31 July-1 Aug. Examinations of the first term.
3 Aug. Mon.  Second term begins, 8.00 A.M.
11-12 Sept. Examinations of the second term.

GENERAL INFORMATION

Bowdoin College offers in the summer of 1942 certain courses which count as full credits toward graduation. Five one-hour periods per week, Monday to Friday, are devoted to each course, and in some courses laboratory periods are required. No student may take more than two courses at the same time, except that in unusual cases the Dean may permit a student to take three courses.

Any student who has passed four semester courses may elect those courses stated in the Annual Catalogue as "Elective for Sophomores, Juniors, and Seniors." Any student who has passed twelve semester courses may elect those courses stated in the Annual Catalogue as "Elective for Juniors and Seniors."

Qualifications for the admission of Freshmen to the summer sessions are the same as for regular admission to Bowdoin College.

Courses in Physical Education are required of all students.

Fees: The tuition fee for each six weeks term of the summer session is $75.00, payable at the time of registration. A blanket tax to cover the expenses of all extra-curricular activities is $5.00 a term. Laboratory fees for certain courses in Chemistry and Zoology are the same as stated in the Annual Catalogue. Rent for rooms in the college dormitories for each of the terms is one-quarter of the normal semester charge for the same room.

Services, at which attendance is voluntary, are held in the Chapel each week-day, except Saturday, at noon.

All students are required to register on Saturday, the 20th of June, beginning at 9 A.M.

All communications in regard to the summer session should be addressed to the Director of Admissions, Bowdoin College, Brunswick, Maine.
Entered as second-class matter, June 28, 1907, at Brunswick, Maine, under Act of Congress of July 16, 1894. Published monthly by the College.

REVISION OF MODERN LANGUAGE REQUIREMENT

1. On February 26, 1942, it was voted by the Faculty that the modern language requirement be reduced for the duration of the war to one language, either French or German. This requirement may be fulfilled by taking in college one advanced course in the language offered for admission.

2. Under “Freshman year,” item (3) in the annual catalog, page 52, the new requirement will read:

(3) One modern language: French or German.

(a) If the language chosen is the one offered for admission to college, the requirement may be fulfilled by taking one advanced course, such as French 3-4 or German 3-4.

(b) If the language chosen was not offered for admission to college, the requirement may be fulfilled by taking two year courses in that language.

(c) As a substitute for the above requirement, an especially well trained student may, with the consent of the Dean, take at the beginning of his Freshman year an examination in one of these languages and on passing it be exempted from further language requirements.

In content and difficulty this examination will be the equivalent of the regular examination given at the end of the year in French 3-4 or German 3-4 and will include grammar and composition as well as translation.

(d) Students who entered college with at least three admission units in one of these languages and two admission units in the other will be excused from further modern language requirements.

This revised requirement is in effect with the class entering in 1942.
