The Treasurer’s Office, Massachusetts Hall: 9.00 to 12.00, 2.00 to 4.00 every week-day except Saturday; 9.00 to 12.00 Saturday.
The Alumni Office, Massachusetts Hall: 9.00 to 12.00, 2.30 to 5.00 every week-day except Saturday; 9.00 to 12.00 Saturday.
BOWDOIN COLLEGE

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794. The legal designation of the Corporation is the President and Trustees of Bowdoin College.

The College was named in honor of James Bowdoin, a distinguished Governor of Massachusetts, of Huguenot descent. The government has been, from the first, vested in two concurrent Boards, the Trustees and the Overseers, the Trustees initiating legislation and the Overseers concurring or vetoing. Since 1870 one-half the vacancies occurring in the Board of Overseers have been filled from nominations from the body of the Alumni.

The earliest patron of the College was the Hon. James Bowdoin, a son of the Governor. He gave land, money, and apparatus during his lifetime and at his death made the College his residuary legatee. His library, collected during his residence in Europe as Minister to Spain and France, contained some 2,000 volumes and as many more pamphlets. It was rich in French literature and history and rare tracts on American history, and included almost everything in print on Mineralogy. His art collection, also bequeathed to the College, contained seventy paintings, originals and copies, and one hundred and forty-two drawings by old and modern masters; among the paintings were the portraits of Thomas Jefferson and James Madison by Gilbert Stuart.

More than twelve thousand, one hundred students have been admitted, and eight thousand, one hundred and sixteen degrees have been awarded. The living graduates number three thousand, six hundred and seventy.

Among the graduates have been: Henry Wadsworth Longfellow, Nathaniel Hawthorne, Franklin Pierce, and Robert Edwin Peary.

**THE COLLEGE BUILDINGS**

**Massachusetts Hall**, completed in 1802, was the first college building erected. It has been used for various college purposes, but after some remodeling of the interior the two upper floors have been used for the Cleaveland Cabinet of mineralogy, named in honor of Professor Parker Cleaveland, and the lower floor for the administrative offices of the College.

**Maine Hall** (1808), **Winthrop Hall** (1822), named in honor of Governor John Winthrop of the Massachusetts Bay Colony, **Appleton Hall** (1843), named in honor of the second president of the College, and **William DeWitt Hyde Hall** (1917), named in honor of the seventh president of the College and erected from contributions from many of the Alumni, are the four dormitories, and form with the Chapel the eastern side of the Quadrangle.

**The Chapel**, a Romanesque Church of undressed granite, designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. It stands as a monument to President Leonard Woods under whose personal direction it was erected. In the Chapel is the organ given by Cyrus H. K. Curtis, LL.D., in 1927.

**Seth Adams Hall** was erected in 1860-61. It was named in honor of Seth Adams, Esq., of Boston, who contributed liberally towards its construction. It stands on the Delta, and is used as a recitation building.

**Memorial Hall**, erected in 1868, is a structure of local granite in the French Gothic style. It is a memorial to the graduates and students of the College who served in the Civil War, and bronze tablets bearing their names are placed around the hall on the second floor. The lower story is used for recitation purposes.
The Observatory was erected in 1890-91 with funds given by Mr. John J. Taylor, of Fairbury, Illinois. It stands on the south-east corner of Pickard Field, and is reached from Harpswell Road.

The Walker Art Building was designed by Messrs. McKim, Mead, and White and erected in 1892-94. It was given to the College by the Misses Walker, of Waltham, Mass., as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods.

The Mary Frances Searles Science Building was designed by Henry Vaughan and erected in 1894. It is a gift of Mr. Edward F. Searles in memory of his wife. With the Walker Art Building it forms the western side of the Quadrangle.

Hubbard Hall, the library building, was also designed by Henry Vaughan. It was erected in 1902-03 and presented to the College by General Thomas H. Hubbard, of the Class of 1857, and his wife, Sibyl Fahnestock Hubbard. It is built of brick and Indiana limestone and forms the southern end of the Quadrangle.

Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building were erected in 1912. The Gymnasium was built from contributions from many of the students and Alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the Athletic Building was given by John Hyde, of Bath, in memory of his father, a graduate of the College in the Class of 1861, whose name it bears. Connected with the Gymnasium is the Swimming Pool, given in 1927 by Cyrus H. K. Curtis, LL.D. This structure stands to the east of the Chapel, outside the Quadrangle.

The Dudley Coe Memorial Infirmary is a three-story brick building, erected in 1916-17. It was given by Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son, and stands in the pines to the south of the Gymnasium and Athletic Building.

The Moulton Union, designed by McKim, Mead, and White, was erected in 1927-28. It was given by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social center for the student life of the College. It is two stories in height and stands just outside the Quadrangle, between Appleton and William DeWitt Hyde Halls.
The interest-bearing funds of Bowdoin College, at the close of each fiscal year, for the last ten years were as follows:

June 30, 1925, $3,856,247.06  
June 30, 1926, 4,097,336.85  
June 30, 1927, 4,295,290.80  
June 30, 1928, 4,920,945.69  
June 30, 1929, 5,008,995.26

June 30, 1930, $5,407,924.05  
June 30, 1931, 6,259,173.85  
June 30, 1932, 6,412,803.68  
June 30, 1933, 6,441,195.67  
June 30, 1934, 6,504,664.58

The estimated value of the college buildings and equipment is $3,532,918.85; and the expenditure for the maintenance of the College for the past year was $482,391.74.

ALUMNI FUND

One of the principal sources of both endowment and income in recent years has been the Alumni, and the Alumni Fund, inaugurated in 1919, has added $653,992.43 to the endowment of the College and a further sum of about $159,700.00 for current expenses, besides securing an additional gift of $150,000.00 from the General Education Board.

ADMISSION TO THE COLLEGE

LIMITATION OF NUMBERS

In accordance with a vote of the Boards, the total number of students residing in College is limited to about five hundred, and the number of students in the Freshman class is limited to about one hundred and fifty.

The College in selecting a Freshman class, shows a preference for candidates who offer for admission the subjects required for the course leading to the degree of A.B. Preference is shown for those candidates for the degree of B.S. who offer for admission the College’s regular and approved subjects only, with no so-called free margin units, and who present the largest proportion of those subjects which demand two or more years of study and receive two or more units of credit.

Applications for admission should be filed with the Dean before June 20, 1935.

SUBJECTS IN WHICH EXAMINATIONS ARE HELD

Candidates for admission to the Freshman Class are examined in the following subjects:

CHEMISTRY

The examination in Chemistry is based upon the Definition of the Requirement in Chemistry adopted by the College Entrance Examination Board, April 1, 1927.

ENGLISH

Preparation in English has two main objects: command of correct and clear English, spoken and written; ability to read with intelligence and appreciation.

Grammar and Composition:—The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school, and correct spelling and grammatical accuracy should be rigorously exacted in all written work during the whole course. The principles governing punctuation, diction, sentences, paragraphs, and
whole composition should be carefully studied; and practice in
composition, oral as well as written, should extend throughout
the secondary school period. Written exercises may well com-
prise letter-writing, narration, description, and easy exposition
and argument. It is advisable that subjects for this work be
taken from the student’s personal experience, general knowledge,
and studies other than English, as well as from his reading in
literature. Special instruction in language and composition
should be accompanied by concerted effort of teachers, whatever
subjects they teach, to cultivate in the student the habit of using
good English in all recitations and exercises, whether oral or
written.

Literature:—The second object requires intelligent reading in
considerable amount. The student should read carefully, but
his attention should not be so fixed upon details that he fails
to appreciate the main purpose and charm of what he reads.
He should be trained in reading aloud, and should be encour-
egaged to commit to memory notable passages in both verse and
prose. He should learn the most important facts in the lives of
the authors whose works he reads, and should know their places
in literary history.

The examination in English may be divided into two parts, if
the candidate prefers: English 1, covering the work usually
pursued during the first three years in the secondary school, and
counting 2 units; and English 2, covering the work usually pur-
sued during the fourth year in the secondary school, and count-
ing 1 unit.

The candidate is free to follow whatever programme of pre-
paratory reading seems most advisable to himself and his
teachers. A classified list of selections intended simply as a
suggestion of the level and range of reading that may be service-
able, has been prepared by a commission appointed by the
College Entrance Examination Board. This list is printed in a
circular issued annually about the first of December, a single
copy of which may be secured gratis by any teacher on applica-
tion to the Secretary of the Board, 431 West 117th Street, New
York, N. Y.

FRENCH

The admission requirements in elementary and advanced
French are those recommended by the Modern Language Association of America.

I. ELEMENTARY FRENCH. The first year’s work should comprise: (1) careful drill in pronunciation; (2) the rudiments of grammar, including the inflection of the regular and more common irregular verbs, the plural of nouns, the inflection of adjectives, participles, and pronouns; the use of personal pronouns, common adverbs, prepositions, and conjunctions; order of words in the sentence, and elementary rules of syntax; (3) abundant easy exercises, designed not only to fix in memory the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (4) the reading of 100 to 175 duodecimo pages of graduated texts, with constant practice in translating into French easy variations of the sentences read (the teacher giving the English), and in reproducing from memory sentences previously read; (5) writing French from dictation.

The second year’s work should comprise: (1) the reading of 250 to 400 pages of easy modern prose in the form of stories, plays, or historical or biographical sketches; (2) constant practice, as in the previous year, in translating into French easy variations upon the texts read; (3) frequent abstracts, sometimes oral and sometimes written, of portions of the text already read; (4) writing French from dictation; (5) continued drill upon the rudiments of grammar, with constant application in the construction of sentences; (6) mastery of the forms and use of pronouns, pronominal adjectives, of all but the rare irregular verb forms, and of the simpler uses of the conditional and subjunctive.

II. ADVANCED FRENCH. This should comprise the reading of 400 to 600 pages of French of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving French paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation.

Candidates offering either Elementary or Advanced French are expected to be familiar with the alphabet of the Association Phonétique Internationale.
Bowdoin College

GERMAN

The admission requirements in elementary and advanced German are those recommended by the Modern Language Association of America.

I. ELEMENTARY GERMAN. The first year's work should comprise: (1) careful drill upon pronunciation; (2) memorizing and frequent repetition of easy colloquial sentences; (3) drill upon the rudiments of grammar, that is, upon the inflection of the articles, of such nouns as belong to the language of everyday life, of adjectives, pronouns, weak verbs, and the more usual strong verbs, also upon the use of the more common prepositions, the simpler uses of the modal auxiliaries, and the elementary rules of syntax and word order; (4) abundant easy exercises designed not only to fix in mind the forms and principles of grammar, but also to cultivate readiness in reproducing natural forms of expression; (5) the reading of 75 to 100 pages of graduated texts from a reader, with constant practice in translating into German easy variations upon sentences selected from the reading lesson (the teacher giving the English), and in reproducing from memory sentences previously read.

The second year's work should comprise: (1) the reading of 150 to 200 pages of literature in the form of easy stories and plays; (2) accompanying practice, as before, in translating into German easy variations upon the matter read, also in the off-hand reproduction, sometimes orally and sometimes in writing, of the substance of short and easy selected passages; (3) continued drill upon the rudiments of grammar, directed to the end of enabling the pupil, first, to use his knowledge with facility in forming sentences, and, secondly, to state his knowledge correctly in the technical language of grammar.

II. ADVANCED GERMAN. The work should comprise, in addition to the elementary course, the reading of about 400 pages of moderately difficult prose and poetry, with constant practice in giving, sometimes orally and sometimes in writing, paraphrases, abstracts, or reproductions from memory, of selected portions of the matter read; also grammatical drill upon the less usual strong verbs, the use of articles, cases, auxiliaries of all kinds, tenses and modes (with especial reference to the
infinitive and subjunctive), and likewise upon word order and word formation.

**GREEK**

The examination will be adapted to the proficiency of those who have studied Greek in a systematic school course of five lessons a week, extending through two or three school years. The paper will include passages of simple Attic prose and of Homer to be translated at sight, and questions based upon these passages to afford the candidate means of showing his mastery of the ordinary forms, constructions, and idioms of the language. The paper will also include passages in English to be turned into Greek; and questions on prosody, on the Homeric poems, and on Homeric life.

The examination will make provision for candidates wishing to offer the following:

Greek Cp. 2. Two-year Greek—Xenophon and Composition.
Greek Cp. 3. Three-year Greek—Xenophon, Composition, and Homer.
Greek Cp. H. Third Year Greek—Homer.

**HISTORY (Including HISTORICAL GEOGRAPHY)**

The examinations in history will call for comparisons of historical characters and periods, for summaries of institutional development, and, in general, for exercise of judgment as well as memory. A knowledge of historical geography, which will be tested by an outline map, is essential. The amount of collateral reading which has been done by the student will be taken into consideration. In general, all schools are urged to take steps to make their courses conform as far as possible to the recommendations of the Committee of Seven of the American Historical Association.

I. **Ancient History.** A year's course with special emphasis on the history of Greece and Rome.

II. **Greek History.** To the death of Alexander, with due reference to Greek life, literature, and art.

III. **Roman History.** To 800 A.D., with due reference to government and institutions.

IV. **English History.** With special reference to social and political development.
V. AMERICAN HISTORY. With special reference to social and political development.

VI. MEDIAEVAL HISTORY. To the Renaissance.

VII. MODERN EUROPEAN HISTORY. From the Renaissance.

Candidates are advised not to take entrance examinations in History without having received instruction in school courses or from competent tutors.

LATIN

The following statement and recommendations are in accordance with a report presented to the College Entrance Examination Board in November, 1925, by a commission appointed to frame recommendations on the basis of the Classical Investigation conducted by the Advisory Committee of the American Classical League.

