity life.

**MEDICAL ATTENDANCE**

Students, who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee till discharged.

A fund of $1,000, given by Mr. and Mrs. George F. Godfrey, of Bangor, in memory of their son, Henry Prentiss Godfrey, is devoted to providing medical attendance for students who may be sick while in college.

In case of illness students should immediately call upon, or summon, the college physician, Dr. Johnson, whose office is in the Infirmary.

**DUDLEY COE MEMORIAL INFIRMARY**

The Dudley Coe Memorial Infirmary, completed in 1917, and endowed by the donor with a sum ample for all running ex-
expenses including that of resident attendants, is a gift of Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor’s room.

The first floor contains the reception hall, physician’s office, operating room, sterilizing room, nurse-matron’s rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units; each unit comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician’s room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Scholarships

More than $23,000 is distributed annually in the form of scholarships to aid meritorious students of slender means.

Applications for scholarships must be made upon blank forms furnished by the Treasurer of the College. They must be made out anew each year, signed by both the student and his parent or guardian, and deposited in the Dean’s office before November 1st.

### Physical Training

The Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building together form one of the largest and best adapted equipments for physical training in the country.
The Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a smaller exercising room, a trophy room, and offices.

The building is equipped with the most approved apparatus, is heated and lighted by modern methods, and is supplied with a ventilating system able to change the air throughout the building every twenty minutes.

The Athletic Building is connected with the Gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the Gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.

A straight path through the pine grove in the rear of the campus leads from the gymnasium a short distance to the Whittier Athletic Field. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football, and track athletics.

Just to the south of Longfellow Avenue is Pickard Field, given by Frederick William Pickard, of the Class of 1894, and named in honor of his family. Here, on a tract of sixty-six acres, are facilities for baseball, soccer, and freshman football.

The Art Collections

The art treasures of the College,—except the portraits and busts in Memorial Hall and the mural paintings in the Chapel,—are exhibited in the Walker Art Building. This building was designed by Messrs. McKim, Mead, and White and erected by the Misses Mary Sophia and Harriet Sarah Walker of Wal-
tham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The main entrance consists of a loggia, in front of which, and supporting the wall above, are six Ionic columns of stone. Niches in the front wall of the building on either side of the loggia contain bronze copies, by De Angelis, of Naples, of the classical statues of Demosthenes and Sophocles. Pedestals on either side of the ascent to the loggia are surmounted by copies in stone of the lions of the Loggia dei Lanzi.

The entrance from the loggia is to the Sculpture Hall, occupying the central portion of the building beneath a dome which rises to the height of forty-seven feet, and furnishes light to the apartment through a skylight at the top. The four tympana below the dome, each twenty-six feet in width, are filled with four paintings symbolizing the artistic achievements of Athens, Rome, Florence, and Venice, executed by Messrs. John La Farge, Elihu Vedder, Abbott Thayer, and Kenyon Cox, respectively. Original classical marbles; busts, and work in low-relief; bronze and plaster fac-simile casts of classical figures and groups of statuary are exhibited in this room.

The Bowdoin, Boyd, and Sophia Wheeler Walker Galleries are entered from three sides of the Sculpture Hall. The Bowdoin Gallery contains chiefly the collection of about one hundred paintings, and one hundred and fifty original drawings by old and modern masters bequeathed to the College by Honorable James Bowdoin, and a series of portraits of the presidents and of the distinguished benefactors of the College. The Boyd Gallery contains, mainly, the collection of paintings given by Colonel George W. Boyd, of the Class of 1810, a collection of Japanese and Chinese works of art, collected and formerly owned by the late Professor William A. Houghton, A.M., a collection of objects of Oriental Art given by David S. Cowles, Esq., the Virginia Dox collection of objects of native American art, a collection of original Classical Antiquities from Mycenæan to Roman times given by Edward P. Warren, L.H.D., and collections given or loaned by Mr. George W. Hammond, Mrs. Levi C. Wade, Hon. Harold M. Sewall, Mr. Dana Estes, and other friends of the College. The Sophia Wheeler Walker Gallery contains exclusively works of art given by the Misses Walker, being chiefly specimens of an-
cient glass, Roman sculpture, old Flemish tapestry, Oriental ivory carvings, miniatures, etc., with paintings and drawings by modern artists of the foremost rank, and a bronze relief portrait, by French, of Theophilus Wheeler Walker.

In the basement are two lecture rooms and a room of Assyrian sculpture. The Charles A. Coffin collection of etchings is exhibited mainly in the Assyrian Room. There is also a collection of seventeenth, eighteenth, and nineteenth century watches, bequeathed by Hon. James Phinney Baxter, Litt.D.

James Phinney Baxter Fund. A bequest of $5,000 from Hon. James Phinney Baxter, Litt.D., the income to be used for the “purchase of art objects, the same to be suitably labeled, James Phinney Baxter Collection in memory of Henry Johnson.”

The Library

The Library contains about 145,000 bound volumes and several thousand unbound pamphlets. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenaean Societies, added in 1880.

Special collections worthy of note are the Longfellow collection, containing the largest amount of Longfellow material to be found in any one place; the Huguenot collection; the German Dialect collection; the Abbott collection; and the Maine collection.

The Library possesses valuable sets of periodicals collected during the past century, and more than two hundred and fifty titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 A.M., to 5.30 P.M., and from 6.45 to 9.45 P.M.; and Sundays from 2.00 to 4.50 P.M., and 6.45 to 9.45 P.M. In vacation it is also open daily, with the exception of Sundays and holidays.

Annual accessions, which average three thousand volumes, are made to the Library by means of an appropriation by the Boards
for the purpose, and from a part of the proceeds of the following library funds.