I. AMOUNT AND RANGE OF THE READING RECOMMENDED

There are no prescribed readings in Latin. The following recommendations are made:

1. In the second year the early reading should be easy Latin which may be "made" or adapted Latin; not less than one semester of this year should be devoted to the reading of selections from Cæsar. The reading for the year may also include easy selections from such authors as Aulus Gellius, Eutropius, Nepos, Phædrus, Quintus Curtius Rufus, and Valerius Maximus, or books of selections containing some of these together with other authors of prose works.

2. In the third year, if the reading be in prose, not less than one semester should be devoted to the reading of selections from Cicero; the reading for the year may also include selections from such authors as Pliny, Sallust, and Livy, or books of selections containing these and other authors of prose works.

3. In the fourth year, if the reading be in poetry, not less than one semester should be devoted to the reading of selections from Virgil; and the reading for the year may also include selections from such works as the Metamorphoses, Tristia, Heroides, and Fasti of Ovid, or books of selections containing poems or extracts from Ovid or from other poets.
II. DESCRIPTION OF THE EXAMINATION

The examination will be adapted to the proficiency of those who have studied Latin in a systematic school course of five lessons each week extending through two, three, or four years. The paper will include:

1. Passages of Latin prose and verse of varying degrees of difficulty for translation.

2. Passages of Latin prose and verse for comprehension. Candidates will be asked questions to test their understanding of these passages but will not be required to translate them.

3. English passages for Latin composition for candidates presenting two or three years of Latin. Candidates presenting four years of Latin in one examination will also be expected to answer these questions.

4. In connection with the different passages, questions on forms, syntax, and the idioms of the language, as well as such questions on the subject matter, historical and literary, as may fairly be asked.

The examination will make provisions for candidates wishing to offer the following:

Latin CP. 3. Three-Year Latin—Prose Authors and Composition.
Latin CP. 4. Four-Year Latin—Prose Authors, Composition, and Poets.
Latin CP. H. Fourth Year Latin—Poets.
Latin CP. K. Fourth Year Latin—Prose Authors.

III. LATIN WORD LIST FOR THE EXAMINATIONS

As the Board examinations will test the candidate’s knowledge of Latin and his ability to understand Latin to a very large extent by his interpretation and translation of Latin it is only fair that the candidate should know as far as possible the standard by which he is to be judged. So long as certain works of certain authors are accepted as the norm for reading in preparation for the examinations it is essential that teachers and students should have a knowledge of the vocabulary that is
most common in those particular works. The College Entrance Examination Board has prepared a Word List which indicates a vocabulary that students are expected to have at the end of two years, three years, and four years of study. This List will serve to reassure teachers that deviation from the beaten path is safe provided they take the required vocabulary as one of their guides in making their choice of selections.

The Word List does not give English meanings or Latin compound or derivative words whose meanings can be easily inferred from the root words. It gives the words that a student is expected to know at the end of two years, at the end of three years, and at the end of four years of Latin study. A copy will be sent by the Board to any address upon receipt of twenty-five cents.

**MATHEMATICS**

The present definition of the requirements in Mathematics is in accordance with recommendations made by the Commission on College Entrance Requirements in Mathematics, and adopted by the College Entrance Examination Board in 1923.

I. **ELEMENTARY ALGEBRA.** The four fundamental operations for rational algebraic expressions; factoring, determination of highest common factor and lowest common multiple by factoring; fractions, including complex fractions and ratio and proportion; linear equations, both numerical and literal, containing one or more unknown quantities; problems depending on linear equations; radicals, including the extraction of the square root of numbers; exponents, including the fractional and negative; quadratic equations, both numerical and literal; simple cases of equations, with one or more unknown quantities, that can be solved by the methods of linear or quadratic equations; problems depending on quadratic equations; the binomial theorem for positive integral exponents; the formulas for the nth term and the sum of the terms of arithmetical and geometric progressions, with applications; numerical trigonometry and logarithms.

It is assumed that pupils will be required throughout the course to solve numerous problems which involve putting questions into equations. Some of these problems should be chosen from mensuration, from physics, and from commercial life.
The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected.

II. ADVANCED ALGEBRA. Permutations and combinations, with applications to probability, limited to simple cases; complex numbers with graphical representation of sums and differences; determinants, chiefly of the second, third, and fourth orders, including the use of minors and the solution of linear equations; numerical equations of higher degree, and so much of the theory of equations with graphical methods as is necessary for their treatment, including Descarte's rule of signs and approximations of numerical roots, but not Sturm's functions.

III. PLANE GEOMETRY. The usual theorems and constructions of good text-books, including the general properties of plane rectilinear figures; the circle and the measurement of angles; similar polygons; areas; regular polygons and the measurement of the circle; the solution of numerous original exercises, including loci problems; applications to the mensuration of lines and plane figures.

IV. SOLID GEOMETRY. The usual theorems and constructions of good text-books, including the relations of planes and lines in space; the properties and measurements of prisms, pyramids, cylinders, and cones; the sphere and the spherical triangle; the solution of numerous original exercises, including loci problems; applications to the mensuration of surfaces and solids.

V. PLANE TRIGONOMETRY. Definitions and relations of the six trigonometric functions as ratios; circular measurement of angles; proofs of principal formulas in particular for the sine, cosine, and tangent of the sum and the difference of two angles, of the double angle, and of the law of sines and law of cosines for oblique triangles; the transformation of trigonometric expressions by means of these formulas; solution of trigonometric equations of a simple character; theory and use of logarithms (without the introduction of work involving infinite series); the solution of right and oblique triangles and practical applications.

PHYSICS

The examination in Physics is based upon the current definition of the requirements of the College Entrance Examination
Board. Preparation should include the study of a standard text-book, special attention being given to the solution of numerical problems. Approximately twenty-five double periods should be spent in individual laboratory work, the Teacher's Laboratory Certificate being forwarded directly to the Dean. For a detailed syllabus and list of experiments, write to the College Entrance Examination Board, 431 West 117th Street, New York, N. Y.

TERMS OF ADMISSION

UNIT SYSTEM

The subjects which have been mentioned in the previous pages may be presented in satisfaction of the requirements for admission to the Freshman class in Bowdoin College under the following conditions. The basis of the system is the work represented by a course pursued five hours per week for a period of thirty-eight weeks. Such a course counts one unit.

To enter free from conditions, a candidate for admission must offer subjects amounting in all to \( 14\frac{1}{2} \) units.

I. FOR THE DEGREE OF A.B. The following subjects aggregating \( 9\frac{1}{2} \) units are required:

- English ........................................... 3
- Latin, Elementary ................................ 3
- Algebra ........................................... \( 1\frac{1}{2} \) (or 2)*
- Plane Geometry ................................... 1
- History, from the list below ...................... 1

(It is recommended that candidates for the degree of A.B. offer Ancient History to fulfill this requirement.)

Subjects sufficient to bring the total up to \( 14\frac{1}{2} \) units must be elected from the following list:

- Latin, Advanced .................................. 1
- German, Advanced ................................ 1
- Greek, Elementary ................................ 2
- Chemistry ....................................... 1
- Greek, Advanced .................................. 1
- Physics ......................................... 1
- French, Elementary ............................... 2
- Algebra, Advanced ................................ \( \frac{1}{2} \)
- French, Advanced .................................. 1
- Solid Geometry .................................... \( \frac{1}{2} \)
- German, Elementary ............................... 2
- Trigonometry ..................................... \( \frac{1}{2} \)

* Algebra will count as 2 units if pursued for two years, or if reviewed in senior year, or if offered by examination.
Admission

Ancient History \( \frac{1}{2} \) (or 1)†  Modern European
Greek History \( \frac{1}{2} \)  History \( \frac{1}{2} \) (or 1)†
Roman History \( \frac{1}{2} \)  American History \( \frac{1}{2} \) (or 1)†
Mediæval History \( \frac{1}{2} \) (or 1)†  Civics \( \frac{1}{2} \) (or 1)‡
English History \( \frac{1}{2} \) (or 1)†

If Elementary Greek is not presented, the candidate for admission must offer either Elementary French or Elementary German.

Candidates are strongly recommended to present Advanced Latin for admission. If it is not presented, the student is required to take in college, either Latin A-B, or Greek A-B and 1-2.

II. For the Degree of B.S. The following subjects aggregating \( 9^{1/2} \) units are required:

- English ................................................. 3
- Latin, Greek, French, or German ................... 3

(Candidates may satisfy this requirement by presenting 3 units in any one of these languages, or by presenting 2 units each in any two of these languages. A single unit may not be presented under this requirement.)

- Algebra ................................................. \( 1^{1/2} \) (or 2)∗
- Plane Geometry ....................................... 1
- History, from the list below ......................... 1

Subjects sufficient to bring the total up to \( 14^{1/2} \) units must be elected from the following list:

- Latin (2 years) ....................................... 2
- Latin, Elementary .................................... 3
- Latin, Advanced ...................................... 1
- Greek, Elementary ................................... 2
- Greek, Advanced ..................................... 1
- French, Elementary .................................. 2
- French, Advanced .................................... 1
- German, Elementary .................................. 2
- German, Advanced .................................... 1
- Chemistry ............................................. 1
- Physics ............................................... 1
- Algebra, Advanced ................................... \( 1/2 \)

- Solid Geometry ....................................... \( 1/2 \)
- Trigonometry ......................................... \( 1/2 \)
- Ancient History \( \frac{1}{2} \) (or 1)†
- Greek History .......................................... \( 1/2 \)
- Roman History ......................................... \( 1/2 \)
- Mediæval History \( \frac{1}{2} \) (or 1)†
- Modern European .......................................
- History \( \frac{1}{2} \) (or 1)†
- English History \( \frac{1}{2} \) (or 1)†
- American History \( \frac{1}{2} \) (or 1)†
- Civics \( \frac{1}{2} \) (or 1)‡

∗‡‡ See footnotes on the following page.
Certificates for credits in Spanish will not be accepted until a candidate has presented credits amounting to $12^{1/2}$ units from the subjects listed in I and II, and then only on special vote of the Recording Committee.

The College believes that the subjects mentioned in I and II are the best preparation for a college course as given at Bowdoin at present and strongly advises candidates to make their preparation from these courses exclusively. The College also recognizes the fact that High Schools are requesting credit for other subjects which have educational value. It is, therefore, willing to consider applications for credit by certificate amounting to not more than 2 units for work in such free margin subjects as the following: Botany, Civics, Music (Harmony), and Physical Geography. All such applications will be treated individually, and will not be considered unless the candidate has credit for $12^{1/2}$ units from the subjects listed in I or II, and not unless 9 of these units have been presented in subjects pursued for two or more years. Decisions regarding the acceptance of free margin units will be made after July 1. The principal may apply for such credit, and the Recording Committee of the College may give credit as the case warrants.

**FOUR-EXAMINATION SYSTEM**

Under this plan of admission a candidate is required to present a record of his school work showing the subjects studied, the time devoted to each subject, and the quality of the work done in each. This record, to be approved, must show that the work done in secondary schools has covered four years, that it has been devoted mainly to English, foreign languages, mathe-

* Algebra will count as 2 units if pursued for two years, or if reviewed in senior year, or if offered by examination.

† Ancient, Mediaeval, Modern European, English, or American History will count as 1 unit if the work is continued throughout a year for 5 full periods a week.

‡ Civics, if offered by certificate and with American History, will be accepted up to not more than one unit.

§ See page 41, Limitation of Numbers.
Admission

matics, and history, that none of these has been omitted, and that two of the subjects offered for examination have been pursued beyond their elements. Science is not required for admission, but examinations in Chemistry or Physics may be offered. The candidate's school record must be sent to the Dean of the College before April first. If it is approved by the College the candidate will then submit four subjects from the group in the next paragraph, in each of which he will be given an examination adapted to show the range and quality of his attainment. These four examinations must all be taken in the same year, and at the regular spring examination period of the College. The examinations under Plan B of the College Entrance Examination Board will be equally acceptable.

Examinations will be offered in English, Latin, Greek, French, German, Spanish, History, Mathematics, and Science (i.e., Chemistry or Physics). Under this plan a comprehensive examination in English is required of every candidate, an examination in Latin of each candidate for the degree of A.B., and an examination in Mathematics of each candidate for the degree of B.S. No examination will be set in a foreign language which has been studied less than two years. If a candidate shall have studied in his senior school year third or fourth year Latin, or Greek, French, German, or Spanish he will take the examination covering the work of his final year only. If a candidate in Mathematics shall have studied in his senior school year two of the three branches of advanced mathematics,—namely, Solid Geometry, Plane Trigonometry, and Advanced Algebra,—he will take an examination in these two subjects; otherwise he will take a comprehensive examination covering both Elementary Algebra and Plane Geometry.

Both the school record and the results of the examinations considered as a whole will determine the acceptance or rejection of the candidate. Permission for candidacy under this plan is valid only for the specified examination period. A candidate rejected under this plan will receive due credit for such examinations as he may pass under this plan toward the 14½ units regularly required for admission.
Examinations at the College. The regular examinations for admission to college will be held in Bannister Hall, in Brunswick, on Monday, Tuesday, and Wednesday, May 20, 21, and 22, 1935, and on Monday, Tuesday and Wednesday, September 23, 24, and 25, 1935, according to the schedule printed on the following page. Credits for admission gained as the result of September examinations will not be accepted until the following year if the Freshman quota is already filled.

The examinations are chiefly in writing.

Examinations at Maine Preparatory Schools. Printed examination papers in certain of the subjects required for admission to college will be furnished to the principal of any high school or academy in Maine of good standing, having a regular college preparatory course of not less than four years in length, for the use of such of his students as propose to join the Freshman class at Bowdoin. In exceptional cases, the conduct of the examinations may, on the recommendation of the principal, be entrusted to some other person approved by the Faculty.

The following are the subjects in which papers will be sent: 1. Chemistry; 2. English; 3. French; 4. German; 5. Greek; 6. History (Greek, Roman, Mediaeval, Modern European, English, and American); 7. Latin; 8. Mathematics (Algebra, Plane Geometry, Plane Trigonometry, Solid Geometry, and Advanced Algebra); 9. Physics; 10. Spanish.

In holding entrance examinations elsewhere than in Brunswick, the following regulations are to be observed:

1. Papers are sent only in May. The date for holding the examinations in 1935 are May 20, 21, and 22. Under no circumstances will papers be sent for any other dates.

2. Applications for papers, addressed to the Dean, must be received not later than May 11 and should state the name of the school, the subjects in which papers are desired, and the number of students to be examined in each subject.

3. Printed examination papers, together with the requisite number of blue-books, will be sent to the principal by express prepaid, in time for the examinations. On the completion of
the examinations, the books are to be returned at once by express at the expense of the College.

4. The examinations are to be conducted by the principal in conformity with a schedule of hours fixed by the College.

For 1935 the schedule of examinations is as follows:

Monday, May 20
9:12 A.M., Latin
2:6 P.M., History

Monday, September 23
9:12 A.M., Latin
2:6 P.M., History

Tuesday, May 21
9:12 A.M., English
2:5 P.M., French
7:10 P.M., German, Greek, Spanish

Tuesday, September 24
9:12 A.M., English
2:5 P.M., French
7:10 P.M., German, Greek, Spanish

Wednesday, May 22
9 A.M.-1 P.M., Mathematics
2:6 P.M., Chemistry, Physics

Wednesday, September 25
9 A.M.-1 P.M., Mathematics
2:6 P.M., Chemistry, Physics

Examinations are also held at Thornton Academy, Saco; at Washington Academy, East Machias; at Fryeburg Academy; and at Lincoln Academy, Newcastle, these schools having been made special fitting schools for Bowdoin College by the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

The entrance examinations may, if the candidate prefers, be divided between two or more successive years, or between June and September of the same year. In that case a certificate will be given for such subjects as are passed at each examination.

A report of the results of the examinations, whether at Brunswick or elsewhere, is made to the candidate, within two weeks after Commencement.

College Entrance Examination Board. The certificates, issued as a result of examinations which are held by the College Entrance Examination Board from June 17 to 22, 1935, will be accepted by the College in so far as they meet the requirements for admission.

Examinations will be held in over 300 towns and cities in the United States and abroad.

A list of places at which examinations will be held will be published about March 1, 1935. Requests that the examinations be held at particular points should be transmitted to the Secre-
tary of the College Entrance Examination Board not later than February 1, 1935.

Detailed definitions of the requirements in all examination subjects are given in a circular of information published annually about December 1. Upon request to the Secretary of the College Entrance Examination Board a single copy of this document will be sent to any teacher without charge. In general, there will be a charge of thirty cents, which may be remitted in postage.

All candidates wishing to take these examinations should make application by mail to the Secretary of the College Entrance Examination Board, 431 West 117th Street, New York, N. Y. Blank forms for this purpose will be mailed by the Secretary of the Board to any teacher or candidate upon request by mail.

The applications and fees of all candidates who wish to take the examinations in June, 1935, should reach the Secretary of the Board not later than the dates specified in the following schedule:

For examination centers

In the United States east of the Mississippi
    River or on the Mississippi . . . . May 27, 1935
In the United States west of the Mississippi
    River or in Canada . . . . . . . . . May 20, 1935
Outside of the United States and Canada,
    except in Asia . . . . . . . . . May 6, 1935
    In China or elsewhere in the Orient . . April 22, 1935

An application which reaches the Secretary later than the scheduled date will be accepted only upon payment of $5.00 in addition to the regular examination fee of $10.00.

When a candidate has failed to obtain the required blank form of application, the regular examination fee will be accepted if the fee arrive not later than the date specified above and if it be accompanied by a memorandum with the name and address of the candidate, the exact examination center selected, and a list of the subjects in which the candidate is to take the Board examinations.

Candidates who have failed to file applications for examination may be admitted by the supervisor upon payment of a fee
Admission of $5.00 in addition to the regular examination fee. Such candidates should present themselves at the beginning of the period of registration. They will receive from the supervisor blank forms of application which must be filled out and transmitted to the Secretary of the College Entrance Examination Board.

In order to exhibit their tickets of admission, to present their identification cards, and to obtain seats in the examination room, candidates should report for a morning examination at 8.45 and for an afternoon examination at 1.45. An examination will close for candidates admitted late at the same time as for other candidates. The examinations will be held in accordance with the time (Standard Time or Daylight Saving Time) observed in the local schools.

No candidate will be admitted to the Scholastic Aptitude Test late, that is, after the test has begun.

The Scholastic Aptitude Test, which will be held on the morning of Saturday, June 22, 1935, may be taken upon the completion of the school course or at the end of the third year of secondary school work. Each candidate desiring to take this test, even though he is to take no other examination, must file with the Secretary of the Board the usual application for examination. If the Scholastic Aptitude Test is taken in connection with other examinations, no additional fee is required; if taken alone, the fee is $10.00.

A week in advance of the Scholastic Aptitude Test each candidate who is to take the test should receive a booklet containing, with explanations and instructions, a specimen test, the blank spaces of which are to be filled in by the candidate. In order to secure admission to the test, the candidate must present not only his ticket of admission but also this booklet with the spaces filled in as requested.

It is very desirable that candidates who are to take the Scholastic Aptitude Test file their applications with the Secretary. Applications for the test will be accepted by the supervisor, however, up to the day before the test provided the supervisor's supply of material for the Scholastic Aptitude Test is sufficient.

**ADMISSION BY CERTIFICATE**

In place of examination, certificates will be received from preparatory schools in New England which have been approved
by the New England College Entrance Certificate Board. This Board is an association of colleges established for the purpose of receiving, examining, and acting upon all applications of schools in New England which ask for the privilege of certification. The associated colleges are Amherst, Bates, Boston University, Bowdoin, Brown, Clark, Colby, Massachusetts State College, Middlebury, Tufts, Wesleyan, and Williams. Certificates are in all cases passed upon by the individual college; but students are received on certificate from such schools only as have been approved by this Board. All schools desiring certification privilege should apply before April 1st of each year to the Secretary of the Board, Professor Frank W. Nicolson, Wesleyan University, Middletown, Conn.

The College has established a list of schools outside of New England to which it accords the certificate privilege. Admission to this list can be obtained on presentation of evidence of qualification.

Blank certificates for admission to Bowdoin College may be had by principals on application to the Dean.

ADVANCED STANDING

Candidates for admission to the Sophomore, Junior, and Senior classes, are admitted only upon vote of the Faculty, after the receipt of proper evidence of their qualifications to pursue the studies of the classes to which they seek entrance. Candidates are not admitted to the Senior class after the beginning of the Second Semester, and they are not eligible for a degree until they have been a full year in residence.

Applications for admission to advanced standing should be addressed to the Dean.

SPECIAL STUDENTS

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies in connection with the regular classes, without becoming candidates for a degree; but no student shall continue in such special standing for more than two years. Special students wishing to become candidates for a degree must satisfy all the regular requirements for admission to the Freshman class.
During the first year of residence no student in special standing is allowed to participate in intercollegiate athletics. Applications for admission as special students should be addressed to the Dean.

**TESTIMONIALS AND CERTIFICATES**

Testimonials of good moral character must in all cases be presented before certificates of admission are granted. Letters from principals or teachers dealing in a personal manner with the character and attainments of the candidate are desirable. A student from another college, before he can be admitted, must present a certificate of honorable dismissal.

**BOND**

A bond for two hundred dollars, with satisfactory sureties, must be filed with the Treasurer by every student on his admission to college, as security for the payment of his term bills and any other charges that may arise under the college laws. A blank form for this purpose will be given with the certificate of admission.
CURRICULAR REQUIREMENTS

REQUIRED COURSES

Good English is required both in spoken and in written work, not only in English courses but in all courses. Any student whose work is unsatisfactory in English, whether in the details of spelling or grammar or in the larger matter of clear expression of ideas, is reported to the Committee on Undergraduate English, and may be required to receive special instruction intended to correct these deficiencies. No student so reported will be recommended for a degree unless he has satisfied the Committee.

All students are required to take certain courses in Physical Education.

FRESHMAN YEAR. All candidates for a degree are required to take

(1)  Hygiene, and English 4; and
(2)  English 1-2; and
(3)  one of the following: Greek 1-2, Greek 3, 4, Latin A-B, Latin 1, 2, or Mathematics 1, 2; and to comply with the special requirements for the degree of A.B. or B.S. as set forth below,* and
(4)  one of the following: History 1-2; or Physics 1-2; or

*Candidates for the degree of A.B. who presented four years of Latin for admission complete the special requirements for that degree by electing Latin 1, 2, or Mathematics 1, 2, or by electing Greek 1-2 in Freshman year and Greek 3, 4 in Sophomore year, unless two or more years of Greek are offered for admission, in this case more advanced Greek should be elected.

Candidates for the degree of A.B. who presented three years of Latin for admission complete the special requirements for that degree by electing Latin A-B, or Greek 1-2 in Freshman year, and thereafter or concurrently, completing one of the following five groups of courses: (1) Latin A-B, and Latin 1, 2; (2) Latin A-B, and Mathematics 1, 2; (3) Greek 1-2, Greek 3, 4, and Latin A-B; (4) Greek 1-2, Greek 3, 4, and Greek 5-6, or equivalent; (5) Greek 1-2, Greek 3, 4, and Mathematics 1, 2.

Candidates for the degree of B.S. who presented two years of Latin for admission, and who wish to transfer to the course leading to the degree of A.B. are required to take Greek 1-2, Greek 3, 4, and either Greek 5-6 or Mathematics 1, 2.

Candidates for the degree of B.S. are required to take Mathematics 1, 2.
Curricular Requirements

Chemistry 1-2; or Zoölogy 1-2; or a second acceptable elective from (3), above; and
(5) to comply with the requirements in modern languages as set forth below*

GENERAL COURSES

Candidates for the degree of A.B. or B.S. must have completed before graduation one year’s work in each of the four groups listed below.

1. History, Philosophy.
2. Economics†, Government.
3. Biology†, Chemistry, Mathematics†, Physics, Psychology.
4. Comparative Literature, English Literature, French†, German†, Greek†, Italian†, Latin†, Spanish†.

Candidates for the degree of A.B. must have completed a second year’s work in group 4, above.

Candidates for the degree of B.S. must have completed a second year’s work in group 3, above.

*An elementary knowledge of both French and German, and a more advanced knowledge of one of these languages.

An elementary knowledge is defined as the equivalent of that obtained by passing French 1-2 or German 1-2.

A more advanced knowledge is defined as the equivalent of that obtained by passing French 3-4, or German 3-4, or German 5-6.

All students who presented French or German for admission shall, unless excused by the provisions of the following paragraph, continue during Freshman year the language presented for admission and shall take during Sophomore year French 1-2 if German was presented for admission, or German 1-2 if French was presented for admission.

Students are strongly advised to meet the requirements of a more advanced knowledge of French or German by passing the courses indicated above; but any student may, with the consent of the Dean, meet this requireemnt by passing before the beginning of the Sophomore year a special examination in French or German.

Students who present both French and German for admission will fulfill all modern language requirements either by continuing one of these languages during Freshman year or by passing a special examination in one of them in accordance with the preceding paragraph.

No student shall be advanced to Senior standing until he has completed his modern language requirements.

†The following courses do not contribute toward meeting the require- ment in General Courses: Biology 9; Botany; French 1-2, 3-4, 15-16; German 1-2, 3-4, 5-6, 15-16; Greek 1-2, 12; Italian 1-2; Latin A-B, 1, 2, 11; Mathematics 1, 2; Sociology 1-2; Spanish 1-2.
Required and General Courses must be taken, so far as possible, before free electives.

**ELECTIVE COURSES**

In order to be eligible for a degree a candidate must have completed thirty-four semester courses, or their equivalent, (year courses are equivalent to two semester courses), in addition to Hygiene, English 4, and the required courses in Physical Education. These courses, except those mentioned above under Required Courses, which students must take at the times designated, are all elective, but subject to the following regulations:

1. Each student, whether Regular or Special, is required to take four full courses each semester in addition to the required work in Physical Education, Hygiene, and English 4.

2. Each regular student is required to take a fifth course during each semester of the Sophomore year.

3. No student is allowed to elect more than one extra course in any semester unless one-half of his grades for the previous semester have been B, or higher, and then not without the consent of the Dean.

**MAJORS AND MINORS**

Each student is required to have completed before graduation one major and two minors. He must choose has major by the end of his Sophomore year, and must submit the courses chosen for the approval of the department in which the major is taken. He must also choose two minors at the same time, and must submit them for advice to the department in which the major is to be taken.

**Definitions.** A major is a subject pursued through three consecutive years, or the equivalent of three years. A Minor is a subject pursued through two consecutive years.

Each student in his Senior year, in order to test his general grasp of his major subject, must pass a special examination in that subject, attain grades of C or higher in more than half of the necessary courses of his major subject, and maintain a satisfactory standing in whatever extra work the department may require.
The departments, in which majors may be elected, have designated below, the courses constituting majors.

(In the following table a semester course is called a unit. Year courses are equivalent to two units.)

### Biology
Course 1-2, Botany 1, and any three other units.

### Chemistry
Courses 1-2, 3, 5, 7-8, 9.

### Economics and Sociology
Economics 1-2 and 13, and Sociology 1-2, and any two other units; but not more than two units in Sociology will be accepted without special arrangement with the Department.

### English
Course 13-14, and (except when substitution of other units is approved by the Department) Courses 15-16 and 17-18.

### French
Courses 7-8, 11-12, and 15-16.

### German
Courses 13-14, 15-16, and either 9-10, or 11, 12.

### Government
Any six units; or any four units and either History 7-8, or 9, 10, or 11, 12.

### Greek
Any six units, other than Course 1-2.

### History
Course 1-2, and any four other units.

### Latin
Course 1-2; two units from 3, 4, 5, 6; and two units from 7, 8, 9, 10.

### Mathematics
Courses 1, 2, 3, 4, 5, 6.

### Philosophy
Any six units; or any four units and either Greek 5-6 or Greek 9-10.

### Physics
Any six units.

### Psychology
Courses 1-2, 3, 4, 5-6.

All courses offered in all departments count toward minors, except Greek 11, Latin A-B, and Latin 12; and Greek 1-2 when taken to satisfy entrance requirements.

**TWO-YEAR PRE-MEDICAL COURSE**

Students entering this course are required to make affirmation of their purpose to pursue their medical studies after completing the course, with a statement from parent or guardian to that effect, and with the understanding that change to regular standing in the College will be made only by a special vote of the Faculty.

The entrance requirements are the same as for the academic courses.
Students in this course are required to take:—first year: Chemistry 1·2; English 1·2, 4; Hygiene; Zoölogy 1·2; Mathematics 1, 2; second year: Chemistry 3, 7; Zoölogy 3·4; French or German; Physics.

As many medical schools require a Bachelor’s degree for admission, students intending to enter these schools should arrange their courses to cover four years of college work and to include the pre-medical subjects.
COURSES OF INSTRUCTION

ART

PROFESSOR ANDREWS

[1. The Art of Antiquity. First semester: Tuesday, Thursday, Saturday, 8.30.]
Omitted in 1934-1935; to be offered in 1935-1936.
A general study of Ancient Art, to the middle ages, with a somewhat detailed consideration of the more important monuments and relics of Egypt, Mesopotamia, Crete, and Greece.
Elective for Sophomores, Juniors, and Seniors.

[2. Architecture, Mediæval, Renaissance, and Modern. Second semester: Tuesday, Thursday, Saturday, 8.30.]
Omitted in 1934-1935; to be offered in 1935-1936.
A rapid study of architectural styles as exemplified in representative monuments from the Roman Empire to the present day.
Elective for Sophomores, Juniors, and Seniors.
Prerequisite, either Course 1, or a special report on the Greek Orders to be prepared under the direction of the instructor.

3-4. The Renaissance in Italy, France, and Flanders. Whole year: Tuesday, Thursday, Saturday, 11.30.
Given in 1934-1935; to be omitted in 1935-1936.
A summary view of the painting and sculpture of the countries mentioned, from the thirteenth through the sixteenth century, with special emphasis on the work of Giotto, Botticelli, Leonardo da Vinci, Raphael, Michelangelo, Titian, and the Van Eycks.
Elective for Juniors and Seniors, and, with the consent of the instructor, for Sophomores.

[5-6. Modern Painting and Sculpture. Whole year: Tuesday, Thursday, Saturday, 11.30.]
Omitted in 1934-1935; to be offered in 1935-1936.
A study of the European painting and sculpture of the seventeenth and eighteenth centuries, stressing the work of El Greco, Velasquez, Rembrandt, Rubens, Van Dyck, and Goya.
Elective for Juniors and Seniors, and, with the consent of the instructor, for Sophomores.

7-8. Nineteenth Century Painting and Sculpture, European and American. Whole year: Tuesday, Thursday, Saturday, 8.30.
Given in 1934-1935; to be omitted in 1935-1936.
Course 7 presents an introduction covering the Renaissance in Germany, Flanders, and France, that links it with Course 3-4, and covering eighteenth century painting in England and America, that makes it a continuation, chronologically, of course 5-6.
Elective for Juniors and Seniors, and, with the consent of the instructor, for Sophomores.

The work of the several courses consists primarily in lectures, illustrated by lantern slides, the notes of which, with bibliographies, are available for students in the Library. The copying of these notes is compulsory. The work of each course consists, further, in oral and written quizzes, and weekly reports based on collateral reading and involving the study of the photographs (given by the Carnegie Corporation) or other illustrative material in the Fine Arts Room, Hubbard Hall, or the Walker Art Building collections. The subjects of these reports are, within certain limits, left to the student's choice.

ASTRONOMY
PROFESSOR LITTLE

1. Descriptive Astronomy. First semester: Tuesday, Thursday, Saturday, 9.30.
A non-mathematical course giving a general survey of our present knowledge of the positions, motions, shapes, sizes, masses, physical conditions, and evolutions of all types of the heavenly bodies.
Sufficient observation work is included to acquaint the student with the more important constellations and the telescopic aspect of moon, planets, and nebulae.
Text-book: Moulton's Astronomy.
Elective for Freshmen, Sophomores, Juniors, and Seniors.

The use of the sextant in aerial and marine navigation. Elementary observatory determinations of time, latitude, and longitude.
Prerequisite, Mathematics 1.

BIOLOGY
PROFESSORS COPELAND AND GROSS

Zoölogy

1-2. General Introduction to Zoölogy. Lectures and labora-
Courses of Instruction

latory work. Whole year: Monday, Wednesday, Friday, 1.30. Laboratory work on the same days at 2.30 or 3.30.

Professor Copeland

The lectures in Course 1-2 are designed to give a general introduction to the subject of Zoology. The classification, distribution, morphology, physiology, ecology, and evolution of animals are discussed. Representative types from the lower groups of animals to the vertebrates are studied in the laboratory. Some exercises in addition are based on animal cytology, histology, embryology, and physiology. The exercises involve the use of the microscope, and the student is given practice in dissecting. This course is intended for beginners, and for those wishing to gain a comprehensive view of the subject.

Elective for Sophomores, Juniors, and Seniors, and for a limited number of Freshmen by special arrangement with the Department; and required of Freshmen in the Medical Preparatory Course.

3.4. Comparative Anatomy of Vertebrates. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30. Professor Gross

Given in 1934-1935; to be omitted in 1935-1936.

Course 3-4 deals with the morphology of vertebrates from a comparative standpoint, and illustrates the evolution of animals from the fishes to the mammals. The classification of the chordates, theories of vertebrate structure, and the homologies of organs are discussed. The dogfish and Necturus are used as the types of vertebrates for study and dissection. Dissections of other forms are used for demonstrating homologous organs. The laboratory work of the second semester is devoted to the study of the cat, but comparisons of systems of organs are made with those of animals studied earlier in the course.

Elective for those who have passed, or are taking, Course 1-2.

[5. Microscopical Anatomy. Lectures and laboratory work. First semester: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.] Professor Gross

Omitted in 1934-1935; to be offered in 1935-1936.

This course treats of the technique involved in the preparation and study of animal cells and tissues. A series of preparations is made and studied in the laboratory.

Elective for those who have passed, or are taking, Course 1-2.

[6. Vertebrate Embryology. Lectures and laboratory work. Second semester: Monday, Wednesday, Friday; lecture, 10.30; laboratory work, 11.30.] Professor Gross

Omitted in 1934-1935; to be offered in 1935-1936.

A course on the earlier stages of development, treating of
the reproductive cells, maturation, fertilization, cleavage, the formation of germ layers, the development of the primitive segments, and the formation of fetal membranes. A series of preparations illustrating the early development of the chick and pig is made and studied.

Prerequisite, Course 5.

Courses 3-4 and 5, 6 are given in alternate years and are intended for those who desire to lay a broad foundation for the study of human anatomy, embryology, and physiology, and for those especially interested in or proposing to teach biology. Some opportunity is offered for a selection of work in accordance with the special requirement of the student. Practice is also given in technical laboratory methods.

12. Ornithology. Lectures, demonstrations, readings, reports, field and laboratory work. Second semester: six hours a week, Tuesday, Thursday, 2.30-4.30, and special work at the convenience of instructor and students. PROFESSOR GROSS

A course dealing with the behavior, migration, structure, adaptations, and economic relations of birds; and the origin, evolution, distribution, and classification of the group. The laboratory work includes the identification and study of the college's collection of North American birds. As a part of the field work each student will be assigned a special problem in ecology, or life history, of some bird.

Elective for those who have passed, or are taking, Course 1-2.

Botany

1. Botany. Lectures and laboratory work. Second semester: Monday, Wednesday, Friday, 8.30. Laboratory work on the same days at 9.30 or 10.30. PROFESSOR COPELAND

The lectures are intended to give a general survey of botany and treat principally of the classification, morphology, physiology, and ecology of plants. The laboratory work consists of the study of types of the plant kingdom from the lower groups to the flowering plants. The purpose of the course is to give a comprehensive view of the plant kingdom, and to present some of the facts and doctrines derived from the scientific study of plants. It is intended for beginners.

Elective for Sophomores, Juniors, and Seniors, and required of students majoring in Biology.

Biology

7-8. Special Laboratory and Field Investigations. Whole
year: six hours a week, at the convenience of instructor and students.  

**Professors Copeland and Gross**

This course offers to students having the requisite training the opportunity of pursuing original biological investigations under the direction of the instructor.

Elective only with the approval of the Department.

**Professor Copeland**

This course includes a discussion of the evidence supporting the doctrine of evolution, and an examination into the theories of species origin. The topics of variation, adaptation, heredity, and other problems which arise in connection with evolutionary biology are discussed.

Elective for Juniors and Seniors.

**CHEMISTRY**

**Professor Meserve, and Assistant Professors Root and Kamerling**

1-2. General Chemistry. Lectures, conferences, and laboratory work. Whole year: Monday, Wednesday, Friday, 10.30.

**Professor Meserve, and Assistant Professors Root and Kamerling**

This course gives a survey of chemical phenomena and chemical substances, discusses the fundamental laws and theories of chemistry, and describes its more important applications in industry and everyday life.

Elective for Freshmen, Sophomores, Juniors, and Seniors.

3. Chemical Principles (including Qualitative Analysis). Lectures, conferences, and laboratory work. First semester: Tuesday, Thursday, 1.30, and a third hour to be arranged.

4. Continuation of Course 3. Second semester: at the same hours.

**Assistant Professor Root**

A survey of those theories of chemistry which are essential to an understanding of chemical reactions and the behavior of matter under varying conditions. Among the subjects considered are rates of reaction; equilibria; theories of solution, of valence, of oxidation and reduction.

The laboratory work consists of elementary experiments in physical chemistry, and a comprehensive study of the qualitative analysis of inorganic substances.

Prerequisite, Course 1-2.
5. Quantitative Analysis. Lectures and laboratory work. First semester: Tuesday, Thursday, 2.30.
6. Continuation of Course 5. Second semester: at the same hours. **Assistant Professor Kamerling**

An introductory course illustrating the fundamental principles of gravimetric, volumetric, and electrometric analysis and their application to various problems in industry and medicine.
Prerequisite, Course 3.

7-8. Elementary Organic Chemistry. Lectures and laboratory work. Whole year: Monday, Wednesday, Friday, 2.30. **Professor Meserve**

An introduction to the chemistry of the compounds of carbon. This course forms a foundation for further work in organic chemistry or biochemistry.
Prerequisite, Course 1-2.

9. Elementary Physical Chemistry. Lectures and laboratory work. First semester: Monday, Wednesday, Friday, 1.30.
10. Continuation of Course 9. Second semester: at the same hours. **Assistant Professor Root**

A general survey of the field of physical chemistry, and its applications to organic chemistry, physics, and biology. Courses 9, 10 are essential for further work in theoretical or industrial chemistry.
Prerequisites, Course 3, and Physics 1-2. Mathematics 1-2 and 3-4, and Physics 4 are strongly recommended.

12. Continuation of Course 11. Second semester: hours by arrangement. **Assistant Professor Kamerling**

The problems are chosen according to individual preferences. Usually one semester is spent in qualitative organic analysis, and the other in carrying out preparations of an advanced nature and/or the study of selected topics in the field of biochemistry.
Prerequisite, Course 7-8.

As a guide for those planning advanced study in the Department, it is suggested that courses be taken in the following order:
Freshman year: Chemistry 1-2; Mathematics 1-2.
Sophomore year: Chemistry 3, 4; Chemistry 7-8; Physics 1-2.
Junior year: Chemistry 5.
Senior year: Chemistry 9.
COMPARATIVE LITERATURE

PRESIDENT SILLS

1. Comparative Literature. First semester: Monday, Wednesday, FRIDAY, \textbf{11.30}.
A study of some of the more important literary works of classical and medieval periods, including the Bible, with particular emphasis on their influence upon later literature.

2. Continuation of Course 1. Second semester: at the same hours.
A study of the more important literary works of the Renaissance from Dante to Shakespeare.
Elective for Juniors and Seniors.

ECONOMICS and SOCIOLOGY

PROFESSORS CATLIN AND VON BECKERATH, ASSOCIATE PROFESSOR CUSHING, ASSISTANT PROFESSOR SIBLEY, AND DR. BROWN

Economics

Professor Catlin, Associate Professor Cushing, and Dr. Brown
A study of the fundamental laws of the subject with some of their practical applications in business and politics.
Elective for Sophomores, Juniors, and Seniors.

3-4. Money, Banking, and Business Finance. Whole year: Tuesday, Thursday, Saturday, \textbf{11.30}.

Associate Professor Cushing
The general principles of money and banking, and their application to current problems: the operations of the Federal Reserve System, credit policy and the business cycle, the international gold standard, etc. In the second semester, practice in the analysis of financial statements introduces study of the financial policies of corporate enterprise.
Prerequisite, Course 1-2.

5. Domestic Commerce. First semester: Tuesday, Thursday, Saturday, \textbf{9.30}.

Professor Catlin
Omitted in 1934-1935; to be offered in 1935-1936.
This course deals with the problems and steps in marketing
farm products, raw materials, and manufactured goods: the produce markets, wholesaling, retailing, coöperative selling and buying, advertising. Emphasis is placed on the consumer's viewpoint.

Prerequisite, Course 1-2.

[6. Public Finance. Second semester: Tuesday, Thursday, Saturday, 8.30.]

Omitted in 1934-1935.
This course takes up the problems of local, state, and national revenue and expenditure from a social as well as from a fiscal standpoint.

Prerequisite, Course 1-2.

[7-8. Statistics. Whole year: Tuesday, Thursday, 1.30, and a laboratory period by arrangement.]

Omitted in 1934-1935; to be offered in 1935-1936.
An introduction to statistical material and methods, with special reference to economic statistics. Attention is given to methods of collecting, tabulating, charting, and analyzing statistical data. Individual reports on selected topics may be required. Problem work in the laboratory occupies at least two hours a week.

Prerequisites, Economics 1-2, and Mathematics 1, 2.

9-10. Industrial Relations. Whole year: Tuesday, Thursday, Saturday, 11.30.

Professor Catlin

After a brief survey of other management problems, such as location, layout, equipment, power, purchasing, and stores, the remainder of the year is taken up with a study of personnel and labor problems. Employment and unemployment, health, safety, hours, wages, and other questions are considered from the standpoints of the employer, the employee, and the public. Each student is expected to visit and report upon at least one important industrial plant.

Prerequisite, Course 1-2.

11. Principles of Accounting. Text-books, laboratory practice, conferences, and lectures. First semester: Tuesday, Thursday, 1.30; and laboratory hours at the convenience of instructor and students.

Dr. Brown

The principles and problems of accounting considered chiefly from the standpoint of the business executive. The elements of double-entry bookkeeping are followed by such subjects as the preparation and interpretation of financial and revenue statements, depreciation, partnership and corporate accounting, and the valuation of assets.

Prerequisite, Course 1-2.
13. Types of Economic theory. First semester: Tuesday, Thursday, Saturday, 8.30. PROFESSOR CATLIN
A comparative study of representative economic writers of the past two centuries, with special emphasis upon the relationship between economic thought and economic conditions in each period.
Prerequisite, Course 1-2. Required of students majoring in Economics and Sociology.

A survey of international trade and finance in their economic and political aspects. Following a study of the theory of international trade and capital movements, with special application to the United States, consideration is given to the tariff and other foreign policies dealing with such problems as colonies, control of raw materials, investments, shipping, and cartels.
Prerequisite, Course 1-2.

15-16. Industrial Problems. Whole year: Tuesday, Thursday, Saturday, 9.30. PROFESSOR VON BECKERATH
Lectures and conferences. A study of the organization and social aspects of modern industry.
Prerequisite, Course 1-2.

Sociology

ASSISTANT PROFESSOR SIBLEY

1-2. Elements of Sociology. Whole year: Tuesday, Thursday, Saturday, 10.30.
General introduction to the scientific study of society: man's biological, psychological, and cultural heritages; the nature and development of social groups, customs, and institutions.
Elective for Juniors and Seniors.

Growth and movements of population, eugenics, immigration, conflicts and adjustments among races and nationalities, urbanization, with special reference to the United States. Emphasis will be placed on individual reports on specific problems.
Prerequisite, Course 1-2.

Study of the organized efforts of modern societies to deal with such matters as dependency, delinquency, crime, vice,
physical and mental disease. Emphasis will be placed upon individual reports on specific problems.  
Prerequisite, Course 1-2.

EDUCATION

ASSISTANT PROFESSOR P. S. WILDER

[1-2. History of Educational Theory. Whole year: Monday, Wednesday, Friday, 1.30.]
Omitted in 1934-1935; to be offered in 1935-1936.
A study of the theories and principles of education, and of the history of education in western Europe and the United States. Readings, reports, and conferences. Intended primarily for students who plan to teach.
Elective for Juniors and Seniors.

Given in 1934-1935; to be omitted in 1935-1936.
A study of desirable teaching methods for the secondary school teacher, including some discussion of his work as a school administrator. Readings, conferences, and some observation in the Brunswick High School. Intended primarily for students who plan to teach.
Courses 3, 4 do not count toward a degree, but will count toward honors.
Elective for Juniors and Seniors.

Given in 1934-1935; to be omitted in 1935-1936.
A consideration of the duties of the high school principal or submaster and of his relations to the superintendent, the school board, his teachers, and pupils.
Elective for Juniors and Seniors.

ENGLISH

PROFESSORS MITCHELL, CHASE, AND COFFIN, ASSOCIATE PROFESSOR BROWN, ASSISTANT PROFESSORS HARTMAN, AND DAGGETT, AND MR. QUINBY

English Composition and Public Speaking

1-2. English Composition.  First semester: Tuesday, Thursday, Saturday; Divs. C and E, 9.30; Divs. A, D, F, and G, 10.30; Divs. B and H, 11.30. Second semester: Tuesday, Thurs-
Courses of Instruction

Professor Mitchell, Associate Professor Brown, Assistant Professors Hartman and Daggett, and Mr. Quinby

A study of diction and of the structure of the sentence and the paragraph, followed by a study of the theme as a whole, introductory to more extended practice in exposition, description, narration, and argumentation in advanced courses. Recitations, lectures, readings; written work with conferences; outside reading.

Required of Freshmen.

Professor Mitchell and Mr. Quinby

Informal lectures; drill in articulation, intonation, and gesture: short declamations with criticism by students and instructor; longer declamations, previously rehearsed to the instructor, spoken before the class.

Required of Freshmen.

5. Argumentation and Debating. First semester: Tuesday, 2.30, Thursday, 2.30-4.30. Assistant Professor Daggett

Further study of argumentation, especially as applied to formal debating. Study of principles, analysis of notable examples, parliamentary procedure, practice in speaking, participation in actual debates.

Course 5 will be given upon application of at least six duly qualified students.

Prerequisites, Courses 1-2, 4.

6. Advanced Public Speaking. Second semester: at the same hours as Course 5.

Mr. Quinby

Frequent exercises in extemporaneous speaking, preparation and delivery of various types of public address, and an introduction to phonetics.

Elective for not more than twenty Juniors and Seniors whose registration receives the approval of the instructor and the Dean.
7. English Composition. First semester: Tuesday, Thursday, 11.30, and individual conferences at hours to be assigned. Written work required each week, on assigned subjects. Attention in reading, writing, and class discussions is focused upon the more elementary aspects of composition. Elective for Juniors and Seniors whose registration receives the approval of the instructor.

8. Advanced English Composition. Second semester: at the same hours as Course 7. Assistant Professor Hartman

A study of the larger, more refined aspects of literary composition, with attention to special forms and individual interests. For advanced students. Elective for Juniors and Seniors whose registration receives the approval of the instructor.

[9-10. A Survey of English Literature. Whole year: Tuesday, Thursday, Saturday, 11.30.] Professor Coffin

To be offered in 1935-1936. Lectures and readings covering the field of English literature, with particular emphasis on a few outstanding authors or works. Critical essays based on outside reading assignments. Elective for Sophomores, Juniors, and Seniors.

11-12. Six English Novelists. Whole year: Tuesday, Thursday, Saturday, 11.30. Associate Professor Brown

Given in 1934-1935; to be omitted in 1935-1936. Readings in the works of six English novelists. Lectures and group discussions; frequent reports and critical essays. The authors studied are: Samuel Richardson, Henry Fielding, Sir Walter Scott, George Eliot, George Meredith, and Thomas Hardy. Elective for Sophomores, Juniors, and Seniors.
Courses of Instruction

Professor Chase

This course is intended for those who wish a really close acquaintance with the principal plays of Shakespeare. In each semester, four plays are studied textually, and six or seven others are read more cursorily. Supplementary reading, group discussions, and reports.

Elective for Sophomores, Juniors, and Seniors.

Professor Coffin

Given in 1934-1935; to be omitted in 1935-1936.

English literature, excluding the drama, from the Elizabethan period to the time of Queen Anne. The chief emphasis will be placed on Spenser, Donne, and the other metaphysical poets, Herrick, Milton, and Dryden; but other authors will be dealt with, including Elizabethan lyricists, Bacon, Jonson, and the Cavalier poets, Burton, Browne, Marvell, Walton, Clarendon, Butler, Anthony à Wood, Bunyan, Pepys, Evelyn, and Pope. Students in this course will have opportunity to do independent investigation of authors, or subjects, not chiefly emphasized in the course, and to report on them in papers and lectures before the class.

Elective for Juniors and Seniors.

[17-18. Nineteenth Century Poets. Whole year: Monday, Wednesday, Friday, 10.30.]  
Assistant Professor Hartman

Omitted in 1934-1935; to be offered in 1935-1936.

Readings in the poetry and prose of the major pre-Romantic, Romantic, and Victorian poets, with special emphasis upon Wordsworth, Coleridge, Byron, Shelley, Keats, Tennyson, and Arnold. Lectures and conferences.

Elective for Juniors and Seniors.

Professor Chase

Given in 1934-1935; to be omitted in 1935-1936.

Certain leading men of letters of the eighteenth and nineteenth centuries, (e.g., Mandeville, Shaftesbury, Swift, Burke, J. S. Mill, Carlyle, Newman, Huxley, Samuel Butler), are studied, as representative of the thought of their respective ages, especially as regards the relation of the individual to society. More than other courses of the Department, this course is concerned with the interrelations of social and political changes, philosophy, science, and literature; and the writings...
chiefly studied are prose works of men for whom literature was more a vehicle of ideas than a form of artistic expression. Elective for Sophomores, Juniors, and Seniors.

[21-22. Chaucer and the Fourteenth Century. Whole year: Tuesday, Thursday, Saturday, 8.30.] PROFESSOR CHASE

Omitted in 1934-1935; to be offered in 1935-1936.

The Canterbury Tales, and Troilus and Criseyde; as much of Chaucer's other work as time permits; readings from Chaucer's contemporaries; reports and essays on topics connected with mediaeval literature.

Elective for Juniors and Seniors.

[23-24. The Drama. Whole year: Monday, Wednesday, Friday, 8.30.] ASSOCIATE PROFESSOR BROWN

Omitted in 1934-1935; to be offered in 1935-1936.

A study of the most important plays of English dramatists, (excluding Shakespeare), of the Elizabethan and Restoration periods and of modern dramatists in Europe and America.

Prerequisite, Course 13-14.

[25-26. American Literature. Whole year: Monday, Wednesday, Friday, 2.30.] PROFESSOR MITCHELL

Omitted in 1934-1935; to be offered in 1935-1936.

A survey of the beginnings and development of American literature, including the study of Franklin, Irving, Cooper, Hawthorne, Poe, Longfellow, Whittier, Lowell, Whitman, and Emerson.

Elective for Sophomores, Juniors, and Seniors.

27-28. Contemporary English and American Literature. Whole year: Monday, Wednesday, Friday, 10.30. PROFESSOR COFFIN

Given in 1934-1935; to be omitted in 1935-1936.

A study of some of the leading writers in English and American literature of the twentieth century. Among the authors read are Hardy, A. E. Housman, Masefield, Joyce, Lawrence, Galsworthy, Robinson, Frost, Lewis, Anderson, Millay, Wylie, O'Neill, Cather, Wilder, Eliot, Benét, Jeffers, Hemingway, and Faulkner.

Elective for Juniors and Seniors.

Students majoring in English are advised not to take more than four courses for college credit in either semester of their Senior year.

13. Selected Authors. First semester: Monday, Wednesday, Friday, 8.30.

14. Continuation of Course 13. Second semester: at the same hours.

PROFESSOR BROWN

Given in 1934-1935; to be omitted in 1935-1936.

Primarily a reading course with discussions in class of the
works read. The authors to be studied in 1934-1935 are:
Racine, La Fontaine, Marivaux, Voltaire, Musset, Bourget.
Prerequisite, Course 5-6.

15-16. Advanced Composition and Conversation. Whole

Mr. Pelmont

This course is conducted entirely in French. It is limited in
numbers and may be elected only with the approval of the
Department.

**GEOLOGY and MINERALOGY**

**Geology**

**Professor Meserve**

1. Physical Geology. First semester: Monday, Wednesday,
Friday, 9.30.

Given in 1934-1935; to be omitted in 1935-1936.
Elective for Sophomores, Juniors, and Seniors.

2. Historical Geology. Second semester: at the same hours.

Given in 1934-1935; to be omitted in 1935-1936.
Prerequisite, Course 1.

**Mineralogy**

[1. The identification, composition, properties, occurrence,
and uses of the common minerals and rocks. Lectures and
laboratory work. Second semester: Tuesday, Thursday, Satur-
day, 8.30.]

Omitted in 1934-1935.
Elective for Sophomores, Juniors, and Seniors who have
passed Chemistry 1.

**German**

**Professor Ham, Assistant Professor Kölln, and
Mr. White**

1-2. Elementary German. Whole year: Tuesday, Thurs-
day, Saturday; Div. A, 8.30; Div. B, 10.30; Div. C, 11.30;
Monday, Wednesday, Friday; Div. D, 8.30; Div. E, 10.30;

Professor Ham, Assistant Professor Kölln,
and Mr. White

See page 61 for requirements in Modern Languages.
3-4. Advanced German. Whole year: Monday, Wednesday, Friday, 9.30. 
  PROFESSOR HAM
  Reading and composition. Review of grammar.
  See note under Course 5-6.

5-6. Advanced German. Whole year: Tuesday, Thursday, Saturday, 9.30. 
  MR. WHITE
  Reading and composition. Review of grammar. Practice in speaking German.

Courses 3-4 and 5-6 are parallel courses, elective for students who have passed Course 1-2 or its equivalent. Both courses may be elected simultaneously, but may not be taken in successive years.

  PROFESSOR HAM
  Literature of the eighteenth and nineteenth centuries. Practice in writing German.
  See note under Course 12.

[9-10. German Literature. Whole year: Monday, Wednesday, Friday, 8.30.] 
  ASSISTANT PROFESSOR KÖLLN
  Omitted in 1934-1935; to be offered in 1935-1936.
  A rapid survey of German Literature from the earliest times to the middle of the eighteenth century; a more detailed study of the period from 1748 to 1900, with classroom and outside reading. The lectures are in German.
  See note under Course 12.

11. Schiller. First semester: Monday, Wednesday, Friday, 8.30.

  ASSISTANT PROFESSOR KÖLLN
  Given in 1934-1935; to be omitted in 1935-1936.
  Lectures, classroom and outside reading.
  The lectures are in German.

Courses 7-8, 9-10, and 11, 12 are elective for those who have passed Course 3-4, or 5-6, and, with the consent of the instructor, for those who have passed Course 1-2 with high rank.

  ASSISTANT PROFESSOR KÖLLN
  Life and works of the poet; interpretation, especially of Faust.
Bowdoin College

Elective for those who have passed Course 9-10, and, with the consent of the instructor, for other suitably qualified Seniors.

15-16 Advanced Composition and Conversation. Whole year: three hours a week by appointment.

ASSISTANT PROFESSOR KÖLLN

This course is conducted in German. It may be elected only with the approval of the Department.

GREEK

PROFESSORS MEANS AND SMITH

1-2. Elementary Greek. Whole year: Monday, Tuesday, Wednesday, Friday, 8.30. PROFESSOR MEANS

A systematic drill in vocabulary, forms, and syntax of Attic Greek. During the second semester, Book I of Xenophon’s Memorabilia will be read.

Elective for those who enter without Greek.

PHILOSOPHY

Professor Mason and Assistant Professor Stallknecht

1-2. History of Philosophy. Whole year: Monday, Wednesday, Friday, 8.30. Professor Mason and Assistant Professor Stallknecht
The aim of this course is to introduce the student to philosophy through a study of the history of philosophy by showing him what the great thinkers have thought about the world and by making clear to him the more important philosophical points of view. It covers the general history of ancient, mediaeval, and modern philosophy with more special study of such thinkers as Plato, Aristotle, DesCartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. It is arranged to meet the needs of those who want merely a general idea of philosophy and its history as well as of those who intend to take the advanced courses. Elective for Sophomores, Juniors, and Seniors.
Courses of Instruction

Professor Mason

Omitted in 1934-1935; to be offered in 1935-1936.

A course in general theoretical philosophy, considered systematically. The problems of truth, reality, nature, mind, etc., are taken up both with respect to the fundamental principles involved and to their bearing on the various phases of life and experience. The solution of these problems is considered along the lines suggested by materialism, positivism, dualism, realism, idealism, pragmatism, intuitionism, and other types of thought.

Prerequisite, Course 1-2.

Professor Mason

A systematic study of moral experience with reference to the interpretations presented by the schools of ethical thought.

Prerequisite, Course 1-2; except that it may be taken by Juniors and Seniors in the same year as Course 1-2.

Professor Mason

This course covers the main movements of the philosophy of the present day. These movements are traced back to their sources in the history of philosophy and are also considered critically with respect to their application to fundamental philosophical problems. Special study is given to naturalism, realism, pragmatism, and idealism, and the texts of such thinkers as Haeckel, Russell, Bergson, Bradley, James, and Royce are read as examples of those movements.

Prerequisite, Course 1-2.

Assistant Professor Stallknecht

Omitted in 1934-1935; to be offered in 1935-1936.

A study of the several distinctive philosophical attitudes that are to be found in literature. The student is invited not to examine systems of philosophy from a technical or even a logical point of view, but to perceive the emotional and mental atmospheres which aid in determining the growth of both philosophy and literature.

Prerequisite, Course 1-2: except that it may be taken by Juniors and Seniors in the same year as Course 1-2.
7. Logic and the Philosophy of Science. First semester: Monday, Wednesday, Friday, 10.30.

ASSISTANT PROFESSOR STALLKNECHT

Given in 1934-1935; to be omitted in 1935-1936.
An introductory study of logical theory and technique, of scientific methods, and of the philosophical background of natural science.
Prerequisite, Course 1-2.

ASSISTANT PROFESSOR STALLKNECHT

This course may be taken in two successive years.
Prerequisite, Course 1-2.

[9. Æsthetics. First semester: Monday, Wednesday, Friday, 10.30.] ASSISTANT PROFESSOR STALLKNECHT

Omitted in 1934-1935; to be offered in 1935-1936.
A philosophical study of the æsthetic experience as distinguished from other phases of human life, such as the moral, the theoretic, and the practical. The chief writings of some of the great philosophers who have written on the subject are studied, including such thinkers as Plato, Hume, Kant, Schopenhauer, and Croce. Bosanquet’s History of Æsthetics is used as a reference work.
Prerequisite, Course 1-2.

PHYSICAL EDUCATION
(See Hygiene and Physical Education)

PHYSICS

PROFESSOR LITTLE AND ASSISTANT PROFESSOR WELCH

1-2. General Physics. Whole year: Recitation Divisions, Tuesday, Thursday, Saturday, 9.30 or 11.30; Demonstration Lecture, Saturday, 8.30; One two-hour Laboratory Exercise, Monday, 8.30-10.30, or 10.30-12.30; Thursday, 1.30-3.30; Friday, 1.30-3.30.

PROFESSOR LITTLE AND ASSISTANT PROFESSOR WELCH

An introductory course covering the whole field of General Physics, and providing sufficient practice in laboratory tech-
nique to meet the elementary requirements of the other natural sciences and medicine.
Elective for Freshmen, Sophomores, Juniors, and Seniors.

[3. Graphical Physics. First semester: Tuesday, Thursday, Saturday, 10.30.]
Omitted in 1934-1935; to be offered in 1935-1936.
Prerequisites, Physics 1-2, and Mathematics 1, 2.

4. Recent Developments in Physics. Second semester: Tuesday, Thursday, Saturday, 10.30.

Assistant Professor Welch
A non-mathematical course affording students, who have some background in the natural sciences, an opportunity to become acquainted with modern physical concepts of the nature of things. In particular, conduction of electricity in gases, radio-activity, x-rays, photo-electricity, thermonics, crystal and atomic structures are discussed from the viewpoint of the electron theory.
Prerequisite, Course 1.

5. Laboratory Physics. First semester: Tuesday, Thursday, 8.30; Laboratory hours by arrangement, on Monday and Tuesday.

6. Continuation of Course 5. Second semester: at the same hours.

Professor Little and Assistant Professor Welch
Standard physical measurements are made in the fields of mechanics, sound, heat, electricity and magnetism, optics, and modern physics.
Prerequisites, Physics 1-2, and Mathematics 1, 2.

7-8. Special Laboratory or Theoretical Studies. Whole year: three hours a week, or an equivalent in laboratory work, at the convenience of instructor and students.

Professor Little
This course offers to students having requisite training the opportunity of pursuing individual physical investigations under the direction of the instructor.
Elective only with the approval of the Department.

PSYCHOLOGY

Professor Burnett and Dr. Miller

1-2. General Psychology. Whole year: Tuesday, Thursday, Saturday, 8.30. Professor Burnett and Dr. Miller
The aim of this course is to acquaint the student with the facts and the laws of the mind. Emphasis is laid upon those topics which are most intimately connected with practical life and a knowledge of which is highly important for a man of liberal education. The subject matter is treated from the point of view of natural science. Emphasis is laid upon developing in the student the skill to use Psychology for interpreting the events of life and for accomplishing its business.

Elective for Sophomores, Juniors, and Seniors.

3. Abnormal Psychology. First semester: Tuesday, Thursday, Saturday, 9.30.

This course considers the abnormal facts of mental life, such as insanity, hypnotism, hysteria, and multiple personality, for the light these throw on borderland states in every man's life. The emphasis is thus on the slightly abnormal phenomena of every day, which interfere with a man's full mental efficiency for work and enjoyment.

Prerequisite, Course 1-2.

4. Social Psychology. Second semester: at the same hours as Course 3. PROFESSOR BURNETT

This course deals with the effect of social conditions on mental life. It inquires into the psychology of human social groups of all sorts, such as nations, legislatures, committees, crowds, publics, unions, associations, etc., and into the operations of group mind revealed in customs, conventions, fashions, institutions, religions, myths, art, and language. It tries to answer the question: How and why does a man when aware of belonging to a group, behave and think and feel otherwise — sometimes better, sometimes worse — than when not aware of that group relationship?

Prerequisite, Course 1-2.

5-6. Experimental Psychology. Whole year: Tuesday, Thursday, Friday, 1.30-3.30. DR. MILLER

The object of this course is training in methods of investigation, in the discovery and reliance upon experimental evidence, with especial reference to the particular application to the science of Psychology.

Prerequisite, Course 1-2.

Under certain circumstances this work may be continued for another year.

RELIGION

DR. SCHROEDER

Courses of Instruction

2. Continuation of Course 1. Second semester: at the same hours.
   A critical introduction to the Old and New Testaments; an examination of the religion and literature of the Bible.
   The purpose of the course is to acquaint the student with the contents of the Bible and to analyze critically the development of its religious insight.
   Elective for Sophomores, Juniors, and Seniors.

### Lectureships

**ANNE TALBOT COLE LECTURESHIP**

This lectureship was founded in 1906 by Mrs. Calista S. Mayhew, of South Orange, N. J., in memory of her niece, Mrs. Samuel Valentine Cole, with a gift of $4,750. According to the provision of the donor, this lectureship is to "aim at contributing to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive the highest ideals of character and conduct, and also, in so far as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts."
BENJAMIN APTHORP GOULD FULLER MEMORIAL FUND

This fund of $3,821 was founded in 1911 in memory of Benjamin Apthorp Gould Fuller, A.M., of the Class of 1839, and provides for instruction in Social Hygiene in its broadest aspect.

MAYHEW LECTURESHIP

This lectureship was founded in 1923 by Mrs. Calista S. Mayhew. The income from the bequest of $5,000 is used "to provide lectures on bird life and its effect on forestry."

TALLMAN LECTURE FUND

This fund of $100,000 was given by Frank G. Tallman, of Wilmington, Delaware, in 1928, as a memorial to the Bowdoin members of his family. The income is "to be expended annually upon a series of lectures to be delivered by men selected by the Faculty either in this country or abroad."

JOHN WARREN ACHORN LECTURESHIP

This lectureship was established in 1928 by Mrs. John Warren Achorn, as a memorial to her husband, a member of the Class of 1879. The income from the fund of $2,500 is used for lectures on birds or bird life.

INSTITUTES

The regular instruction of the College is supplemented every two years by Institutes in various subjects. Institutes have been held in Modern History, Modern Literature, the Fine Arts, the Social Sciences, and the Natural Sciences.

The method of conducting these Institutes is to bring to Brunswick ten or more lecturers, each an authority in his field, and each of whom gives a public lecture and conducts a round-table conference solely for students. Thus, each student, during his college course has an opportunity, not only to hear at least twenty people from beyond the college faculty, but to participate in round-table conferences with those in whose subjects he is most interested.
ADMINISTRATION OF THE COLLEGE

TERMS and VACATIONS

The Academic Year is divided into two semesters, or terms, of equal length. Commencement Day is the Thursday after the third Monday in June. The summer vacation of fourteen weeks follows Commencement Day. There are three periods of vacation during the year: the first, a recess of about four days, including Thanksgiving Day; the second, a recess of about ten days including Christmas and New Year’s; and the third, the Easter recess of ten days beginning on Friday of the week before the first day of April, and continuing until Tuesday of the week following the first day of April. The following are also observed as holidays: Armistice Day, Washington’s Birthday, Patriots’ Day, Ivy Day, and Memorial Day.

REGISTRATION and ENROLLMENT

All students are required to register on the first day of each academic year, except that Freshmen on entering college are required to register on Wednesday morning preceding the opening of the academic year. A fine of two dollars is charged for late registration.

Students must enroll for courses previous to the opening of each semester, in accordance with the regulations posted at the College. A fine is imposed for late enrollment.

COLLEGE BILLS

Bills for tuition, blanket tax, and union fee are mailed to each student about two weeks before the opening of each semester. Bills for all other college charges are mailed in duplicate at the close of each semester, one copy to the student and the other to the parent or guardian. All bills become payable on presentation.

No student will be advanced in class standing until all the dues of the previous year have been paid; and no degrees will be conferred upon students who have not paid all their dues to the College.

No student will be dismissed from college on request unless he shall have paid all his college bills, including that of the current semester.
During the time that term bills which are overdue remain unpaid, a student receives no credit for college work.

**EXPENSES**

**TUITION.**—The tuition fee is $250 a year, one-half of which must be paid at the beginning of each semester before a student is allowed to register. Any student completing the number of courses required for a degree in less than four years will be required to pay full tuition for four years.

**OTHER COLLEGE CHARGES.**—All damage done to the buildings or other property of the College by persons unknown, may be assessed equally on all the undergraduates. A diploma fee of $5 is charged to each student at graduation. The College also collects an annual fee of $3 or $4 for a locker and the use of towels in the gymnasium; a fee of $5 each semester for the privileges of the union; and a fee of $12.50 a semester, to support the various student activities.

**ROOMS.**—Rooms, including heat and care, in the college dormitories may be rented at prices varying from $160 to $310 a year. The price may be halved if the room is shared with another student, as is usually done. Electric lights are furnished at the rate of $6 per 40-watt lamp a year. None of the college rooms is furnished. Freshmen are required to room in the college dormitories, unless other arrangements are made with the Dean. Applications for rooms should be made to the Treasurer.

**BOARD.**—Board at the fraternity houses and at other places in the town varies from $7 to $8 a week. The cafeteria in the Moulton Union accommodates seventy-five to a hundred students, and meals are furnished at reasonable rates.

A leaflet containing estimates of all necessary college expenses, as well as scholarship aid and self-help has been prepared. A copy will be sent gratis on application to the Dean.

**FEES FOR COURSES**

The payment of fees for extra courses is regulated by the following provisions. (Any course taken in excess of four courses, with the exception of English 4 and Hygiene, is regarded as an extra course.)
(1) The sum of $7.50 is charged for each extra course, the same to be paid in advance and to be rebated at the close of the semester in which the course is taken, provided the four regular courses and the extra course be passed. (2) Such charges are remitted in the case of Seniors who need the extra course or courses to complete their work for graduation.

The fees for laboratory courses are as follows:

Chemistry 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, $3.75 each; Mineralogy, $2.50. If two courses are taken at the same time, one of which is not Chemistry 7 or 8, the fee for the two is $5.50. Zoölogy 3, 4, 5, 6, $3 each; Zoölogy 12, $5.

**ATTENDANCE AT EXERCISES**

Attendance is required of all students at recitations and lectures continuously throughout the academic year.

**EXAMINATIONS**

The regular examinations of the College are held at the close of each semester.

An unexcused absence from an examination entails a mark of zero. In case of illness or other unavoidable cause of absence from examination, the Dean has power to suspend the action of this rule.

**RANK**

The rank of a student in each course is computed on a scale of 10, but is preserved on the college records in the letters A, B, C, D, and E. A signifies a rank from 9 to 10; B, a rank from 8 to 9; C, a rank from 7 to 8; D, a rank from 6 to 7; E, a rank lower than 6, and a condition.

**REPORTS OF STANDING**

A report of the rank of each student is sent to his parents or guardian at the close of each semester. The report contains a statement of the standing of the student in each of his courses, together with the number of unexcused absences from chapel.

**REQUIREMENTS FOR DEGREES**

In order to be recommended for the degree of Bachelor of Arts or Bachelor of Science, a candidate must have been at
least one year in residence at Bowdoin College and have complied with the regulations in regard to courses. He must, moreover, have attained a grade of C, or higher, in at least half his courses.

In accordance with a vote of the Boards passed in 1916, upon recommendation of the Faculty, the degree of Master of Arts, in course, is no longer conferred.

**DEGREES WITH DISTINCTION**

The Degree of Bachelor of Arts or Bachelor of Science with distinction is awarded in three grades:

Cum Laude. A candidate is recommended for a degree *cum laude* who has obtained an average grade of B in all courses presented for a degree.

Magna cum Laude. A candidate is recommended for a degree *magna cum laude* who has obtained a grade of A in three-fourths, and B in another eighth, of his courses.

Summa cum Laude. A candidate is recommended for a degree *summa cum laude* who has obtained a grade of A in seven-eighths of his courses. A candidate for a degree *summa cum laude* must have been in residence at Bowdoin College at least three years.

**HONORS IN MAJOR SUBJECTS**

Honors in major subjects are awarded, on vote of the Faculty, to students who especially distinguish themselves in those subjects. They are awarded in three grades: honors, high honors, and highest honors.

The award is based, not primarily on the average grade attained in the courses that constitute the major, but on the result reached in the additional work,—especially that which the student has done largely on his own initiative,—and on his ultimate attainment in the subject.

**RELIGIOUS EXERCISES**

Prayers are held each week-day at 8.20 A.M. in the College Chapel, and vesper services are held on Sundays at 5 o'clock. All students, unless excused by authority of the Dean, are
required to be present. From time to time during the year prominent clergymen of various denominations come to Brunswick to preach at the College.

**THE YOUNG MEN’S CHRISTIAN ASSOCIATION**

The Young Men’s Christian Association is an undenominational student organization, membership in which is open to every undergraduate. It stands definitely for a life governed by the principles of Christ as interpreted to meet the needs of college students. The Association conducts many lines of work. Occasional meetings are addressed by prominent business and professional men. The College preachers often meet the undergraduates informally on the Sunday evenings of their visits.

**BOARD OF PROCTORS**

The maintenance of order in the dormitories and the responsibility for their proper care are vested in a Board of Proctors.

The members for the year 1934-1935 are:

**The Acting Dean, Chairman**

Melville Lambert Hughes, Jr.  
Robert Edmund Hurley  
Elmer Hutchinson  
Albert Wilkie Kent  
Stanley Herbert Low  
William Howard Niblock  
Roscoe Goodridge Palmer  
Stanley Allston Sargent

**STUDENT COUNCIL**

The Student Council is composed of ten members from the Senior class and two from the Junior class elected annually by the undergraduates. In matters pertaining to student affairs it makes recommendations to the student body, and occasionally to the Faculty. The members for the year 1934-1935 are:

**President**  
William Howard Niblock  
Stanley Allston Sargent, Vice-President

John Salmon Baker  
Edward Baravalle  
John Stillman Boyd  
Gilbert Duncan Harrison, Jr.  
Melville Lambert Hughes, Jr.  
Elmer Hutchinson  
Albert Wilkie Kent  
Douglass Willey Walker  
Josiah Hayden Drummond  
Philip Given Good
ATHLETIC COUNCIL

The athletic interests of the College are regulated by the Athletic Council. It consists of thirteen members: three from the Faculty of the College, and five each from the alumni and student bodies. The members for the year 1934-1935 are as follows:

**Faculty**
Doctor Henry Lincoln Johnson
Professor Edward Sanford Hammond
Associate Professor Morgan Bicknell Cushing

**Alumni**
William Robert Crowley
Allan Woodcock
Charles Lawrence Hildreth
Leland Webb Hovey
Howard Morgan Mostrom

**Students**
William Howard Niblock
Stanley Allston Sargent
Josiah Hayden Drummond
Philip Given Good
Virgil Bond

FRATERNITY LIFE

The students of the College have divided themselves into groups for the purposes of social and personal relations. There are eleven chapters of the national Greek-letter societies, occupying their own fraternity houses. The Moulton Union makes it possible for all members of the College to enjoy many of the social and home-like advantages of fraternity life. The Committee on the Union is composed of four members of the Faculty and three undergraduates. The members for 1934-1935 are as follows:

Associate Professor Morgan Bicknell Cushing, Chairman; Professor Thomas Means, and Messrs. Donovan Dean Lancaster, Reinhardt Lunde Korgen, Harry Whittier Snow, Paul Gordon Favour, Jr., and Charles Howard Smith.

MEDICAL ATTENDANCE

In case of illness students should immediately call upon, or summon, the college physician, Dr. Johnson, whose office is in the Infirmary.

The Dudley Coe Memorial Infirmary, completed in 1917, and endowed by the donor with a sum ample for all running ex-
penses including that of resident attendants, is a gift of Dr. Thomas Upham Coe, of the Class of 1857, in memory of his son. It is fifty-eight feet in length and thirty-eight feet in width, and has three stories and a basement. It is entirely fireproof.

The basement contains a dining room, kitchen, laundry, furnace room, and janitor's room.

The first floor contains the reception hall, physician's office, operating room, sterilizing room, nurse-matron's rooms, two wards of two beds each, and bath rooms.

The second floor is designed especially for the care of contagious diseases and contains two hospital units; each unit, comprising two wards of two beds each, duty room, diet kitchen, and bath room. These units are so arranged that they can be isolated. There are also a physician's room and a sterilizing room on this floor.

The third floor contains rooms for the nurses connected with the infectious wards, rooms for maids, a solarium, and a storeroom.

Students, who are admitted to the Dudley Coe Memorial Infirmary on recommendation of the College Physician, are cared for without fee till discharged.

A fund of $1,000, given by Mr. and Mrs. George F. Godfrey, of Bangor, in memory of their son, Henry Prentiss Godfrey, is devoted to providing medical attendance for students who may be sick while in college.
FINANCIAL AID

SCHOLARSHIPS

More than $25,000 is distributed annually in the form of scholarships to aid meritorious students of slender means. Scholarships are not college honors and should be sought only by students who would have difficulty in meeting the expenses of their college education unless so aided. While scholarships are awarded primarily on the basis of need, a student, to continue to receive such aid, must maintain an average rank of C, or higher, in at least half his courses, this being the minimum requirement for graduation. Scholarships are not promised, or awarded, previous to admission to college, except the State of Maine Scholarships.

Applications for scholarships must be made upon blank forms furnished by the Treasurer of the College. They must be made out anew each year and deposited in the Dean’s office before November 1st.

STATE OF MAINE SCHOLARSHIPS

To encourage the best students in the secondary schools of
Maine to seek a college education, the College offers for 1935-36
four competitive scholarships of $500 each. For the distribu-
tion of these awards the State is divided into four districts, as follows: 1. the Counties of Cumberland and York; 2. the Counties of Androscoggin, Kennebec, Lincoln, Oxford, and Sagadahoc; 3. the Counties of Hancock, Knox, Penobscot, Waldo, and Washington; 4. the Counties of Aroostook, Franklin, Piscataquis, and Somerset. Only one scholarship will usually be awarded in each district, but if any district fails to furnish a candidate who passes the special examinations set by the College, with a sufficiently high grade, no award will be made in that district, and an extra award may be made in another district. Candidates for these scholarships must be residents of Maine, must apply as from the districts in which they are attending school when making application, and must be in need of financial assistance. Candidates must satisfy, so far as possible at the time of examination, the entrance requirements of Bowdoin College.

More detailed information may be secured by writing to the Dean.

LOAN FUNDS

The following Loan Funds were established to assist students in unexpected circumstances to continue their college courses. Applications for loans should be addressed to the President.

President's Loan Fund. A sum now amounting to $5,625, received from various sources.

Albion Howe Memorial Loan Fund. A fund, now amounting to $2,053, established by Lucien Howe, M.D., Sc.D., of the Class of 1870, of Buffalo, N. Y., in memory of his brother, Albion Howe, of the Class of 1861. (1903)

George P. Davenport Loan and Trust Fund. A fund, now amounting to $7,856, established by George P. Davenport, A.M., of the Class of 1867, of Bath, Maine. (1908)

MEDICAL SCHOLARSHIPS

Garcelon and Merritt Fund. About $10,000 from the income of this fund, established in memory of Seward Garcelon, of the Medical Class of 1830, and Samuel Merritt, of the Medical Class of 1843, is appropriated annually for medical scholar-
ships. The larger part of this amount is awarded to students pursuing their studies in medical schools and the remainder may be assigned to students in the College who are taking the pre-medical course; but, in the discretion of the Trustees, all of the income available may be assigned to students in medical schools.

Applications for medical scholarships must be made upon blank forms furnished by the President of the College, and must be received by the President before December 1st.

GRADUATE SCHOLARSHIPS

Charles Carroll Everett Scholarship. Certain real estate in Brunswick, converted into a fund amounting to $13,993, bequeathed by Miss Mildred Everett, to found a scholarship in memory of her father, Charles Carroll Everett, D.D., of the Class of 1850, the net income of which is given to that member of the graduating class of Bowdoin College whom the President and Trustees shall deem the best qualified to take a post-graduate course in either this or some other country. (1903)

Henry W. Longfellow Graduate Scholarship. A fund of $6,672, given by the daughters of Henry W. Longfellow, of the Class of 1825, — Miss Alice M. Longfellow, Mrs. Edith L. Dana, and Mrs. Anne L. Thorn, — for a graduate scholarship "that would enable a student, after graduation, to pursue graduate work in some other college, or abroad if considered desirable; the work to be done in English, or general literature, and the field to be as large as possible — Belles Lettres in a wide sense. The student to be selected should be some one not merely proficient in some specialty, or with high marks, but with real ability in the subject and capable of profiting by the advanced work, and of developing in the best way." (1907)

Galen C. Moses Graduate Scholarship. A fund of $5,000, bequeathed by Emma H. Moses, the income "to be awarded and paid to the student most proficient in any natural science during his undergraduate course, who shall actually pursue a post-graduate course in such science at any recognized college or university; said income to be paid to such student for a period not exceeding three years, unless he sooner completes or abandons said post-graduate course." (1934)
The Bowdoin Prize. A fund, now amounting to $21,202, established as a memorial to William J. Curtis, LL.D., of the Class of 1875, by Mrs. Curtis and children. The prize, four-fifths of the total income, is to be awarded not oftener than "once in each five years to that graduate or former member of the College, or member of its faculty at the time of the award, who shall have made, during the period, the most distinctive contribution in any field of human endeavor. The prize shall only be awarded to one who shall, in the judgment of the committee of award, be recognized as having won national and not merely local distinction, or who, in the judgment of the committee, is fairly entitled to be so recognized."

The first award of this prize was made in 1933 to Fred Houdlett Albee, M.D., Sc.D., LL.D., of the Class of 1899.

PRIZES

(Because of the decrease in income, it may be necessary to reduce the prizes paid this year pro rata.)

David Sewall Premium. A prize amounting to Ten Dollars is awarded annually to a member of the Freshman class for excellence in English Composition. (1795)

Class of 1868 Prize. A prize of Forty-five Dollars, contributed by the Class of 1868, is given annually to the author of the best written and spoken oration in the Senior class. (1868)

Brown Composition Prizes. Two prizes, one of Thirty Dollars and one of Twenty Dollars, established by Philip G. Brown, of the Class of 1877, in memory of Philip Henry Brown, Esq., of the Class of 1851, are offered to the Senior class for excellence in Extemporaneous English Composition. (1874)

Smyth Mathematical Prize. A fund of $6,952, the gift of Henry J. Furber, of the Class of 1861, named by him in honor of Professor William Smyth. From the present income of the fund $300 is given to that student in each Sophomore class who obtains the highest rank in the mathematical studies of the first two years. The rank is determined mainly by the daily recitations, but the Faculty may in its discretion order a special examination, the result of which will be combined with the reci-
tation rank. The successful candidate receives $100 at the time the award is made. The remaining $200 is paid to him in installments at the close of each term during Junior and Senior years. If a vacancy occurs during those years, the next in rank secures the benefit of the prize for the remainder of the time. (1876)

**Sewall Greek Prize.** A prize of Twenty-five Dollars, given by Professor Jotham Bradbury Sewall, D.D., of the Class of 1848, formerly Professor of Greek in the College, is awarded to the member of the Sophomore class who sustains the best examination in Greek. (1876)

(1926)

Physical Education

The Sargent Gymnasium has a frontage of 80 feet and a depth of 140 feet. On the first floor are the lockers, dressing rooms, managers' and instructors' rooms, and rooms for boxing, fencing, and hand-ball. On the second floor are the main exercising room, 112 feet by 76 feet, a smaller exercising room, a trophy room, and offices.

The building is equipped with the most approved apparatus, is heated and lighted by modern methods, and is supplied with a ventilating system able to change the air throughout the building every twenty minutes.

The General Thomas Worcester Hyde Athletic Building is connected with the Gymnasium. It has an earth floor 160 feet by 120 feet, and a one-twelfth mile running track ten feet wide. In this building are set off spaces 120 feet by 40 feet for track athletics and 120 feet by 120 feet for a full-sized baseball diamond with space to over-run the bases by nearly fifteen feet.

The Swimming Pool is also connected with the Gymnasium. The building is 130 feet by 60 feet, and the pool itself is 75 feet by 30 feet.
A straight path through the pine grove in the rear of the campus leads from the gymnasium a short distance to the Whittier Athletic Field. This field, named in honor of Dr. Frank Nathaniel Whittier, of the Class of 1885, long the director of the gymnasium, who was largely instrumental in the acquisition and preparation of it for athletic purposes, is about five acres in extent, and is well adapted in all respects for football, and track athletics.

Just to the south of Longfellow Avenue is Pickard Field, given by Frederick William Pickard, LL.D., of the Class of 1894, and named in honor of his family. Here, on a tract of sixty-six acres, are facilities for baseball, tennis, soccer, and freshman football.

**THE ART COLLECTIONS**

The art treasures of the College,—except the portraits and busts in Memorial Hall, the series of portraits of the presidents of the College in Hubbard Hall, and the mural paintings in the Chapel,—are exhibited in the Walker Art Building. This building was designed by Messrs. McKim, Mead, and White and erected by the Misses Mary Sophia and Harriet Sarah Walker of Waltham, Massachusetts, as a memorial of their uncle, Theophilus Wheeler Walker.

The main entrance consists of a loggia, in front of which, and supporting the wall above, are six Ionic columns of stone. Niches in the front wall of the building on either side of the loggia contain bronze copies, by De Angelis, of Naples, of the classical statues of Demosthenes and Sophocles. Pedestals on either side of the ascent to the loggia are surmounted by copies in stone of the lions of the Loggia dei Lanzi.

The entrance from the loggia is to the Sculpture Hall, occupying the central portion of the building beneath a dome which rises to the height of forty-seven feet, and furnishes light to the apartment through a skylight at the top. The four tympana below the dome, each twenty-six feet in width, are filled with four paintings symbolizing the artistic achievements of Athens, Rome, Florence, and Venice, executed by Messrs. John La Farge, Elihu Vedder, Abbott Thayer, and Kenyon Cox, respectively.
Original classical marbles; busts, and work in low-relief; bronze and plaster fac-simile casts of classical figures and groups of statuary are exhibited in this room.

The Bowdoin, Boyd, and Sophia Wheeler Walker Galleries are entered from three sides of the Sculpture Hall. The Bowdoin Gallery contains chiefly the collection of about one hundred paintings, and one hundred and fifty original drawings by old and modern masters bequeathed to the College by Honorable James Bowdoin, and a series of portraits of some of the distinguished benefactors of the College. The Boyd Gallery contains, mainly, the collection of paintings given by Colonel George W. Boyd, of the Class of 1810, a collection of Japanese and Chinese works of art, collected and formerly owned by the late Professor William A. Houghton, A.M., a collection of objects of Oriental Art given by David S. Cowles, Esq., the Virginia Dox collection of objects of native American art, a collection of original Classical Antiquities from Mycenaean to Roman times given by Edward P. Warren, L.H.D., and collections given or loaned by Mr. George W. Hammond, Mrs. Levi C. Wade, Hon. Harold M. Sewall, Mr. Dana Estes, and other friends of the College. The Sophia Wheeler Walker Gallery contains exclusively works of art given by the Misses Walker, being chiefly specimens of ancient glass, Roman sculpture, old Flemish tapestry, Oriental ivory carvings, miniatures, etc., with paintings and drawings by modern artists of the foremost rank, and a bronze relief portrait, by French, of Theophilus Wheeler Walker.

In the basement are two lecture rooms and a room of Assyrian sculpture. The Charles A. Coffin collection of etchings is exhibited mainly in the Assyrian Room. There is also a collection of seventeenth, eighteenth, and nineteenth century watches, bequeathed by Hon. James Phinney Baxter, Litt.D.

James Phinney Baxter Fund. A bequest of $5,000 from Hon. James Phinney Baxter, Litt.D., the income to be used for the “purchase of art objects, the same to be suitably labeled, James Phinney Baxter Collection in memory of Henry Johnson.”
THE LIBRARY

The Library contains about 160,000 bound volumes. It includes the private library of Hon. James Bowdoin, received after his death in 1811; and the extensive collections of the Peucinian and Athenæan Societies, added in 1880.

Special collections worthy of note are the Longfellow collection, the Isaac Watson Dyer Carlyle collection, the Huguenot collection, the Edward C. Guild German Dialect collection, the Abbott collection, and the Maine collection.

The Library possesses valuable sets of periodicals collected during the past century, and more than two hundred and ninety titles are currently received by subscription. The printed catalogue cards of the Library of Congress are received as issued, and this bibliographical collection of increasing value and serviceableness may be consulted by any investigator. Though no formal instruction in bibliography is given, the librarian and his assistants are always ready to lend personal aid to inquirers.

During term time, the Library is open week-days from 8.30 A.M. to 5.30 P.M., and from 6.45 to 10.30 P.M.; Sundays from 2.00 to 4.55 P.M., and 6.45 to 10.30 P.M. In vacation it is also open daily, with the exception of Sundays and holidays.

Annual accessions, which average three thousand volumes, are made to the Library by means of an appropriation by the Boards for the purpose, and from a part of the proceeds of the following library funds.

**Hakluyt Library Fund.** This fund of $1,100 was established in 1875 by Robert Waterston, for the purchase of books on exploration and travel.

**Smyth Fund.** By the conditions of the Smyth Mathematical Prize Fund, given in 1876, the income over and above that necessary for paying the prize is devoted to the purchase of mathematical books.

**Sibley Book Fund.** This fund, now amounting to $6,958, was established in 1881, by Jonathan Langdon Sibley, A.M., Librarian of Harvard College, and is for the purchase of books relating to American history.

**Patten Library Fund.** A fund of $500 given in 1882 by Capt. John Patten, of Bath, Maine.
Sherman Book Fund. This fund of $2,177 was established in 1882 by Mrs. John C. Dodge, of Cambridge, Mass., in memory of her brothers, Joseph Sherman, LL.D., of the Class of 1826, and Thomas Sherman, M.D., of the Medical Class of 1828. Its proceeds are used for current literature.

Ayer Book Fund. This fund of $1,000 was established by the Athenæan Society in 1887 from a bequest of Hon. Samuel Hazen Ayer, of the Class of 1839.

Bond Book Fund. This fund amounting to $7,082, was given by Rev. Elias Bond, D.D., of the Class of 1837, for the purchase of books relating to religion and ethics.

Packard Book Fund. This fund, based upon receipts from certain publications of the Library, is devoted to the purchase of books relating to the State of Maine, as a memorial of Professor Alpheus Spring Packard, D.D., of the Class of 1816.

Wood Book Fund. This fund of $1,000 was given in 1890 by Dr. Robert W. Wood, of Cambridge, Mass., of the Medical Class of 1832. From its proceeds are purchased books on sociology.

Henry Leland Chapman Memorial Fund. A fund of $7,005, established in 1893, by Frederic Henry Gerrish, M.D., LL.D., of the Class of 1866, in memory of his classmate, Professor Henry Leland Chapman, D.D., LL.D. Its income is used for the purchase of books in English Literature.

George S. Bowdoin Book Fund. This fund of $1,020, given in 1895 by the gentleman whose name it bears, is devoted to the maintenance of a collection of books relating to the Huguenots.

Joseph Walker Fund. This fund, amounting to $5,248, was given in 1896 by the Trustees under the will of the late Joseph Walker of Portland. Its proceeds, in accordance with a vote of the Boards, are applied to the general uses of the Library.

Philip Henry Brown Book Fund. This fund of $2,000, the income of which is devoted to the purchase of books on rhetoric and literature, was given in 1901 by the executor of the estate of Captain John Clifford Brown in fulfillment of the latter's desire to establish a memorial of his father, Philip Henry Brown, Esq., of the Class of 1851.

Cutler Library Fund. A fund of $1,000 given in 1902 by
Hon. John L. Cutler, of the Class of 1837. Its income is used for the purchase of books and periodicals.

**Drummond Book Fund.** This fund of $3,000 is a memorial of the Rev. James Drummond, of the Class of 1836, and was given in 1907 by his widow, and his daughter, Mrs. Charles F. Dole, of Boston, Mass.

**Class of 1877 Book Fund.** This fund of $1,013 is a class contribution, made for the most part in 1908.

**Class of 1882 Book Fund.** This fund of $2,300 was given by the Class of 1882 as its contribution to the permanent funds of the College in 1908.

**Class of 1890 Book Fund.** This fund of $1,000 is a class contribution, made in 1908.

**Class of 1901 Book Fund.** This fund of $713 is a class contribution, made in 1908.

**Hubbard Library Fund.** This fund, amounting to $113,267, was established in 1908 by General Thomas Hamlin Hubbard, LL.D., of the Class of 1857. Its income is used "for the maintenance and improvement of the library building and library."

**Fiske Book Fund.** This fund of $1,000 was established by the will of Rev. John Orr Fiske, D.D., of the Class of 1837. Its income became available in 1910.

**William A. Packard Book Fund.** This fund of $5,000 was established in 1910 by the will of Professor William Alfred Packard, Ph.D., D.D., of the Class of 1851. Its income is used "preferably for the purchase of such books as illustrate the Greek and Latin languages and literatures."

**Appleton Library Fund.** This fund, of $10,052, was given in 1916 by Hon. Frederick Hunt Appleton, LL.D., of the Class of 1864, in memory of his father, Hon. John Appleton, LL.D., Chief Justice of Maine, of the Class of 1822. Its income is for the "general uses of the College Library."

**Lynde Book Fund.** This fund of $1,486 was established in 1918, by the will of George S. Lynde, of New York, in memory of Frank J. Lynde, of the Class of 1877.

**Class of 1875 Book Fund.** This fund of $1,663 was established in 1918 by the Class of 1875. Its income is used for the "purchase of books relating to American history, in its broadest sense."

Stanwood Book Fund. A fund of $1,269.72 bequeathed by Edward Stanwood, Litt.D., of the Class of 1861, received in 1925. Its income is used “preferably for books in American political history.”

Morse Fund. A bequest of $1,000 from Edward S. Morse, Ph.D., received in 1926.

Lewis Pierce Book Fund. A fund now amounting to $32,000, established in 1926 by Henry Hill Pierce, LL.D., of the Class of 1896, in memory of his father, a member of the Class of 1852. The income is used “preferably for the purchase of books.”

Henry Crosby Emery Book Fund. A fund now amounting to $1,998, given in 1926 by the Class of 1899 in memory of one of their teachers, Professor Henry Crosby Emery, Ph.D., LL.D., of the Class of 1892. The income is used for the purchase of books in the Social Sciences.

Class of 1888 Library Fund. A fund of $1,210, established in 1928 by the Class of 1888 on its fortieth anniversary. The income is for the “use of the Library, preferably for the purchase of books.”

Darlington Book Fund. A gift of $1,000 from Mrs. Sibyl Hubbard Darlington, the “income to be used for the purchase of current books, preferably for the reading room.”

Samuel Wesley Hatch Book Fund. A bequest of $1,000, received in 1928, from Miss Laura A. Hatch, of Brunswick, as a memorial of her father, Samuel Wesley Hatch, of the Class of 1847. The income is used for the purchase of books.

Class of 1904 Library Fund. A fund now amounting to $988, established in 1929 by the Class of 1904 on its twenty-fifth anniversary.

Solon B. Lufkin Library Fund. A bequest of $500 from Solon B. Lufkin, of Brunswick, for the “purposes of the Library,” received in 1931.

Louis C. Hatch Bequest. The sum of $100 is provided each
year by the will of Louis C. Hatch, Ph.D., of the Class of 1895, "for books on the subjects of history, government, and economics, decided preference to be given to large sets and to publications of learned societies, valuable for the purposes of investigation."

ACHORN FUND. By the conditions of the fund of $1,500 established in 1932 by Edgar O. Achorn, LL.D., of the Class of 1881, for providing the College with American flags, any surplus income is used for the purchase of books for the Library.

FRANCIS FESSENDEN LIBRARY FUND. A bequest of $10,000, received in 1934 from John Hubbard, a son of General Thomas H. Hubbard, LL.D., of the Class of 1857, to establish a library fund in memory of his father's friend, General Francis Fessenden, of the Class of 1858.
